PREFACE

This handbook has been developed by the School of Music with the purpose of assisting students in preparation for successful completion of the Keyboard Proficiency Examination (KPE).

Beginning with degree completion plans starting in the Fall 2013 Semester, ALL School of Music B.M., B.S., and B.A. degree candidates must complete the KPE as part of the process required to finish the degree.

The KPE test is divided into seven sections, each of which will be evaluated separately (pass/fail):

1. **Repertoire I** – one song from the list of five pieces.
2. **Repertoire II** – another song from the list of five pieces.
3. **Patriotic Repertoire** – two songs: “The Star-Spangled Banner” and “My Country, ‘Tis of Thee”.
4. **Hymn or Worship Repertoire** – either one hymn or two worship songs from the list.
5. **Sight-Reading** – as assigned at the test time.
6. **Harmonization** – as indicated for the Performing Arts OR the Worship, Artist/Songwriter, and Commercial Music track.
7. **Piano Technique** – scales and arpeggios as indicated.

Further details for each test section can be found within the contents of this handbook. The expected competency level is similar to the requirements found in NASM accredited music schools across the country. Students are required to prepare for the examination under the instruction of Liberty University piano faculty in private or class piano courses until the examination is successfully completed. Any student having inadequate piano skills – insufficient to pass the KPE test – is to seek immediate assistance from a member of the keyboard faculty.

The KPE test is offered two times every semester – once to those not enrolled in class or applied piano, once to those so enrolled; each student has one opportunity per semester to take the test. Students may take as few as 1 or as many as 7 sections of the test at that time. The student is passed on each section of the examination when the evaluating faculty recognizes that the student’s keyboard skill is minimally functional for that particular portion. The student is determined to be “functional” when the piece is performed with little or no pitch and rhythm errors and the continuity of the piece remains intact.

Functional piano skills are necessary for success in the field of music. The School of Music faculty has made the commitment to provide each student with programs of study and resources that assist in equipping those called in music – education, ethnomusicology, ministry, performance, songwriting, theory-composition, and other disciplines – to glorify God in all that is done.

(Edited by Tad Hardin, August 2014)
The student is required to play two solos for this section. The repertoire may be selected from *The Older Beginner Piano Course, Level II, Unit 10*, by James Bastien or from this book. If not chosen from these two sources, the student must confer with the respective instructor regarding appropriate literature. Repertoire does not have to be memorized.
