***Satellite:**

JCTV is carried unscrambled, via KU Satellite, on Satellite Intelsat Americas 5 (Telstar 5). This means that all KU band satellite dish owners in North America can view JCTV for free. (KU dishes are about the same size as a Direct TV dish but offer many free channels – no monthly fees – dishes can be purchased over the internet and cost under \$300. Visit www.glorystar.tv for more information.)

***Digital multicast**

Most digital stations multicast several television signals over the air. TBN stations multi cast the following TV Networks: TBN; JCTV, enlace USA and The Church Channel. Viewers who purchase either set-top-boxes or purchase digital TV receivers with built in over-the-air tuners may watch any of these four channels free over the air. (Visit your local electronics store, like Radio Shack, for more information.)
