New Content Editor

With the most recent Blackboard Upgrade, a new Content Editor was released. This replaces the previous WYSIWYG, also known as the Virtual Text Box Editor (VTBE).

1. When first accessed, the Content Editor will be collapsed. Click this button to expand, if further options are needed.

2. Below is an explanation of commonly-used buttons unique to this editor.
   
   a. To preview your content, select this button.
   b. To expand the editor to full-screen, click the four arrows.
   c. To add mathematical symbols, choose the function button.
   d. Video Everywhere will allow the addition of capturing live video via a webcam.
      
      Note: It will require a YouTube or Google account.
   e. The Word Counter will show how many total words are being written.
   f. For a detailed description of each icon, click the Help button.
