SCHOOL FINANCE AND MANAGEMENT

COURSE DESCRIPTION
Basic methods of school finance and business management and principles of plant, finance, budgeting and accounting will be discussed. Federal and State regulations and grants will be studied.

RATIONALE
Financial and managerial leadership of a school building or district is a primary factor in the success or failure of school instructional programs. This course provides an opportunity for public and private school practicing and prospective administrators to gain an understanding of their role in these critical areas. A comprehensive understanding of the financial implications of systemic reform, centralized goal setting, accountability standards, and decentralized forms of site-based management, school choice, charter schools, and the voucher system will be the main focus of this study.

I. PREREQUISITE
For information regarding prerequisites for this course, please refer to the Academic Course Catalog.

C. Microsoft Word

IV. MEASURABLE LEARNING OUTCOMES
Upon successful completion of this course, the student will be able to:
A. Apply the differences in equity, quality, equality, diversity, and efficiency in developing financial policies, budget development, and financial allocations for educational programs.
B. Illustrate that expenditures for quality schools and quality educational programs benefit the community in dollars returned, in increased earnings, and in standards of living.
C. Apply the biblical principles of accountability, stewardship, and integrity to public school and private school finance.

D. Analyze the economic conditions and dynamics of the diverse school community, including emerging financial issues and trends that impact the school community and new sources of revenue to supplement local, state, and federal funding.

E. Identify issues that develop during the budgeting process, accounting, auditing, and purchasing processes, allocation of resources, and managing and protecting school funds.

F. Identify the political, social, cultural, and economic systems and processes that impact schools and their distribution of financial resources.

G. Apply financial concepts through numeric problems, interviews with district and building administrators, and computer simulations.

H. Describe the philosophical and historical basis for funding schools as a national economic investment, whether public, private, or charter programs are involved.
