COURSE SYLLABUS

MAAC 646
PSYCHOPATHOLOGY AND COUNSELING

COURSE DESCRIPTION

This course studies various psychological disorders with an emphasis on the impact of addictive disorders and normalcy across the lifespan. Students are prepared to responsibly and competently assess, diagnose, conceptualize, and counsel clients as defined by the Diagnostic Statistical Manual classification system. Concepts and constructs, assessment processes, etiology, cultural factors, differential diagnosis, decision-making, and evidence-based therapeutic approaches are emphasized. Clinical and scientific research is integrated through the course with a biblical worldview so that students have a robust biopsychosocialspiritual lens to understand and treat mental disorders.

RATIONALE

Becoming a professional in the field of counseling will require a thorough knowledge of the current diagnostic criteria used by the mental health profession. Making an accurate differential diagnosis is a key component of effective counseling. Understanding the DSM-5 and acquiring interviewing strategies for effectively and efficiently gathering diagnostic information will aid the developing counselor in becoming competent. This course is designed to provide students with foundational knowledge in order to be competent in assessment, diagnosis, and treatment planning using the DSM-5. Further, the course contains information that you will need to know in order to pass most state licensure exams.

Proficient knowledge of all aspects of human behavior, coupled with sound biblical values, will permit a more active and excellent, informed dialogue and critique of present clinical practice.

I. PREREQUISITE

For information regarding prerequisites for this course, please refer to the Academic Course Catalog.

II. REQUIRED RESOURCE PURCHASE

Click on the following link to view the required resource(s) for the term in which you are registered: http://bookstore.mbsdirect.net/liberty.htm

III. ADDITIONAL MATERIALS FOR LEARNING

A. Computer with basic audio/video output equipment
B. Internet access (broadband recommended)
C. Microsoft Office

IV. MEASURABLE LEARNING OUTCOMES

Page 1 of 6
Upon successful completion of this course, the student will be able to:

| A. | Knows, understands, and categorizes the established diagnostic criteria for substance, abuse, neurodevelopmental, mental, and emotional disorders including those caused by crisis, disaster, or other trauma. A6, A9 | ● Discussion Boards (C) ● DSM 5 Summaries (D) ● Quizzes 1, 2, 3, & 4 (G) ● Case Studies 1, 2, & 3 (F) |
| B. | Analyze case studies and apply the principles and processes of diagnosis including assessment tools, differential diagnosis, cultural, biblical worldview, case conceptualization, and ethical considerations using the current edition of the *Diagnostic and Statistical Manual of Mental Disorders-5 (DSM-5)*. C2, C4, G1, K1 | ● Case Studies 1, 2, & 3 (F) |
| C. | Knows, understands, and demonstrates knowledge of etiology of mental, substance use, and other mental health disorders with considerations of cultural and biblical worldview. C2; C4; II. G3f; K1 | ● Quizzes 1, 2, 3, & 4 (G) ● Research Paper (E) |
| D. | Knows, understands, and synthesizes the principles and models of normalcy and psychopathology leading to diagnoses with consideration of multiculturalism and a biblical worldview. C8; G1; G3f | ● Quizzes 1, 2, 3, & 4 (G) ● Discussion Boards (C) ● Case Studies 1, 2, & 3 (F) |
| E. | Knows, understands, and is able to evaluate and apply appropriate treatments with consideration of cultural and biblical worldview. A6; A9; K1 | ● Case Studies 1, 2, 3, & 4 (F) ● Research Paper (E) |
| F. | Exhibit advanced competency by knowing, understanding, evaluating, synthesizing, and applying evidence-based treatments for a particular psychopathological disorder with consideration of cultural and biblical worldview implications. Criteria C2, C4, D8; I3; K1) | ● Case Studies 1, 2, 3, & 4 (F) ● Research Paper (E) |
| G. | Examine and demonstrate knowledge of psychopathology in the environment through experiential application. G1; II. G3f | ● Social Experiment and Discussion Board (C) |
| H. | Knows, understands, and applies appropriate evidence-based treatment interventions including the use of community resources into the formulation of effective treatment plans. D8; I3 | ● Quizzes 1, 2, 3, & 4 (G) ● Case Studies 1, 2, 3, & 4 (F) ● Research Paper (E) |

V. **COURSE REQUIREMENTS AND ASSIGNMENTS**

A. Textbook readings and lecture presentations/notes

B. Course Requirements Checklist

   After reading the Course Syllabus and [Student Expectations](#), the student will complete the related checklist found in Module/Week 1.

C. Discussion Board Forums (3)
Discussion Board Forum 1 and 2 are collaborative learning experiences. Therefore, the student is required to provide a thread in response to the provided prompt for each forum. Each thread must be at least 400 words, incorporate at least 1 citation in current APA format, and demonstrate course-related knowledge. In addition to the thread, the student is required to reply to 2 other classmates’ threads. Each reply must be at least 200 words. Discussion Board Forum 1 is due in Module 1 and Discussion Board Forum 2 is due in Module 2.

Discussion Board Forum 3 requires completing a Social Experiential Activity of Psychopathology. Each student will create a “bizarre” activity to carry out in the natural environment. The purpose of the assignment is to peak into the experience that many people who have mental disorders live. It is an honor system that each student will carry out their activity. This assignment is due in Module 5.

After performing the exercise, each student will use the discussion board forum 3 prompt to describe their experiment and reflect on the experience in terms of issues relevant to psychopathology. Each initial thread must be at least 400 words, incorporate at least 1 citation in current APA format, and demonstrate course-related knowledge along with reporting on the experiential activity. Each student should respond to at least two other classmates. MLO: H.

D. DSM-5 Summaries

The student must complete a 100–150-word summary for 5 disorder categories listed in the DSM-5. From the various categorie in the DSM 5 Substance Use and Addictive Disorders must be one of the categories summarized. The summaries must be in current APA format. This is due in Module 1.

E. Research Paper

Topic

The student must select a topic from a list of provided disorder categories and submit a 100-word rationale for his/her interest in the topic. This is due in Module 2.

Abstract and Annotated Bibliography

The student must construct a 250-word abstract and annotated bibliography with at least 10 sources in current APA format. This is due in Module 4.

Outline

The student must use the provided outline template to construct a working outline of his/her paper. This is due in Module 5.

Final

The student must write a 12–14-page research-based paper in current APA format that focuses on his/her selected topic from the provided list of disorder categories. The paper must include at least 10 scholarly sources in addition to referencing the course textbooks and the Bible. The following areas must be included in the Research Paper:
1. A succinct overview of the disorders in this DSM-5 category (do not copy and paste from the DSM-5—this information must be evaluated and reworded into your own words)

2. Discuss how substance use impacts the disorders in this category. Go into depth on both a.) how substance use could cause some of these disorders? and b.) what the effects are to individuals with these disorders when they use drugs and alcohol. In specific, how does the use exacerbate their disorder?

3. What processes would be used to evaluate for disorders in this category with individuals who are also using drugs and/or alcohol.

4. Treatment options for individuals with a disorder in this category when they are simultaneously using drugs and/or alcohol.

5. A biblical perspective of these disorders: the specific disorders in the category chosen along with drug and/or alcohol use

6. Future research considerations for dual disorders

This assignment is due in Module 7.

F. Case Studies (3)

The student must write a 3–4-page Case Study in current APA format that determines the key issues presented, provides diagnostic impressions based upon the DSM-5, and includes treatment recommendations that support a collaborative effort and include a bio/psycho/social/spiritual approach. The Case Study must include at least 2–3 scholarly sources in addition to referencing the course textbooks and the Bible. The first Case Study is due in Module 3, the second Case Study is due in Module 6, and the third Case Study is due in Module 8.

G. Quizzes (4)

Each quiz will cover the Reading & Study material for the specified modules/weeks. Each quiz will be open-book/open-notes, contain 25 multiple-choice and true/false questions, and have a 1-hour time limit. The first quiz is due in Module 2, the second quiz is due in Module 4, the third quiz is due in Module 6, and the fourth quiz is due in Module 8.

B. Scale
D- = 680–699   F = 0–679

C. Late Assignment Policy
If the student is unable to complete an assignment on time, then he or she must contact the instructor immediately by email.

Assignments that are submitted after the due date without prior approval from the instructor will receive the following deductions:

1. Late assignments submitted within one week of the due date will receive a 10% deduction.
2. Assignments submitted more than one week late will receive a 20% deduction.
3. Assignments submitted two weeks late or after the final date of the course will not be accepted.
4. Late Discussion Board threads or replies will not be accepted.

Special circumstances (e.g. death in the family, personal health issues) will be reviewed by the instructor on a case-by-case basis.

D. Tests/Exams
1. For timed tests/exams students are required to complete the exam within the assigned time. For students who exceed this time limit a penalty of 1 point may be deducted for each minute they exceed the assigned time limit.
2. Students must take the exam during the assigned module/week. Late submissions will be penalized at 5% per day, cumulative, with no test/exam being accepted seven (7) days after the original due date without written approval from the professor. Whenever possible, this approval must be sought prior to the test/exam due date.

E. Dual Relationship
The faculty is responsible to interact with counseling students in a supervisory capacity/role. As such, faculty may provide students professional principles, guidance, and recommendations as it relates to the context of the student-client setting. The faculty is responsible to avoid dual relationships with students such as entering a student-counselor or student-pastor relationship. Thus, the faculty does not provide personal counseling addressing student personal problems. If a faculty member perceives that a student is in need of personal or professional counseling, then that faculty member will recommend that the student pursue either pastoral or professional assistance from a counselor in their community.
F. Limits of Confidentiality

In the event of a student’s disclosure, either verbally or in writing, of threat of serious or foreseeable harm to self or others, abuse or neglect of a minor, elderly or disabled person, or current involvement in criminal activity, the faculty, staff, administrator, or supervisor will take immediate action. This action may include, but is not limited to, immediate notification of appropriate state law enforcement or social services personnel, emergency contacts, and notification of the appropriate program chair or online dean. The incident and action taken will become part of the student’s permanent record.

G. Disability Assistance

Students with a documented disability may contact Liberty University Online’s Office of Disability Academic Support (ODAS) at LUODAS@liberty.edu to make arrangements for academic accommodations. Further information can be found at www.liberty.edu/disabilitysupport.
