## ***COURSE SYLLABUS***

---

### **CJUS 363**

#### **COMPUTER AND CYBER FORENSICS**

#### **COURSE DESCRIPTION**

The course will focus on the role of computer forensics and the methods used in the investigation of computer crimes. The course explains the need for proper investigation and illustrates the process of locating, handling, and processing computer evidence.

#### **RATIONALE**

This course is an introduction designed to familiarize the student with current approaches to computer, digital and cyber related forensics techniques and reinforce the appropriate procedures for evidence collection and processing. This course augments the core curriculum for criminal justice with a special emphasis in the challenging field of computer sciences. As electronic information increases in its importance and use in the court of law, future investigators need to understand the methods and processes available to them, or to their coworkers to collect, process, analyze and use information evidence supporting investigations and judicial proceedings.

#### **I. PREREQUISITE**

For information regarding prerequisites for this course, please refer to the [Academic Course Catalog](#).

#### **II. REQUIRED RESOURCE PURCHASE**

Click on the following link to view the required resource(s) for the term in which you are registered: <http://bookstore.mbsdirect.net/liberty.htm>

#### **III. ADDITIONAL MATERIALS FOR LEARNING**

- A. Computer with basic audio/video output equipment
- B. Internet access (broadband recommended)
- C. Microsoft Word

#### **IV. MEASURABLE LEARNING OUTCOMES**

Upon successful completion of this course, the student will be able to:

Describe digital forensic sciences as a profession.

- A. Explain basic tools and techniques used in the field of computer forensics sciences.
- B. Evaluate an emerging issue in computer and cyber forensics.
- C. Participate in a cyber crime investigation.
- D. Articulate a biblical worldview of computer sciences, and the legal profession.

#### **V. COURSE REQUIREMENTS AND ASSIGNMENTS**

A. Textbook readings and lecture presentations

B. Course Requirements Checklist

After reading the Syllabus and [Student Expectations](#), the student will complete the related checklist found in Module/Week 1.

C. Discussion Board Forums (3)

Discussion boards are collaborative learning experiences. Therefore, the student will participate in 3 Discussion Board forums. Threads must be at least 400 words. The initial thread must contain two scholarly sources. In addition to the thread, the student must post replies of at least 200 words to 3 classmates' threads and cite one source.

D. Deleted Files Forensics Paper

The student will submit a 2–3-page paper outlining the options for retrieving the deleted files and explain their capabilities by outlining what hardware and software was needed.

E. Term Paper

The student will submit a 6–8-page Term Paper topic specific to computer crime or computer forensics that represents his/her original work. This assignment will be submitted in 4 parts: Topic Submission, Outline, Bibliography, and Final Submission. The paper must be in current APA format and have a minimum of 5 scholarly sources.

F. Hashing Files Project

The student will compose a 1–2-page paper explaining what a hash value is and why it is important in computer forensics. The student must include detailed documentation of the activities that he/she conducted using the hashing website, documenting his/her hash values and discussing why the hash value changed.

G. Quizzes

The student will take 4 quizzes, each containing 25 multiple choice questions to be completed in 30 minutes. Each quiz will be open-book/open-notes. The questions will be a combination of questions provided in the assigned chapters, developed from chapter content, and expressed in either outside reading or presentations associated with the module/week.

H. Tests (2)

The student will take a midterm and final test. Each test will contain 50 multiple-choice questions and must be completed in 90 minutes. The tests are open-book/open-notes and will cover the content presented through the readings and assignments.

**VI. COURSE GRADING AND POLICIES**

A. Points

Course Requirements Checklist		10
Discussion Board Forums (3 at 50 pts ea)		150
Deleted Files Forensics Paper		100
Term Paper		
Topic Submission		10
Bibliography		20
Outline		20
Final Submission		100
Hashing Files Project		100
Quizzes	(4 at 50 pts each)	200
Tests	(2 at 150 pts ea)	300
	<b>Total</b>	<b>1010</b>

B. Scale

A = 900–1010 B = 800–899 C = 700–799 D = 600–699 F = 0–599

C. Disability Assistance

Students with a documented disability may contact Liberty University Online's Office of Disability Academic Support (ODAS) at [LUOODAS@liberty.edu](mailto:LUOODAS@liberty.edu) to make arrangements for academic accommodations. Further information can be found at [www.liberty.edu/disabilitysupport](http://www.liberty.edu/disabilitysupport).

## ***COURSE SCHEDULE***

### **CJUS 363**

Textbook: Nelson et al., *Guide to Computer Forensics and Investigations* (2016).

<b>MODULE/ WEEK</b>	<b>READING &amp; STUDY</b>	<b>ASSIGNMENTS</b>	<b>POINTS</b>
<b>1</b>	Nelson et al.: chs. 1–2 1 presentation	Course Requirements Checklist	10
		Class Introductions	0
		DB Forum 1	50
		Quiz 1	50
<b>2</b>	Nelson et al.: chs. 3, 5 2 presentations	Deleted Files Forensics Paper	100
		Term Paper: Topic Submission	10
		Quiz 2	50
<b>3</b>	Nelson et al.: chs. 4, 6	DB Forum 2	50
		Term Paper: Bibliography	20
		Quiz 3	50
<b>4</b>	Nelson et al.: ch. 9 2 presentations	Term Paper: Outline	20
		Test 1	150
<b>5</b>	Nelson et al.: ch. 11 1 presentation 1 website	Term Paper: Final Submission	100
		Quiz 4	50
<b>6</b>	Nelson et al.: chs. 12–13 2 presentations 2 websites	DB Forum 3	50
<b>7</b>	Nelson et al.: chs. 8, 14 2 presentations	Hashing Files Project	100
<b>8</b>	Nelson et al.: ch. 15 1 presentation	Test 2	150
<b>TOTAL</b>			<b>1010</b>

DB = Discussion Board

**NOTE:** Each course module/week (except Module/Week 1) begins on Tuesday morning at 12:00 a.m. (ET) and ends on Monday night at 11:59 p.m. (ET). The final Module/Week ends at 11:59 p.m. (ET) on **Friday**.
