COURSE SYLLABUS

MAAC 506
INTEGRATION OF SPIRITUALITY AND COUNSELING

COURSE DESCRIPTION
Students critically examine how a Christian worldview and a client’s spirituality impact the assessment, diagnosis, and treatment planning process in counseling. Ethical, diagnostic, and assessment issues relevant to the use of Christian spiritual interventions with appropriately religious individuals, couples, and families are considered, along with current research related to spirituality and counseling.

RATIONALE
Integration of psychology, theology, and spirituality provides the student with an overview of integration models as a theoretical and practical foundation for faith-based counseling. In order to practice Christian counseling, professional counselors must be able to articulate a Christian worldview and understand the way in which their worldview informs counseling theory and practice.

The faculty is responsible to avoid dual relationships with students such as entering a student-counselor or student-pastor relationship. Thus, the faculty does not provide personal counseling addressing student personal problems. If a faculty member perceives that a student is in need of personal or professional counseling, then that faculty member will recommend that the student pursue either pastoral or professional assistance from a counselor in their community.
