

**COMMERCIAL PILOT ADDED MULTI ENGINE CLASS RATING COURSE SUMMARY**

- A. To successfully complete this Commercial Pilot Added Multi Engine Class Rating Course and exercise the privileges of a Commercial Pilot Certificate with an Airplane Multi Engine Rating, the student must complete each of the mandatory training units included in this course and demonstrate the level of knowledge and skills proficiency required by:
  - 1. The End of Course Stage Check Unit,
  - 2. The FAA Practical Test.
- B. Furthermore, this course is comprised of 1 stage, which has specific objectives and completion standards as follows:
  - 1. Stage 1
    - a) This stage, which is for the multi engine rating, provides a foundation for all relevant multi engine maneuvers and procedures, including normal and engine-out operations. The final portion of the stage concentrates on multi engine procedures in the IFR environment with both normal instrument approaches and engine-out instrument approach procedures.
- C. The Commercial Pilot Added Multi Engine Class Rating Course is comprised of 11 mandatory training units as described in the table below. All times are planned times. If the training objectives are met in less time, then the unit may be considered complete. However, all 14 CFR aeronautical experience requirements must be met by the end of the course.
