

DEPARTMENT OF COMMUNITY CARE & COUNSELING

Fieldwork Manual

Academic Programs
**Masters of Marriage & Family Therapy
(MMFT)**

2026-2027

HANCOCK WELCOME CENTER

Welcome to Fieldwork at Liberty University

Congratulations on reaching this important milestone! Fieldwork is a crucial step in your journey, where you transition from academic learning to real-world application. This experience will allow you to apply, evaluate, and refine your clinical skills, bridging the gap between theory and practice.

As you embark on this phase, remember that professional growth is a continuous journey. The foundation you build during your training will be vital to your future success. I pray this experience will be both challenging and rewarding, guiding you to become the professional God intends you to be.

May you find fulfillment and trust in God's guidance as you take this next step towards your future career.

Sincerely,

April R. Crable

April R. Crable, Ph.D., MBA, LPC, CSOTP, BC-TM
Director of Clinical Training and Operations, Professor

Mission Statement

Fieldwork courses develop ethical and clinically competent therapists. Therapists-in-training at Liberty University are equipped to integrate Biblical principles and model the compassion of Christ while serving diverse populations.

Acknowledgment of Fieldwork Manual

This manual is provided to students and applicants for their general guidance only. It does not constitute a contract, either expressed or implied, and is subject to change at the discretion of Liberty University or the discretion of the Program Directors.

All students are expected to read this manual and have a thorough understanding of its contents.

*Students are also expected to be familiar with the content on the fieldwork websites linked in the **Contact Information** section of this manual.* Students may discuss the manual and direct questions and concerns with the Director of Clinical Training and Operations regarding any material contained in the manual. Students agree to abide by all procedures, policies, and guidelines in this manual.

Students understand that this manual may be modified from time to time as University or Program policies, procedures, and guidelines are implemented or changed and that it is their responsibility to review the manual from time to time to remain current with its contents. Note: Information obtained through student-led social media sites (e.g., Facebook groups) is not official communication or policy from the Fieldwork Office.

1.1 Fieldwork Courses Description

Fieldwork courses involve an intensely supervised experience in the student's designated program area at an approved site. While gaining direct service experience with clients, students regularly meet with an approved supervisor. Student therapy performance is evaluated throughout the fieldwork experience. Written and oral presentations are a basic part of the group supervisory process with a Liberty University faculty supervisor. The student's professional development along with the dynamics of the therapy relationship, diagnosis, treatment, and legal/ethical issues are primary areas of focus.

1.2 Rationale

Fieldwork courses involve participation in a planned clinical experience at an approved agency or other settings under an approved supervisor. During the fieldwork experience, status gradually shifts from that of a student to that of a pre-professional. Since most, if not all, required coursework has been completed by this time, students can contribute to the cooperating agency by assisting its staff in carrying out many of the normal clinical activities of that agency. The purpose of the fieldwork course is to provide a supervised, field-based work experience that allows students to:

- Integrate and synthesize theories and techniques learned in the classroom in a real work setting
- Develop more fully the personal qualities, characteristics, and behavior of a marriage and family therapist
- Transition from "trainee" to "professional practitioner"

2.1 Course Requirements

The Marriage & Family Therapy program requires the completion of fieldwork experience. Fieldwork courses can only be taken **after the successful completion of all prerequisite requirements**. Please refer to the [Program Handbook](#) for additional information.

Marriage & Family Therapy

The Marriage & Family Therapy program requires the completion of a 12-month supervised internship with a minimum of 300 hours. **Please note**, some states will require more hours for your internship. It is

your responsibility to check with your state board to ensure you are meeting the requirements.

Each student's fieldwork course includes the following:

1. **Direct service** by working with clients through the therapeutic process (clinical in nature) learned during MMFT 500, 501, 601, 602, 603, & 647. Examples of direct client contact: individual therapy, couples therapy, family therapy, group therapy, or intakes.
 - a. **Internship: Minimum 300 clock hours of direct service. Marriage & Family Therapy students must have at least 100 hours of direct clinical contact with couples or families.**
2. Please contact the Internship Office for any question regarding whether an activity counts as direct client contact.
3. **A minimum of one hour per week** per site of individual and/or triadic supervision throughout fieldwork with the approved site supervisor. Telesupervision is permitted. **The site supervisor or another designated licensed or associate licensed individual must always be on-site while internship students are present.**
4. The opportunity for the student to become familiar with a variety of professional activities and resources in addition to direct service (e.g., record keeping, assessment instruments, supervision, information and referral, in-service and staff meetings).
5. The opportunity for the student to develop program-appropriate video recordings for use in supervision to receive live supervision of his or her interactions with clients. Students are required to share at least two videotaped therapy sessions (per semester) and submit verbatim transcripts into Canvas. See the course syllabus for details. **Students not permitted to tape a client's session are required to secure a second site that permits the videotaping of client sessions.**
6. For the purposes of faculty and site supervision, students must record:
 - i. Two therapy sessions to submit to faculty and site supervisors.
 - ii. No mock sessions are permitted
 - b. Students will upload videos through a third-party platform.
 - c. Students will submit a verbatim form:
 - i. An 8-10-minute segment of the recorded session.
 - ii. Faculty will provide feedback on this portion of the session.
 - d. Devices students can use for recording:
 - i. Digital cameras
 - ii. Camcorders
 - iii. Computer webcam – must be recorded through a HIPAA compliant platform
7. Devices that are inherently cloud-based such as phone and tablets **cannot** be used for video recording (please contact the Fieldwork Office if you need further clarification).
8. Cloud-based software (i.e., transcribing cloud-based services) is **not** permitted.
9. Evaluation of the student's therapy performance throughout fieldwork, including documentation of a formal evaluation after the student completes fieldwork by a program faculty supervisor in consultation with the site supervisor. Students and site supervisors discuss the site supervisor's evaluation of student performance at midterm and final. In addition, the faculty supervisor consults with the site supervisor at least three times and as needed.

Students must earn a passing grade for all course assignments (840-1010 points in gradebook).

- Midterm and final hours reports with site supervisor and faculty approval of hours.
- Receive passing evaluations by the supervisor and faculty supervisor.
- Adhere to the AAMFT Code of Ethics at all times.
- Successfully complete and submit all clinical assignments, which includes, but not limited to, case presentation assignments, group supervision, evaluations, hours reports, etc.
- Provide proof of liability insurance.
- Successfully complete Telemental Health Training.
- Meet the class and University faculty group supervision attendance policy.

- Hours earned during the semester do not count when a student fails a fieldwork course.
- These courses are full-semester commitments. Students are required to stay at the site until the end of the semester.
- Being absent from the site is not permitted. Extenuating circumstances will be considered and must be communicated with the site supervisor **and** faculty supervisor.

NP (No Pass) If students fail to meet any of the requirements above and/or do not earn a minimum of 840 total points for the semester. Hours earned during the semester do not count when a student fails a fieldwork course.

2.2 Documentation

Marriage & Family Therapy

The following hours must be completed by the end of the student's fieldwork experience:

- **Direct client contact**
 - a minimum of 300 direct clinical contact hours with individuals, couples, families, or other systems
 - a minimum of 100 hours must be relational that occur over a minimum of 12 months of clinical practice.
 - **Please note**, some states will require more hours for your internship. It is your responsibility to check with your state board to ensure you are meeting the requirements.
- **Individual supervision**
 - Must meet at least one hour per week per site with an approved supervisor
 - If individual supervision is skipped one week it may be made up and counted during the week before or after
- **Group supervision (synchronous in class with faculty supervisor)**
 - Meets once a week for 2.5 hours.
 - Total of 100 supervision hours
 - 50 of which must include observable data (e.g. videos)
 - Fall/Spring semesters minimum 37.5 hours
 - Summer semesters minimum 30 hours

Note: These courses are full-semester commitments, even if students complete the required hours before the official end date of the semester.

2.3 Supervision

The supervisor assesses the student's progress, consults with the student regarding strategies and procedures, consults with the student's LUO faculty supervisor as needed, and completes two written evaluations of the student during the semester using the Basic Skills Evaluation Device (BSED). The supervisor has significant influence on the outcome of the clinical therapy experience. Therefore, the site/local supervisor's relationship with the student is a matter of vital importance. It should serve as a model exemplifying professional behavior in daily therapy activities. The site/local supervisor ensures that relevant work experience, on-site feedback, therapy, and consultation are provided for the student counselor.

Supervisor Distinctions:

- **Faculty/Program Supervisor** - AAMFT approved or Approved candidate; provides weekly online group supervision for 2.5 hours within the program.
- **Site supervisor:** Approved licensed mental health clinician; provides weekly in-person supervision; responsible for monitoring compliance with policies and procedures of the site, reporting to the university, and for being physically present and available when the student is clinically active with a client system.

The site supervisor or another designated licensed or associate licensed individual must always be on-site while practicum or internship students are present.

Videotaping Work

- Videotaping work with clients is vital to our program's ability to assess a student's skill and knowledge on a practical level. As we all know, self-report is a significant limitation in most processes, supervision being no exception. A student may unknowingly (or knowingly!) distort the material of a therapeutic session, thereby limiting the helpful or appropriate supervisory feedback that can be received.
- Therefore, videotapes of the actual work allow us to gain a more objective view of what has taken place in the therapeutic encounter, thereby providing the opportunity to teach and guide the student therapist on ways to improve, ultimately improving the services offered to the client—our main objective in tape review. Like the process athletes use to improve their skills, tape review for therapists is an invaluable tool in improving and honing skills. Training students how to incorporate videotaping as a natural part of their training process will make clients feel much more comfortable with the process as well.
- While role play is helpful, students participate in many roles plays throughout the duration of their time in the program (e.g. skills & techniques, group, and assessment classes). Therefore, we conceptualize the fieldwork phase of the training as the time at which we want to evaluate and assess how students are able to practically implement knowledge and skills with actual clients in the "real world." Thank you for your participation in raising the training of our students to the next level of becoming competent therapists.

Typically, approved site supervisors will:

1. Provide an orientation with the agency and staff for the student unless the supervisor is off-site. This should include such items as agency policies, structure, personnel, and resources.
2. Ensure access to agency manuals, policy statements, and files as needed for the student.
3. Assist the student to refine details of fieldwork activities appropriate to the specific setting.
4. Provide structure for the student to achieve fieldwork objectives.
5. Establish weekly supervisory meetings with the student. The supervisor uses this time to hear student's self-report of fieldwork activities, listen to session recordings, provide feedback, plan tasks, and discuss other aspects of the fieldwork experience with the student.
6. Critique observed and recorded interviews. The supervisor shall have access to all recorded therapy sessions by the student.
7. Provide evaluations of the student's therapy skills and progress, review these with the student, and give the original evaluations to the student. The student is responsible for uploading these forms onto Canvas.
8. Initiate immediate contact with the student's professor if problems are encountered with the student during placement.

**Fieldwork sites need to be able to provide students with a variety of clinical activities that meet the course requirements. Please refer to the syllabus for the required activities.*

2.4 Facts to Remember

1. Students must obtain a minimum of 1 hour of supervision per week per site.
2. Most supervisors give their time and expertise with no monetary reimbursement. Students can help their supervisors by lightening their workload through the cases the student takes on and doing clinically related tasks to free up supervisors' time.
3. Some supervisors may charge a fee for services rendered. The student is responsible for any financial cost associated with supervision.
4. Students must check their state board's requirements for supervision if planning to practice in another state after graduation. Some state boards have different requirements.

3.1 Professional Behaviors

While at the fieldwork site and in all interactions with clients, supervisors, peers and LU faculty and staff, students are expected to exhibit attitudes and behaviors consistent with professionalism. This includes, but it is not limited to, the following:

- Punctuality and promptness to all appointments
- Appropriate dress and grooming
- Professional written communication
- Professional oral communication (this includes correct verb usage and the avoidance of inappropriate language including informal language or slang)
- Adherence to the AAMFT Code of Ethics (Marriage & Family Therapy Program)
- Be teachable and receptive to feedback given by the supervisor

Social Media

Note: There will be no exceptions to this policy unless directed by federal and/or state mandates. Please direct all questions regarding the Telehealth and In-Person Counseling Policy to the Fieldwork Office.

Social media (e.g., personal Facebook pages, Instagram, X accounts, LinkedIn, Snapchat) is widely used and appropriate in various settings; however, its use between faculty and students, or between interns and their clients, is strictly prohibited. This policy ensures ethical treatment and clear boundaries among students, clients, and faculty, in alignment with the AAMFT Code of Ethics (American Association for Marriage and Family Therapy, 2015). Additionally, social media interactions between students and field experience site staff, coworkers, or peer counselors are strongly discouraged, as is posting, discussing, or venting about any aspect of the field experience site, its staff, or clients.

Please be aware that group pages created on social media (including posts, links, and other content posted on such group pages) related to the School of Behavioral Sciences, practicums, and/or internships are unofficial, not sponsored by Liberty University, and views expressed in these groups do not necessarily represent those of Liberty University. Such group pages must state that they are unofficial and not run by Liberty University or its School of Behavioral Sciences. It is imperative you be mindful of professionalism, ethics, laws, university honor codes, and be aware you are bound by confidentiality and cannot share confidential client information or violate HIPAA.

3.2 Professional Competency & Remediation Process

Supervisors and Liberty University faculty have a professional and ethical responsibility to evaluate

students on the following:

- Therapy skills competency
- Professional behaviors
- Personal and professional dispositions
- Ethical competency

As such, the faculty of Liberty will not automatically approve program completion for students who demonstrate deficits that may interfere with future professional competence. Students enrolled in a fieldwork course may be given a failing grade and/or placed on hold and a plan of remediation implemented if any of the following apply:

- Unprofessional or unethical conduct either at the fieldwork site or in the interaction with Liberty University faculty and staff
- Any verifiable complaints about the student from the Site Supervisor or Site Director
- If the supervisor and/or Liberty University faculty determines that the student's current emotional, mental, or physical well-being compromises the integrity of the fieldwork experience or potentially places the student, or others, in harm's way of an unduly vulnerable position

The behaviors described above constitute a violation of the University's Honor Code. Consequently, the student's professor will file an Honor Code Violation and a Student Development Referral. This incident will be investigated by the Director of Clinical Training and Operations and the Program Director. If warranted, they may recommend a referral to the Remediation Committee. Please refer to the [Program Handbook](#) for information about remediation.

3.3 Communication

All concerns regarding the course are to be communicated to the course instructor. Students may be then referred to the fieldwork support staff and/or the Director of Clinical Training and Operations. Please keep in mind that all communication with the Fieldwork Office will be by email so the student and University have documentation of the outcomes of the communication. Students are expected to be courteous and respectful in all communication with instructors, fieldwork support staff, and the Director of Clinical Training and Operations. Unprofessional, discourteous, communication will not be tolerated and will result in remediation procedures up to and including dismissal from the program. For more information, please refer to the [Program Handbook](#).

As therapists-in-training, students should conduct themselves in a way that is consistent with the AAMFT Code of Ethics (Marriage & Family Therapy), and the Graduate School Honor Code. Thus, students are expected to communicate their concerns and seek to resolve any conflicts or misunderstandings directly with the person with whom the allegation occurred. When a student circumvents the process and contacts University administration (e.g., Dean, Provost, or Chancellor), this action constitutes retaliation and will be sanctioned accordingly. For more information, please refer to the Graduate School Honor Code.

4.1 Telehealth Policy

Fieldwork Site Presence Requirement and Telemental Health Policy

Active participation in clinical practice at an approved fieldwork site is a fundamental requirement of the program. All counseling services, including both in-person and telemental health sessions, must be conducted on-site at the approved fieldwork location.

This requirement is essential to ensure appropriate supervision, client, and counseling intern safety, and adherence to professional and ethical standards. Counseling interns must have access to an on-site supervisor or designated clinical professional who is physically present and available at all times when the counseling

intern is providing counseling services. This structure allows for immediate consultation, intervention, and support when clinical concerns arise.

Approved fieldwork sites also provide structured, professional environments that are critical for counselor development. Counseling interns benefit from exposure to interdisciplinary teams, documentation systems, intake procedures, and real-time consultation.

Furthermore, approved sites utilize vetted platforms that meet privacy and security standards and maintain secure documentation systems.

Counselor in Training Responsibilities When Using Telemental Health Services:

- Counselors in training must be physically present at the approved site when conducting telemental health sessions; telemental health services may not be performed from home or any unapproved location.
- The site supervisor or another designated licensed or associate licensed individual must always be on-site while practicum or internship students are providing services, including telemental health services.
- Counselors in training must complete required and Liberty University approved telemental health training prior to providing telemental health services.
- Counselors in training must accurately report telemental health hours at midterm and final evaluations.

Note: Failure to comply with this policy may result in removal from the site, loss of accrued hours, and/or course failure.

Social Media Disclaimer

Please be aware that group pages created on social media (including posts, links, and other content posted on such group pages) related to the School of Behavioral Sciences, fieldwork are unofficial, not sponsored by Liberty University, and views expressed in these groups do not necessarily represent those of Liberty University. Such group pages must state that they are unofficial and not run by Liberty University or its School of Behavioral Sciences. It is imperative you be mindful of professionalism, ethics, laws, university honor codes, and be aware you are bound by confidentiality and cannot share confidential client information or violate HIPAA .

4.2 Winter Break Policy

The Fieldwork Office will allow students to continue to count hours during Winter Break between Fall and Spring semesters. However, the Fieldwork Office must receive an official letter on the site's letterhead from the approved supervisor, listing the following:

- The letter must state that the supervisor understands the student will not be under Liberty University's supervision nor the supervision of a Faculty Supervisor during the break and assumes full responsibility for the student, as students are not enrolled in a course during this break.
- Any student that meets the criteria for earning winter break hours must provide the Fieldwork Office with their letter no later than the last week of the Fall semester to receive approval to count those hours between semesters. All winter break hours must be logged under Week 1 of the Spring semester once enrolled.
 - Note: This policy only applies to students who will remain at the same site and with the same supervisor from Fall semester to Spring semester. Students must remain enrolled in

the Spring sem. Additionally, internship students switching sites/supervisors or adding a new site/supervisor will not be permitted to earn hours over the Winter Break.

Note: This policy only applies to students who will remain at the same site and with the same supervisor from Fall semester to Spring semester. Students must remain enrolled in Spring semester of MMFT 692/693/694. Additionally, students switching sites/supervisors or adding a new site/supervisor will not be permitted to earn hours over the Winter Break.

4.3 Grading Policy

To pass the course, students must complete the following:

- Earn a passing grade for all course assignments (840-1010 points in gradebook).
- Midterm and final hours reports with site supervisor and faculty approval of hours
- Receive passing evaluations by the supervisor and faculty supervisor.
- Successfully complete and submit all assignments, which includes, but not limited to, case presentation assignments, peer consultation, group assignment, evaluations, hours reports, etc.
- Provide proof of liability insurance.
- Successfully complete Telemental Health Training.
- Hours earned during the semester do not count when a student fails a fieldwork course.
- These courses are full-semester commitments. Students are required to stay at the site until the end of the semester.
- Being absent from the site is not permitted. Extenuating circumstances will be considered and must be communicated with the site supervisor **and** faculty supervisor.
- Midterm and final hours reports with site supervisor and faculty approval of hours
- Adherence to the AAMFT Code of Ethics (Marriage & Family Therapy)

Traditional Incomplete

A traditional incomplete is given to a student if they need a maximum of two weeks after the last day of the semester to complete the requirements/hours for the fieldwork course. Students are to request the traditional incomplete by contacting their Faculty Supervisor. Though the supervisor's evaluation of the student weighs heavily on students' final grade, students must also successfully complete the other assignments in the class as outlined in the course syllabus.

Note: Internship students may not be eligible for an incomplete during the Spring and Summer semesters, given the absence of a break between the terms.

4.4 FN Policy

The U.S. Department of Education requires that every university monitor the attendance of their students. Liberty University uses the following definition in determining student attendance: "Submission of an academic assignment (such as an examination, written paper or project, discussion board post, or other academic event) or communication with the professor regarding academic content or an assignment." However, with the fieldwork courses, the Fieldwork Office can factor both the academic (Canvas/Teams) and fieldwork (presence at the site) aspects of the fieldwork into student's academic progress. To post an FN for fieldwork, the student would need to be lacking attendance for 21 consecutive days both in Canvas and on-site. A student who does not show attendance in Canvas but does regularly attend his/her site would not receive an FN. The student's professor will need to email the site director/supervisor to confirm that the student has been attending the site. Once the professor receives confirmation back from the site of

the student's attendance on-site, the professor then needs to forward that email documentation to luoacademicprogress@liberty.edu.

4.5 Site/Supervisor Change Policy

1. Students may only earn hours once a site/supervisor has been approved by the Fieldwork Office. Hours worked prior to the official approval date given by the Fieldwork Office may not be counted.
2. It is the student's responsibility to immediately let the Fieldwork Office and faculty supervisor know about any changes to the site and/or supervisor for fieldwork.
3. All required paperwork must be submitted (correctly) within two weeks of switching a site/supervisor at your site, dropping a site/supervisor, or adding a site/supervisor. Example: If your site switches your supervisor on Aug. 30, 2026, our office will need all correctly filled out approval documents by Sept. 13, 2026. This would be two weeks after the switch occurs.
4. Barring any extenuating circumstances, no paperwork will be accepted the last two weeks of the semester.

Note: Site changes are not allowed after the application submission window for the semester has closed. Changes after the semester begins require prior approval from the Fieldwork Office.

Important Notes:

- If the student fails to complete the practicum, they will also receive a failing grade for the course. The course must be re-taken, and the hours completed.
- If a student fails or withdraws from the course at any point during the semester, all earned hours will be lost and the student will have to start earning hours from the beginning.

Site Dismissal: If a student is dismissed from a site during fieldwork, the professor will notify the Director of Clinical Training and Operations and the Fieldwork Office. The Director of Clinical Training and Operations will examine the nature and reason for the dismissal. If the reasons are for professional incompetency as described in the Professional Competency and Remediation Process section of this manual, the student's professor will submit an Honor Code Violation. This incident will be investigated by the Director of Clinical Training and Operations and the Program Director. If warranted, they may recommend a referral to the Remediation Committee. Please refer to the [Program Handbook](#) for information about remediation.

Course Withdraw: Students are required to fulfill their semester-long contract with their site. If a student makes the decision to withdraw from a fieldwork course, the student must notify their professor and the Fieldwork Office.

Note: all hours earned for the semester are forfeited when a student withdraws from a fieldwork course. Moreover, they must reapply for the course in a future semester.

4.7 Videotaping Policy

For the purposes of faculty supervision, **students must have at least one site that allows videotaping of sessions.** The purpose of videotaping is for students to receive professional training and constructive feedback on their therapy skills to improve the quality of therapy services being provided. Video recordings will be disclosed to and used by the student's fieldwork course instructor and the students in that course for educational and professional training purposes. Videos will be uploaded using a third-party platform. All personally identifiable information of clients will be redacted from the written transcript and other written assignments. Verbal and written consent of clients is required prior to showing any video recording in class. Therefore, the HIPAA Privacy Authorization and Release Form must be completed by each client prior to

presenting in class. The form must not be uploaded to Canvas but kept on file at the student's fieldwork site. The Video Informed Consent Confirmation form must be completed and uploaded to Canvas prior to presenting in class. The face of the student counselor/therapist must be easily seen in the recordings. Seating for these recordings should be arranged in a comfortable manner for both student counselor/therapist and client but with the preferred option of being able to see both in the session.

The following statement is an example that can be used to introduce videotaping to clients: "As a part of this training, faculty need to review my therapy skills in session via video recording to give me feedback and to assist me in providing the best care and support possible. Therefore, I request you to acknowledge that you have been informed about how these recordings will be used and provide your permission and consent..."

Devices students can use for recording:

- Digital cameras
- Camcorders
- Computer webcams – must be recorded through a HIPAA compliant platform

Note: Devices that are inherently cloud based such as phone and tablets cannot be used for video recording. Cloud-based software (i.e., transcribing cloud-based services) is not permitted. Please contact the Fieldwork Office if you need further clarification.

Below are the options for students to fulfill the videotaping portion of the in-class presentations and case presentation assignments:

- **Option 1:** Videotaped sessions with client. This is the preferred option, if clients are willing, as it is much better to see the client in the session as well as the student.
- **Option 2:** Videotaped sessions with camera on student only.

4.8 International Fieldwork Policy

The Department of Community Care & Counseling is aware of many challenges that students living abroad face regarding the completion of the fieldwork requirements. Therefore, the Fieldwork Office has created the following policy in order to help our students living abroad succeed in completing their fieldwork experience. In addition to the standard application process, students looking to complete a fieldwork experience at an international site must also meet the following criteria:

- **Students seeking a site outside of the United States**
 - Site must follow the general guidelines established by the therapy profession in the U.S. (e.g., AAMFT Code of Ethics [Marriage & Family Therapy], state board regulations, etc.).
 - Informed consent
 - Treatment plans
 - Record keeping
- **Supervisor must be licensed in the United States**
 - When selecting a local program clinical supervisor, students should search for an [AAMFT-Approved Supervisor](#) or an AAMFT-Approved Supervisor Candidate. This will enable students to benefit from systemic supervision at the site. If a supervisor with these credentials cannot be located within a reasonable distance, a licensed marriage and family therapist with demonstrated training in MFT relational/systemic supervision will meet the program's standard. The program adheres to the COAMFTE definition for a program clinical supervisor and defines "demonstration of professional identity as a marriage and family therapist" as having MFT licensure. Please see the explanation below.
 - MFT Local Clinical Supervisor qualifications include the following:
 - Demonstration of professional identity as a marriage and family therapist, **and**
 - Demonstration of training in MFT relational/systemic supervision by one of the following:

- A graduate course in MFT relational/systemic supervision equivalent to three semester-credit hours
 - Postgraduate professional education in MFT relational/systemic supervision of at least 30 clock hours
 - A state established MFT supervisor designation that includes relational/systemic training
 - Designation as an AAMFT Approved Supervisor or AAMFT Approved Supervisor Candidate
- Students seeking licensure in the United States are responsible to know and understand the requirements of the state board in the state in which they wish to become licensed.

Note: Specific states may require fieldwork courses to be taken at a site location in the state where you plan to seek licensure. If this is the case, an international site may not be eligible towards licensure. Before identifying an international site, please check with your state regarding any potential residency requirements pertaining to the actual physical location of sites. You are solely responsible to find out this information. The Department of Community Care & Counseling may not provide this or any other information pertaining to specific state licensure requirements.

5.1 Finding a Site & Supervisor

The relationship between the student, the site, and the supervisor is an important one. Therefore, students need to be cautious and prudent in picking a site and supervisor. Remember that as a student, when you interview for a potential placement, you are not only being interviewed, but you are interviewing the site and supervisor to determine a good fit. The choice of a site and supervisor should be a mutual one. Students are allowed a maximum of two sites and two supervisors at any time that have been approved by the Fieldwork Office.

First, make sure the site can offer you enough face-to-face client hours so that you can complete your fieldwork in the required number of semesters. Please check your Degree Completion Plan for the number of semesters required. Second, make sure that the supervisor can meet the requirements for supervision as well as provide you a minimum of one hour of supervision per week. Interview your potential supervisor to determine his/her expectations of you in terms of hours and times you will be available, the duties you will be performing, etc. Finally, remember that your relationship with your potential supervisor is a personal, as well as a professional one. You want to select a supervisor with whom you feel you will be able to communicate and work within a collaborative, professional matter. A list of currently approved sites may be accessed on our website. You are not limited to these sites; you may submit a site that is not on the list for approval.

Other considerations to keep in mind include:

1. Do the supervisor, activities, and site meet the requirements?
2. Is there enough diversity in the clientele to provide a wide range of experiences (e.g., adults, adolescents, children, married couples, singles, group therapy, etc.)?
3. Does the agency have a large enough client base to have adequate face-to-face client hours to meet course requirements?
4. Are qualified supervisors available who are willing to invest the time to provide a quality fieldwork experience, which includes provision of individual supervision?
5. Do they have the credentials (i.e., doctoral level or master's level and licensure) so that a licensing board will accept clinical work completed under their supervision?
6. Is this agency one in which the student might be interested in employment after the fieldwork is completed?

5.2 Background Check

All students are required to complete a new criminal background check prior to fieldwork approval. Students must submit a copy of their background check confirmation page as part of the application and approval process. The background check can be found and purchased through the [Liberty University Online | Online Bookstore](#)

- Liberty Background check information can be found on the [Liberty University Background Check website](#).
- If students have not purchased and completed their fingerprints through DISA Healthcare, they will need to be completed prior to applying to fieldwork courses.
- All background checks must be completed through DISA Healthcare. No exceptions will be made for students.

5.3 Obtain Professional Liability Insurance

The student is responsible for obtaining liability insurance in their name and submitting a copy of the policy face sheet as part of the fieldwork application process. The face sheet should include the student's name, address, amount of coverage, the effective dates of the policy, and the minimum amounts acceptable. Insurance coverage should be at least \$1 million per occurrence and \$3 million aggregate. In addition, students will need to submit this proof of insurance at the end of the semester as a graded assignment. The University will not provide insurance coverage for students.

The following organizations offer professional liability insurance:

- Healthcare Providers Service Organization (HPSO) 1-800-982-9491 or hpso.com
- American Counseling Association (ACA) 1-800-545-2223
- American Professional Agency, Inc. 1-800-421-6694
- American Association of Christian Counselors (AACC) 1-800-526-8673
- CPH Insurance 1-800-875-1911

Note: Professional liability insurance coverage must start on or before the start of the course so that coverage is in effect for the duration of class enrollment. Students must still obtain their own liability insurance even in cases where a student's fieldwork site provides liability insurance coverage for the student.

5.4 Complete Required Approval Documents

Please note that in order to complete all fieldwork requirements by the approval deadline, students will need to do several things during the semester prior to the one that they plan to begin the course. Because of ethical, legal, and liability precautions that must be taken, the process of registering for this course is more extensive than for other courses.

Once a site and supervisor have been chosen, the student will complete the Fieldwork Application through the SimCare platform.

1. **All applications must be submitted by the stated deadline listed on the website. No late submissions will be accepted.** Submission of the application does not mean automatic acceptance of the proposed site and/or supervisor: they must be approved first. The University wants to make sure the student's proposed site will provide a good educational experience and that it has adequate oversight and safeguards built in to ensure an appropriate clinical environment.

2. Students need to submit the completed Liberty University Affiliation Agreement or an Affiliation Agreement that is approved by Liberty University. **Extensions will not be granted for Affiliation Agreements negotiations.**

Contact Information

Students are expected to contact university personnel with comments, questions, and/or concerns that arise during fieldwork. Generally, it is best to contact us sooner rather than later if challenges arise during your clinical training.

For questions regarding Marriage & Family Therapy fieldwork, please contact:

Internship: internship@liberty.edu
