

Group Supervision (ADCN)

Group supervision is the interaction between the student, approved supervisor, and different counselors and staff. Also, the approved supervisor may meet with just the student and other interns. This is an opportunity for an intern to learn from others and acquire various perspectives on clients and treatment. As with individual supervision, the supervisor must be present for group supervision to count toward internship hours.

It is recommended that you find a site that provides group supervision. Although not required, group supervision of addiction counseling is a valuable component of growth as an addiction professional.
