

Related Activities Hours

Related activities are learning experiences outside of Direct Client Contact, Individual, and Faculty Group Supervision hours. Related activities allow students to learn how to develop professionally and should relate to the population the student is currently working with.

- Related activities include site group supervision, observation of counseling and other counseling-related activities such as skills work, staff meetings, counseling-related administrative work, writing progress notes, filing counseling-related files and documents, telephone calls to clients, and billing insurance companies.
- Driving time, studying for the Comprehensive Exams, or completing any other work for courses **does not count** towards practicum or internship hours.
