

Serenity Counseling Center

Did you know?

-Serenity Counseling Center has two openings for Mental Health Counseling interns in January.

-Due to rising costs and our recent hurricane, we have had an increase of sliding scale requests and are looking for interns to join our team. Serenity Counseling offers a sliding fee scale based on income to help folks that have no insurance or are underinsured.

New this year

This coming year we have decided to compensate our interns. We appreciate our interns and understand that working a full-time job along with completing internship hours (which most do) can be difficult. We will now be offering a semester stipend providing their attending school allows this.

Please share with your interns that need a site.

Thank you Kindly!

Have interested interns send their resume to jaimelyndortch@myserenitycounselor.com
