

PRACTICUM & INTERNSHIP OPPORTUNITIES

At the Crossroads Counseling

FALL 2026: Students needing additional clinical hours | SPRING 2027: Practicum & Internship Placements

At the Crossroads Counseling is a behavioral health private practice offering opportunities for master's-level counseling students seeking supervised clinical experience. Students may gain experience with individual counseling, group counseling, assessment, documentation, treatment planning, and other clinically appropriate activities based on training level and placement requirements.

Clinical Populations & Experience

Mental health and co-occurring substance use concerns; neurodivergent clients, including autism and ADHD; anxiety, depression, trauma, OCD, and other clinical presentations; individual and group counseling; and opportunities to develop clinical documentation, case conceptualization, treatment planning, and professional identity.

Supervision

Clinical supervision is provided by **Bree Normandin, LCMHC, LCAS, CCS-I**, a clinical counselor and supervisor with more than 17 years of behavioral health and addiction-treatment experience.

Placement States

North Carolina | South Carolina | Virginia | Georgia

Placement availability is dependent upon Liberty University affiliation approval and applicable state requirements.

Who Should Apply

Liberty University counseling students seeking practicum or internship placements who are interested in developing strong clinical judgment, ethical practice, evidence-based counseling skills, and experience working with diverse and neurodivergent populations. Fall 2026 inquiries are welcome from students who need additional clinical hours to complete their current placement requirements.
