Dear Liberty University Students and Alumni,

At Center Christian Counseling, we believe healing and growth happen best in the context of community. Our heart is to walk alongside others, offering hope, encouragement, and counseling that helps individuals, couples, and families find strength and peace when they need it most. We are most passionate about raising up Christian counselors in communities across the state of North Dakota. Our team is more than coworkers. We are united in our faith, and it produces an environment of supportive professionals who genuinely care for one another and the people we serve.

As we continue to grow, we are excited to invite students and alumni of Liberty University to consider joining us in North Dakota. We offer generous compensation, including a starting pay range of \$83,000 - \$108,000 (LPCC) annually for full-time licensed counselors (with adjustments for experience and caseload). In addition, our team enjoys an excellent work-life balance with a four-day workweek, Monday through Thursday, making every weekend 3 days long. We also provide a collaborative team environment and opportunities for both professional and spiritual growth as part of our Christ-centered practice.

For those who are new graduates or working toward licensure, we provide supervision and support throughout the licensure process, ensuring you are well-equipped and encouraged as you step into professional practice.

At this moment in time, we have four unique pathways to becoming part of our team:

Join our Jamestown Office. Jamestown is a welcoming community in North Dakota with a slower pace of life, where our office offers a close-knit, hometown feel. Living here allows you to build strong roots and relationships while serving individuals and families in a deeply impactful way.

Join our Bismarck Office. As the capital city, Bismarck is vibrant and growing, offering more amenities and opportunities for those who enjoy a larger community feel. Our Bismarck team has a strong sense of unity and support, serving a wide range of clients while staying grounded in faith and fellowship.

Spearhead our Geriatric Mental Health. In both the Bismarck and Jamestown offices, there are major areas of opportunity for growth in helping bring mental health into the local nursing homes for the geriatric population in North Dakota.

Help us launch in a new community. If you have a heart for a specific rural area or a vision to serve another part of North Dakota, such as Beulah and Watford City, we would love to walk with you in making that dream a reality. We've already successfully established new remote locations in smaller communities, and we are eager to expand further as God leads.

If you are seeking a place where faith and counseling come together in a supportive, Christ-centered team, we would be honored to connect with you. We would love to talk more with you about what it could look like to join us. Please reach out to us at (701)380-5100.

With joy and anticipation,

Jenna Quinones

Administrative Assistant
