

Genesis Behavioral Health

Information for Counseling Students

Genesis Behavioral Health is always looking for counseling students to join our team each semester. If you are looking for a site that provides a wide range of cases, on site supervision, and a team of skilled clinicians to collaborate with, then Genesis Behavioral Health is your site. We are a group private practice and training site for upcoming therapists and counselors. Practicum students will be provided with 6 hours of direct client service and 8-10 hours of indirect hours including 2 hours of supervision, all on site each week. Intern students will be provided with 12-14 hours of direct client service and 18-20 hours of indirect hours including 1-2 hours of supervision, all on site each week. We are seeking motivated individuals who come ready to grow in their profession, participate in collaborative conversation, and want experience in intake, diagnosing, treatment planning, providing ongoing counseling, and termination. Students are expected to provide interventions with compassion and kindness, display a willingness to learn, demonstrate and put into practice knowledge of diagnostic and counseling theory models. Additional experience with ethical spiritual integration and evidence based treatment methods such as CBT, DBT, and ACT will be provided onsite. Potential candidates should be interested in providing person centered treatment as part of a collaborative team, including medical providers. Our staff sees adults, adolescents and young children for individual, couples, family and group therapy. We are looking for team players who enjoy a very comfortable, professional atmosphere that encourages growth. We encourage you to browse our website to see if we would be a good fit for you:
