

Integrated Renewal

Located in Battle Ground Washington , we are a nonprofit and we coordinate with His Heart Foundation to provide mental health services to the church community in the SW Washington area as well as to first responders and military personnel in the Northwest. Our primary focus has been working with depression, anxiety, post traumatic stress, insomnia, and traumatic brain injury.

We are looking for a student who has recently graduated and achieved LMHCA status. The rate per session is \$125.00 and we provide 50% of that in pay with the other 50% covering the cost of the office space, supervision, office and therapy supplies. We are a Christian organization and provide therapy with biblical base.
