

Strategic Therapy Associates

Our agency is currently recruiting eligible graduate-level therapists to add to our team. We are seeking upcoming graduates or past alumni that may be seeking employment that would lead towards licensure and are enthusiastic about working with children and families.

At Strategic Therapy Associates we provide family therapy services to at-risk children and their families across Central and Southwest Virginia. We have offices in Lynchburg, Farmville, Richmond, Danville, Halifax, Martinsville, Roanoke, Lexington, and Wytheville, Virginia. We are seeking candidates who have completed or will soon complete a master's degree in Counseling, Social Work, or Marriage & Family Therapy. All clinicians offered employment must be able to register as a Resident in Counseling, Resident in Marriage & Family Therapy, or Supervisee in Social Work with the VA Board of Health Professionals to receive clinical supervision towards professional licensure as an LPC, LMFT or LCSW.

At Strategic Therapy Associates, we use the Strategic Family Therapy systems approach in our work with clients. We are seeking therapists who are interested in learning solution-focused interventions. Applicants should be interested in working with at-risk children and families in their homes where they will learn how to uncover the family's strengths and abilities to solve their own problems, where our therapist motivates clients to implement positive changes. All therapists receive extensive training and weekly supervision.
