

**Retention – by Program** – This report will display the one year retention by fall and spring semesters (spring to spring or fall to fall).

- “Return to School Percentage” - measures the number of students that returned the following year within the same school.
- “Return to Level Percentage” - measures the number of students that returned the following year at the same level, regardless of program/school.

**Graduation Rates – by School & Program** – This report contains our internally defined graduation rates, measured by program, school, and Liberty in general. A student is classified under a given school and program based on their first enrolled semester as an incoming new or transfer student at the level. A student is counted as graduated if they conferred their degree within six years from their starting cohort.

“Graduated to School” – measures the percentage of students that graduated within the same school as their starting cohort semester.

“Graduated LU” – measures the percentage of students that graduated from Liberty at the same level, regardless of program/school.
