

2021 Research Week Requirements for Online Oral and Poster Presenters

- The presenter must have access to a professional backdrop.
 - Examples include an office, church classroom, library, etc.
 - Do not opt for a digital background (*including a blur or stock image*).
- The presenter must be able to give the presentation in professional dress.
- Access to the following technology:
 - A **computer** with the [Microsoft Teams](#) application installed.
 - Access to a **USB headset** (*we recommend the Logitech H540 headset, but other quality headsets are acceptable*).
 - A **webcam**
 - This may be built into the computer or an external device connected the computer.
 - While most any Logitech or Microsoft webcam is acceptable, we recommend the [Logitech C920](#) or [Microsoft LifeCam Studio](#).
- Internet speed requirements and test instructions as follows:
 - For best performance, LU IT recommends an Upload Speed of 5 Mbps or faster.
 - Use the Liberty [speedtest](#) app to test your upload speed.
 - Upload Speeds of 2.5 Mbps or slower may result in degraded service.
