

## Scholarship Application Packet

### Why are scholarships awarded?

Scholarships are awarded to athletic training students to help offset the cost of tuition and other school-related expenses. Students are rewarded for service to the athletic teams that goes above and beyond what is required to meet ATEP requirements for clinical rotations.

*This includes team coverage that may be necessary before the start or finish of the semester and into holidays or scheduled academic breaks.*

**Eligibility Requirements** - The Sports Medicine Program offers scholarship awards to junior and senior athletic training students who are fully admitted to the ATEP program. To be eligible for consideration for scholarship, the applicant must:

1. Currently be enrolled and fully accepted in the Athletic Training Education Program at Liberty University
2. Maintain current certification in CPR/AED training at all times
3. Have earned a minimum of a 3.00 overall GPA
4. Have a clear/resolved athletic training disciplinary record from the previous semester as determined by the preceptor and Head Athletic Trainer

The Sports Medicine Department will determine awards, and recipients will be notified when an award has been determined. Scholarships are issued annually and will be divided over two semesters. Each student will be evaluated at the end of each semester to determine continued eligibility for the upcoming term. At any time the standards for eligibility are not maintained the scholarship awarded may be revoked. If at any time during the semester the student withdraws from or is asked to withdraw from their rotation, becomes suspended from their rotation, is placed on disciplinary probation or does not meet the individual requirements of their rotation as set forth by the preceptor, the scholarship may be revoked. Previous awards do not guarantee future awards. All applicants may/may not receive a scholarship award.

Applications for this scholarship must be received by Sports Medicine no later than May 21st. All supporting documentation, including a copy of current CPR/AED certification, must be received at this time as well.

## Liberty University Sports Medicine Scholarship Application
