

LUCOM Research Day – Presentation Guidelines

Thank you for your interest in LUCOM's annual Research Day.

Please read the following instructions carefully. The information is only provided for the submitting author; instructions may be shared with coauthors listed on the presentation.

All abstracts for oral and poster presentations will be given a unique number for identification (i.e., "P#" for posters and oral presentations) in the final Program. Authors will be sent this identifier prior to the submission deadline for posters and talks. This unique identifier is required on the filename of each submitted presentation; remove spacing in the filename. Two examples are provided below.

- Example1: P3_Sparky_ResearchDayTalk
- Example2: P20_Smith_ResearchDayPoster

All LUCOM presenters must use one of the approved LUCOM PowerPoint templates, which will be provided separately to the submitting authors after abstract submission closes.
