

Type	Last Name	Activity Title
Grant	Joseph	Differentiating vascular dementia from neurodegenerative dementia using ASL MRI
Grant	Kepley	National Institutes of Health, National Cancer Institute, (1R15CA246430-01A1), "Studies examining efficacy of therapeutically enhanced human mast c
Grant	Liu	Research on the role of the mouse mammary tumor virus in cancer development and the mechanisms of action of decitabine
Grant	Price	Genetic regulation of pH adaptation in the human pathogenic yeast <i>Cryptococcus neoformans</i> .
Grant	Swanson	"Mouse embryo and sperm response to vaping flavors, nicotine, and carrier fluid"
Presentation	Bardowell	An Osteopathic Approach to Complex Sports Medicine Patients
Presentation	Bardowell	Osteopathy in Sports Medicine
Presentation	Bardowell	ONMM and Sports Medicine
Presentation	Bardowell	Pelvic Floor Dysfunction: Not Gender Based
Presentation	Bardowell	Running Back Running Out of Hope
Presentation	Despins	The 5-Minute Pregame Adjustment - An Osteopathic Approach to Treat Athletes Pre-Competition
Presentation	Ferry	Taking Hip Pain out of the Weight Room
Presentation	Ferry	Special Disease for Special Teams
Presentation	Garber	Organized and hosted: "Right of Conscience: How Current Laws & Ethical Standards Impact Clinical Practice"
Presentation	Gigliotti	Diet significantly influences the induction of endoplasmic reticulum stress (ERS) in the kidneys of male C57Bl/6J mic
Presentation	Heller	High-Yield OMT for Common Conditions
Presentation	Heller	Determination of Piriformis Function in Varying Hip Positions
Presentation	Heller	Osteopathic Approach to a Patient with Ehlers-Danlos Syndrome
Presentation	Heller	Nervous System Under Attack
Presentation	Hemric	Considerations of left coronary dominance as an independent risk factor for pathology and iatrogenic damage
Presentation	Hemric	Prevalence and characteristics of the persistent median artery in an adult population: a cadaveric study
Presentation	Jasperse	Your Future in Science: Teaching-Based Professorships
Presentation	Jasperse	Utilizing Bloom's Taxonomy in Medical Education
Presentation	Joseph	Neurology Delay in Clearance of Labeled Protons Post-Acute Head Trauma Utilizing 3D ASL MRI (Arterial Spin Labeling) in a Pilot Study
Presentation	Joseph	Identifying Preclinical Alzheimer Disease and Correlation with Blood Brain Barrier Breakdown and Reduced Glymphatic Flow using 3D ASL MRI
Presentation	Joseph	Utilizing timed categorical recall (naming US cities) for rapid bedside dementia screening
Presentation	Kepley	A new autologous mast cell cancer immunotherapy
Presentation	Kepley	Mast cells as cancer cell immunotherapy
Presentation	Kepley	Mast cells and cancer immunotherapy
Presentation	Kepley	Autologous cancer immunotherapy
Presentation	Liu	Effect of Tetracycline Derivatives on the Growth and Metastasis of Mouse Mammary Tumor
Presentation	Liu	Inhibition of Murine Tumor Growth by Decitabine Is Correlated with Enhanced Expression of the Mouse Mammary Tumor Virus
Presentation	Melton	POCUS on the knee
Presentation	Mintle	Practical and evidenced-based interventions to calm anxiety and manage stress.
Presentation	Mintle	Trauma-informed Care: What You Need to Know.
Presentation	Mintle	Building a better advising experience.
Presentation	Mintle	Practical, evidenced-based interventions to thrive against anxiety and stress in challenging times
Presentation	Mintle	Integrating Cultural Sensitivity into a Skills-Based Approach of Delivering Bad News
Presentation	Mintle	Advising in the age of the "Supp App."
Presentation	Mintle	Supporting students and medical educators: Trends in the match, advising and mentoring

Presentation	Mintle	Assessing harm reduction attitudes in preclinical medical students.
Presentation	O'Donnell	Approaching the body as an engineer: upper and lower cross syndrome
Presentation	Rolfs	Healing Hands: Osteopathic Manipulative Medicine for Treating Pain
Presentation	Rolfs	Common Conditions of the Endurance Athlete
Presentation	Rolfs	PEDs and the PCP: A Primer on Performance Enhancing Drugs
Presentation	Swanson	Effect of Nicotine-containing and Nicotine-free e-Cigarette Vapor Condensate on Development of 4-day Cultured Mouse Embryos.
Presentation	Swanson	Development of Mouse Embryos in Nicotine-containing and Nicotine-free e-Cigarette Vapor Condensate Cultured for 4-days.
Presentation	Willson	"Increasing Mammogram Screening by Increasing Reminders by Providers and Staff."
Publication	Basurto	Recurrent staphylococcal scalded skin syndrome in a 20-month old-A case report
Publication	Bauer	Endotoxin Endotheliopathy Induced Vascular Leak of IgG Causes Ileus
Publication	Bauer	Ongoing Elucidation of a Novel Lethal Trauma Alarmin and It's Subsequent Profound Acute Effects on the Gastrointestinal Microvasculature and Motility
Publication	Bauer	Trauma Induced Intestinal Vascular Leak of IgG Causes Colonic Submucosal Venule and Arteriole Vasoconstriction
Publication	Baur	The role of iliopsoas fractional lengthening in hip arthroscopy: a systematic review
Publication	Bustos	Lower Extremity Somatosensory Evoked Potentials Predict Functional Outcomes in Complete Traumatic Cervical Spinal Cord Injury
Publication	Chi	Chronic Neurological Disorders and Predisposition to Severe COVID-19 in Pediatric Patients in the United States
Publication	Coleman	Primary mediastinal seminoma presenting with paraneoplastic anti-Hu encephalitis: a case report and literature review
Publication	Das	"Vascular Ulcer and Wound Care Management".
Publication	DeLaat	Treatment of membranous nephropathy: Perspectives on current and future therapies
Publication	Despins	Ultrasonography Outcomes of Osteopathic Manipulative Treatment of the Sacrum
Publication	Ferry	Early Initiation of Vestibular Therapy Following Sports-Related Concussions: A Retrospective Cohort Study
Publication	Flanagan	Intralobar Pulmonary Sequestration: A Case Report
Publication	Gigliotti	ectrin (Tmem27) deficiency in the proximal tubule causes hypertension and Tmem27 sing nucleotide polymorphisms associate with diastolic blood pressure in males in meta-analysis
Publication	Grohol	Mirizzi Syndrome: A Case Report
Publication	Heller	Defining the landscape of patient harm after osteopathic manipulative treatment: synthesis of an adverse event model
Publication	Hoegerl	Urgency in the Treatment of Sudden Sensorineural Hearing Loss.
Publication	Hoegerl	Innovation in Learning: Critical Review of the Literature is Absolutely Necessary for the Modern Medical Student
Publication	Jackson	Matching Into Psychiatry When Expecting
Publication	Jasperse	Potential local mechanisms for exercise-induced hypoalgesia in response to blood flow restriction training
Publication	Joseph	Utilizing Reduced Labeled Proton Clearance to Identify Preclinical Alzheimer Disease with 3D ASL MRI
Publication	Kellam	Hypercoagulable State and Thrombosis of Bioprosthetic Transcatheter Aortic Valve Replacement (TAVR) Refractory to Common Anticoagulation Methods in the Setting of COVID-19
Publication	Li	Acute Recurrent Pancreatitis With Exclusion of Biliary Causes in a Young Female Patient
Publication	Liu	Attenuation and Degeneration of SARS-CoV-2 Despite Adaptive Evolution
Publication	Liu	Polarization of Cancer-Associated Macrophages Maneuver Neoplastic Attributes of Pancreatic Ductal Adenocarcinoma.
Publication	Malik	Delayed discovery: the COVID-19 pandemic's influence on osteoarthritis clinical trials
Publication	Malik	Disturbance of Growth in Pediatric Patients Due to Osteomyelitis Caused by Growth Plate Infection
Publication	Mulder	Mesenchymal stromal/stem cells and bronchopulmonary dysplasia
Publication	Orciuolo	Incidental Airway Findings on PET/CT with 18F-PSMA
Publication	Palmer	Defining the landscape of patient harm after osteopathic manipulative treatment: synthesis of an adverse event model.
Publication	Pignataro	Isolated Fallopian Tube Torsion: Diagnosis and Management of a Gynecologic Emergency
Publication	Reno	Cervical MRI assessment of traumatic anterior atlanto-occipital membrane complex injuries with evaluation of ancillary findings
Publication	Rider	Exploring gastric cancer genetics: A turning point in common variable immunodeficiency

Publication	Rider	Racial and ethnic disparities in early mortality among patients with inborn errors of immunity
Publication	Rider	Disparities in Diagnosis, Access to Specialist Care and Treatment for Inborn Errors of Immunity
Publication	Rider	What Came First: Malnutrition or Severe Disease?
Publication	Rider	A Nasal Inflammatory Cytokine Signature Is Associated with Early Graft-versus-Host Disease of the Lung after Allogeneic Hematopoietic Cell Transplantation: Pr
Publication	Rider	A validated artificial intelligence-based pipeline for population-wide primary immunodeficiency screening
Publication	Rolfs	Back to Play Considerations in a Patient with Bell's Palsy: A Case Report and Review
Publication	Roney	Regional Anesthesia for Orthobiologic Procedures
Publication	Severance	Manipulating Diastereomeric Bicyclononynes to Sensitively Determine Enzyme Activity and Facilitate Macromolecule Conjugations
Publication	Shah	Interarytenoid injection outcomes in pediatric feeding disorders
Publication	Small	Recurrence of symptoms may indicate the presence of a Morel-Lavallée lesion of the knee: A case report and literature review
Publication	Small	Total Hip Arthroplasty With Prophylactic Fixation of Greater Trochanter and Distal Femur in a Patient With a History of Multiple Myeloma and Breast Ca
Publication	Stewart	Influence of Supervised Maternal Aerobic Exercise during Pregnancy on 1-Month-Old Neonatal Cardiac Function and Outflow: A Pilot Study
Publication	Swanson	Increased ATP and Improved Fertility and Blastocyst Development in Aged Hamster Oocytes Following Autologous Platelet Mitochondrial Microinjection (u
Publication	Swanson	Development of Mouse Embryos in Nicotine-containing and Nicotine-free e-Cigarette Vapor Condensate Cultured for 4-days
Publication	Tawfik	Case series evaluating the efficacy and safety of platelet-rich plasma for androgenetic alopecia in pediatric patients
Publication	Unger	Defining the landscape of patient harm after osteopathic manipulative treatment: synthesis of an adverse event model
