

Type	Last Name	Activity Title
Grants	Bauer	Topical application of AgFresh™ Fentonite® will ameliorate the hyperalgesia associated with surgical/traumatic wounds and cutaneous burns
Grants	Martin	Characterization of serotonin receptor in AH and cannabinoid receptor in PHN that modify DOI-evoked pressor response from AH in rats
Grants	Price	Genomics and epigenetic regulation of <i>Cryptococcus neoformans</i> pathogenicity.
Presentation	Bardowell	Osteopathic Management of Chronic Pain Following Bilateral Periacetabular Osteotomy for Developmental Hip Dysplasia
Presentation	Despins	What a Pain in the Neck! The Challenges of Treating a C2 Fracture in an Elderly Patient with Multiple Comorbidities
Presentation	Garber	Organized & hosted: "Moral Trauma in Healthcare Professionals"
Presentation	Gigliotti	Diet significantly alters metabolic gene expression associated with probiotic administration in mice.
Presentation	Gigliotti	Diet significantly influences the gastrointestinal microbial content in male mice fed a commercially available probiotic supplement.
Presentation	Gigliotti	Short - term voluntary exercise significantly influences the diet - induced changes in cecal microbial content in male mice.
Presentation	Gigliotti	Exercise influences metabolic parameters and expression of markers of endoplasmic reticulum stress in a diet - dependent manner.
Presentation	Gigliotti	Diet Influences the Expression of Renal Sodium-Glucose Cotransporters in Juvenile Male Rats
Presentation	Gigliotti	Diet significantly influences adipose tissue weight and adipokine expression in response to probiotic administration in male mice.
Presentation	Gigliotti	Diet and probiotic administration significantly influence behavior and forebrain inflammation in male mice.
Presentation	Heller	Serial osteopathic manipulative treatments on a patient with a history of cervical stenosis and partial myelomalacia
Presentation	Heller	Osteopathic Manipulative Medicine and Wound Care: Physiology, Principles, and Application of Manual Lymphatic Techniques to Promote Wound Healing
Presentation	Hemric	The prevalence of the persistent median artery in living and cadaveric subjects: an ultrasonographic study.
Presentation	Hemric	Cadaveric coronary artery classifications: approaching vascularization in surgical planning modalities
Presentation	Jasperse	Exercise Influences Metabolic Parameters and Expression of Markers of Endoplasmic Reticulum Stress in a Diet Dependent Manner
Presentation	Joseph	Differentiating Vascular Dementia from Neurodegenerative Dementia (Alzheimer's Disease) using Arterial Spin Labeling MRI and Arterial Perfusion Analysis
Presentation	Kepley	Demystifying long covid-19
Presentation	Kepley	A new autologous mast cell cancer immunotherapy
Presentation	Liu	The Mouse Mammary Tumor Virus Mediates the Antineoplastic Action of Decitabine
Presentation	Liu	The Mouse Mammary Tumor Virus Drives Mouse Mammary Tumor Growth and Is Possibly a Target of Decitabine
Presentation	Maitland	Enhancing Teaching in the Clinical Setting: Strategies for effective Medical Education
Presentation	Miller	Cancer Prevention Through Screening
Presentation	Mintle	The Role of Trauma in Addiction.
Presentation	Mintle	The Cannabis Crisis: FAQs, Myths and Realities of Clinical Practice
Presentation	Mintle	The Prevention and Treatment of Stress and Anxiety: Evidence-based Practices for Individuals and Couples
Presentation	Mintle	The Differences in religious commitment and harm reduction attitudes among US medical students by sex assigned at birth: a pilot study
Presentation	Neville	Substance Use Disorders
Presentation	Potter	Scaffolding Simulation Activities for Medical Students Learning Cardiopulmonary Assessment: A Retrospective Study
Presentation	Price	Rho-GDP dissociation inhibitor affects growth and aflatoxin production in <i>Aspergillus flavus</i> .
Presentation	Samuel	Operationalizing Medical Education: Curriculum Evaluation, Review, and Implementation
Publication	Alford	Use of Hypoglossal Nerve Stimulation for Treating OSA in Military Patient Populations
Publication	Bauer	Elucidating a Key Mechanism of Perioperative and Postoperative Ileus: Microvascular Serum Leak-Activation of the Cyclooxygenase Pathway Causing Colonic Dysmotility
Publication	Bauer	Fatal Cardiovascular Collapse from the Intravenous Injection of a Large Molecular Weight Damaged Skeletal Muscle Trauma Protein Extract
Publication	Baur	Psychodynamic Insights into Treatment-Resistant Pharmacotherapy: A Case Study Exploring Patient-Physician Dynamics and Adherence to Evidence-Based Practices
Publication	Baur	Is Revision Arthroscopic Bankart Repair a Viable Option? A Systematic Review of Recurrent Instability following Bankart Repair
Publication	Baur	Surgical management of recurrent instability following Latarjet procedure - A systematic review of salvage procedures
Publication	Bustos	Lower Extremity Somatosensory Evoked Potentials Predict Functional Outcomes in Complete Traumatic Cervical Spinal Cord Injury

Publication	Despins	Challenges of Treating a C2 Odontoid Fracture in an Elderly Patient With Multiple Comorbidities: A Case Report
Publication	Fehr	Hormonal Fluctuation and Ankle Instability in Women-Is There a Correlation?
Publication	Fehr	Clinical Analysis of Postpartum Preeclampsia After an Uncomplicated Pregnancy
Publication	Garber	Beyond Lecturing: Christian Higher Education Faculty Perceptions of Professional Development Expectations and Its Impact on Job Satisfaction
Publication	Gigliotti	Sex differences in blood pressure regulation and hypertension: renal, hemodynamic, and hormonal mechanisms.
Publication	Hemric	Utility of handheld ultrasound in identifying millimeter-sized vasculature in living and cadaveric subjects
Publication	Hoegerl	Development of Standardized Osteopathic Manipulative Treatment Tracking Forms Recording Pain and Functional Outcomes to Facilitate Osteopathic Research
Publication	Joseph	Brain Injury-Associated Blood-Brain Barrier (BBB) Damage and Restoration Using Late-Phase Perfusion Analysis by 3D ASL MRI: Implications for Predicting Progressive Brain Injury
Publication	Joseph	Brain Injury-Associated Blood-Brain Barrier Leak/Dysfunction-Nexus of Neurodegenerative Disease Using MRI Markers to Identify Preclinical Disease and Potential New Targets for Future Therapies
Publication	Joseph	Identifying delay in glymphatic clearance of labeled protons post-acute head trauma utilizing 3D ASL MRI (arterial spin labeling): a pilot study
Publication	Kepley	Human mast cell progenitor spheroids give rise to mature mast cells in vitro
Publication	Kepley	Human Lung Mast Cells as a Possible Reservoir for Coronavirus; an Unrecognized Mechanism for Sars-Cov-2 Immune-Mediated Pathology
Publication	Kepley	Description and Characterization of Three-Dimensional Human Mast Cell Progenitor Spheroids In Vitro
Publication	Lim	Two ventral midline penile lesions in a young adult
Publication	Lustig	Spinal epidural hematoma and permanent paraplegia following spinal cord stimulator implantation: a case report
Publication	Mantooth	The inferior sacral iliac line as a horizontal reference plane in paediatric pelvic radiographs
Publication	Miller	Exploring Choke Holds in Brazilian JiuJitsu Athletes: A Demographic Study
Publication	Mintle	A Skills-Based Approach for Building Resiliency in Medical Students
Publication	Mintle	A Roadmap to Psychiatric Residency
Publication	Mintle	Development of standardized osteopathic manipulative treatment tracking forms recording pain and functional outcomes to facilitate osteopathic research.
Publication	Mintle	Differences in religious commitment and harm reduction attitudes among US medical students by sex assigned at birth: a pilot study
Publication	Ojuola	Delayed presentation of food protein - induced enterocolitis syndrome (FPIES) to okra in a toddler.
Publication	Praetzel	Local Therapy and Reconstruction in Penile Cancer: A Review
Publication	Reno	Virtual state-wide dermatology advocacy day promotes advocacy efforts amongst medical trainees
Publication	Rider	Dissecting Secondary Immunodeficiency: Identification of Primary Immunodeficiency within B-Cell Lymphoproliferative Disorders
Publication	Rider	A Second Slice of FPIES: A Single-Center Reappraisal of Pediatric FPIES
Publication	Rider	Validating inborn error of immunity prevalence and risk with nationally representative electronic health record data
Publication	Rider	Natural language processing of clinical notes enables early inborn error of immunity risk ascertainment
Publication	Rider	Exploring gastric cancer genetics: A turning point in common variable immunodeficiency
Publication	Swanson	Cardiovascular response to nanosecond pulses is milder in percutaneous ablation of hepatocellular carcinoma compared with microsecond pulses
Publication	Talamo	From Deworming to Cancer Therapy: Benzimidazoles in Hematological Malignancies
Publication	Thibault	Surgical Obliteration of a Femoral-Terminale Arteriovenous Fistula Following Aborted Endovascular Embolization: Illustrative Case Report and Literature Review
Publication	Thibault	Racemose neurocysticercosis of the basal arachnoid cisterns: illustrative case
Publication	Yang	Acute Primary Small Bowel Volvulus in a Male With Loays-Dietz Syndrome
Publication	Zivcevska	Antioxidant, anti-inflammatory and epigenetic potential of curcumin in Alzheimer's disease
Publication	Zivcevska	The role of membrane trafficking and retromer complex in Parkinson's and Alzheimer's disease
