Title: School of Engineering and Computational Sciences - Online Program

School of Engineering & Computational Sciences - Online Program

Information Security Minor

PURPOSE

The purpose of the Information Security Minor is to provide the student with an awareness of the threats to and vulnerabilities of our corporate and national security information systems, as well as develop the skills needed to design, execute, and evaluate information security policies, procedures and practices.

PROGRAM LEARNING OUTCOME

The student will be able to design and operate the policies, procedures and practices of an information security system.
