

**Internship Culminating Projects – Internship Part: \_\_\_\_\_**

**Student Name: \_\_\_\_\_**

**School Name: \_\_\_\_\_**

*The following three projects are to align clearly with the standards for school counseling and are to be related to improving student academic achievement. Collaborate with your site supervisor to ensure that the projects are beneficial to the school and meaningful for you. Your projects will need to align with the standards listed on the Advanced Competency Assessment (ACA). It is possible for a project to align with more than one standard listed on the ACA form. List all standards (number of the standard is sufficient) that align with each project. Also, ensure that each of the 32 ACA standards is listed at least once after completion of the total six projects (3 projects for each semester of internship). Please review the Practicum and Internship Manual if you have questions about what might be an appropriate project.*

**Project #1**

**School Level:**     **Elementary**                       **Secondary Project**  
**Name:**  
**Please check one (at least two projects must work directly with students)**  
 Small Group     Classroom Guidance     Parent-Teacher Workshop  
 School-wide Assembly     Other, please describe method of delivery:  
\_\_\_\_\_.

**Project Description:**

**ACA standards that align with the project:**

Demonstrate how this project impacted student academic achievement. For example, during EDCE 512 and EDCE 661 you were required to write measurable objectives and create a pre- and post-test in order to assess impact on academic achievement and student development (academic, personal-social, career) using a cross-walking approach.

**Project #2**

**School Level:**     **Elementary**                       **Secondary Project**  
**Name:**  
**Please check one (at least two projects must work directly with students)**  
 Small Group     Classroom Guidance     Parent-Teacher Workshop  
 School-wide Assembly     Other, please describe method of delivery:  
\_\_\_\_\_.

**Project Description:**

**ACA standards that align with the project:**

**How the project relates to improving student academic achievement:**
