

## **Immunization Information**

### Required Immunizations

Hepatitis B #1

Hepatitis B #2

- Second shot given 3 days after the first shot.

Hepatitis B #3

- The third shot will be given 4-6 months after the second shot.

Tetanus Booster

- Given as one dose for those who haven't had a tetanus shot within the last 5 to 10 years.

Meningococcal Meningitis

- Given as one dose.

Measles/Mumps/Rubella Dose #1

Measles/Mumps/Rubella Dose #2

- Given in a two-dose series, with shots one and two separated by at least one month.

Tuberculosis Screening/PPD

- Screening is to be completed by your health-care provider to assess risk for Tuberculosis infection. If you answered yes to any of the questions on the form, a two-step PPD test or a Quantiferon TB test will be required. Please upload your TB results. If you have tested positive in the past, documentation of a negative chest x-ray is necessary.

Polio Series

### Center for Disease Control (CDC) Recommended Immunizations
