Chapter 1. Introduction

1.1. Mission

1.1.A. Mission Statement
Liberty University College of Osteopathic Medicine (LUCOM) exists to educate osteopathic physicians in a Christian environment. LUCOM prepares physicians who dedicate themselves to excellence in the practice of osteopathic medicine through service toward their fellow man, lifelong learning, and the advancement of medical knowledge. Instilling the Christian values of integrity and professionalism, LUCOM trains physicians who will provide ethical, compassionate, competent, and patient-centered osteopathic medical care.

1.1.B. Values
Scholarship
Teamwork
Leadership
Service
Professionalism
Integrity
Commitment to incarnational Christianity
Diversity
Ethical treatment of people

1.1.C. Goals
1. To recruit and graduate osteopathic medical students who have a servant’s heart and are committed to providing care to underserved and underrepresented patients in Virginia, the Southeastern United States, the United States of America, and the globe.
   a. To recruit a diverse student body that has a desire to serve disadvantaged urban and rural underserved populations.
   b. To place an emphasis on recruitment of students from Virginia and the Southeastern United States who share our mission, vision and values and are likely to practice in the region and help advance its health and economic status.
2. To honor and preserve the history and philosophy along with the art and science of osteopathic medicine through the teaching of historical principles and practices and the incorporation of up-to-date scientific knowledge, research, clinical, and biomedical sciences.
3. To provide an osteopathic medical education that is holistic, evidence-based, community-focused, and patient-centered with excellence as its expected standard.

4. To teach students by design, example, and mentorship the treatment of the patient as an integrated whole; incorporating the mind, body, and spirit.

5. To develop graduates who are qualified to enter any medical discipline upon graduation yet predominantly enter primary care, preventive, and community-based practices in our service area. This will be accomplished through the design of the curriculum, the type and location of the clinical educational opportunities provided, and the leadership of the faculty role models that are provided by the COM.

6. To advance the careers, knowledge, skills, and personal lives of the faculty and staff of the COM through support for scholarly activity, research, faculty development, a positive environment, and respect.

7. To contribute to the advancement of medical knowledge and advance the quality of health care for society through educational, scientific, and clinical research, promotion of effective health policy, and other scholarly activity.

8. To be a valued member of the greater Liberty University, Lynchburg, and Virginia communities through contributions to educational, professional, societal affairs and through works of service.

9. To support and advance osteopathic and other professional medical associations through leadership, support, contributions of service, development of policies, expansion of knowledge, and collaborative efforts.

10. To develop clinical education opportunities in rural and underserved areas of Virginia, local as well as distant regions of the United States and globally, and to provide quality clinical educational opportunities for LUCOM students and residents.

11. To develop clinical opportunities in rural and underserved areas of Virginia that will provide expanded access for patients’ healthcare through the efforts of LUCOM faculty, students, and residents.

12. To develop and maintain national and international medical outreach and mission programs to train clinicians to serve in underserved areas of Virginia, the United States, and the developing world.

13. To collaborate with our affiliated hospitals and clinical partners to develop graduate medical education programs for osteopathic and other health professions graduates, provide educational opportunities for healthcare professionals at the same time the programs provide healthcare and educational services to our region.
1.2. Non-Discrimination Statement

Liberty University does not engage in unlawful discrimination or harassment because of race, color, ancestry, religion, age, sex, national origin, pregnancy or childbirth, disability or military veteran status in its educational programs and activities. Liberty University maintains its Christian mission and reserves its right to discriminate on the basis of religion to the extent that applicable law respects its right to act in furtherance of its religious objectives. Specifically, the College of Osteopathic Medicine furthers the University’s religious mission by using religion-based criteria in hiring. Although the College of Osteopathic Medicine does not use religion-based criteria in student admissions, its students are expected to abide by its Code of Conduct.

The College of Osteopathic Medicine accepts the teaching of the traditional biblical view with regard to sexual conduct outside abibically ordained marriage between a natural-born man and a natural-born woman, which is incorporated into its Code of Conduct. Consistent with those teachings, the College of Osteopathic Medicine does not discriminate solely on the basis of an individual's professed sexual orientation, but only with regard to accompanying sexual conduct or other actions that undermine essential elements of the University’s Christian mission.

The College of Osteopathic Medicine also takes into account personal history and fitness to practice medicine in its admissions and retention decisions. Specifically, the College of Osteopathic Medicine requires compliance with the Technical Standards to be qualified for its programs; however, qualified students have the opportunity to request accommodations and any decisions based on failure to meet its standards can be appealed.

The following persons have been designated to coordinate Liberty University’s compliance with certain anti-discrimination laws: Coordinator of LU Online Disability Academic Support at (434) 592-5417 or luoodas@liberty.edu; Director of Disability Academic Support (Residential) at (434) 582-2159 or odas@liberty.edu; Executive Director of Title IX at (434) 592-4999 or TitleIX@liberty.edu.

1.3. The American Osteopathic Association (AOA) Code of Ethics

The American Osteopathic Association (AOA) Code of Ethics is a document that applies to all physicians who practice osteopathically throughout the continuum of their careers, from enrollment in osteopathic medical college/school through post graduate training and the practice of osteopathic medicine. It embodies principles that serve as a guide to the prudent physician. It seeks to transcend the economic, political, and religious biases, when dealing with patients, fellow physicians, and society. It is flexible in nature in order to permit the AOA to consider all circumstances, both anticipated and unanticipated. The physician/patient relationship and the professionalism of the physician are the basis for this document.

The AOA has formulated this Code to guide its member physicians in their professional lives. The standards presented are designed to address the osteopathic physician's ethical and professional responsibilities to patients, to society, to the AOA, to others involved in health care and to self.

Further, the AOA has adopted the position that physicians should play a major role in the development and instruction of medical ethics.
Section 1. The physician shall keep in confidence whatever she/he may learn about a patient in the discharge of professional duties. Information shall be divulged by the physician when required by law or when authorized by the patient.

Section 2. The physician shall give a candid account of the patient's condition to the patient or to those responsible for the patient's care.

Section 3. A physician-patient relationship must be founded on mutual trust, cooperation, and respect. The patient, therefore, must have complete freedom to choose her/his physician. The physician must have complete freedom to choose patients whom she/he will serve. However, the physician should not refuse to accept patients for reasons of discrimination, including, but not limited to, the patient's race, creed, color, sex, national origin, sexual orientation, gender identity, or disability. In emergencies, a physician should make her/his services available.

Section 4. A physician is never justified in abandoning a patient. The physician shall give due notice to a patient or to those responsible for the patient's care when she/he withdraws from the case so that another physician may be engaged.

Section 5. A physician should make a reasonable effort to partner with patients to promote their health and shall practice in accordance with the body of systematized and scientific knowledge related to the healing arts. A physician shall maintain competence in such systematized and scientific knowledge through study and clinical applications.

Section 6. The osteopathic medical profession has an obligation to society to maintain its high standards and, therefore, to continuously regulate itself. A substantial part of such regulation is due to the efforts and influence of the recognized local, state and national associations representing the osteopathic medical profession. A physician should maintain membership in and actively support such associations and abide by their rules and regulations.

Section 7. Under the law a physician may advertise, but no physician shall advertise or solicit patients directly or indirectly through the use of matters or activities which are false or misleading.

Section 8. A physician shall not hold forth or indicate possession of any degree recognized as the basis for licensure to practice the healing arts unless he is actually licensed on the basis of that degree in the state or other jurisdiction in which she/he practices. A physician shall designate her/his professional degree in all professional uses of her/his name. Indications of specialty practice, membership in professional societies, and related matters shall be governed by rules promulgated by the American Osteopathic Association.

Section 9. A physician should not hesitate to seek consultation whenever she/he believes it is in the best interest of the patient.

Section 10. In any dispute between or among physicians involving ethical or organizational matters, the matter in controversy should first be referred to the appropriate arbitrating bodies of the profession.
Section 11. In any dispute between or among physicians regarding the diagnosis and treatment of a patient, the attending physician has the responsibility for final decisions, consistent with any applicable hospital rules or regulations.

Section 12. Any fee charged by a physician shall compensate the physician for services actually rendered. There shall be no division of professional fees for referrals of patients.

Section 13. A physician shall respect the law. When necessary a physician shall attempt to help to formulate the law by all proper means in order to improve patient care and public health.

Section 14. In addition to adhering to the foregoing ethical standards, a physician shall recognize a responsibility to participate in community activities and services.

Section 15. It is considered sexual misconduct for a physician to have sexual contact with any patient with whom a physician-patient relationship currently exists.

Section 16. Sexual harassment by a physician is considered unethical. Sexual harassment is defined as physical or verbal intimation of a sexual nature involving a colleague or subordinate in the workplace or academic setting, when such conduct creates an unreasonable, intimidating, hostile or offensive workplace or academic setting.

Section 17. From time to time, industry may provide some AOA members with gifts as an inducement to use their products or services. Members who use these products and services as a result of these gifts, rather than simply for the betterment of their patients and the improvement of the care rendered in their practices, shall be considered to have acted in an unethical manner.

Section 18. A physician shall not intentionally misrepresent himself/herself or his/her research work in any way.

Section 19. When participating in research, a physician shall follow the current laws, regulations and standards of the United States or, if the research is conducted outside the United States, the laws, regulations and standards applicable to research in the nation where the research is conducted. This standard shall apply for physician involvement in research at any level and degree of responsibility, including, but not limited to, research, design, funding, participation either as examining and/or treating provider, supervision of other staff in their research, analysis of data and publication of results in any form for any purpose.
Chapter 2. Campus Facilities

2.1. Building Hours and Utilization

Regular operating hours for the Center for Medical and Health Sciences (CMHS) are 8:00 a.m. to 5:00 p.m. Monday through Friday. CMHS is accessible only by using LU ID. Guests or visitors must check in at the front desk. Building hours for students may vary. The Office of the Dean will communicate expectations annually or as needed. LUPD will clear the building and anyone found utilizing the building outside of regular hours will be subject to disciplinary action.

The auditoriums will be locked each night at 9 p.m. so they can be cleaned. Auditoriums will not be open or available on weekends or Holidays without special administrative permission. Instructions on requesting academic spaces is below. For the safety and security of the building and the individuals within it, doors are not to be propped open and emergency exits are not to be used except in cases of emergency; doing so may result in dismissal from the COM.

To foster an environment which supports and allows for professional development and appropriate academic experience and rigor, students are not encouraged to bring children into the learning environment. As a commitment to offer an unimpeded learning environment for student doctors, children are not allowed in assessments, lab or during classroom application activities where the students will be expected to contribute to the learning of others (e.g. TBL, CBL, APP, GAPP).

2.1.A. Inclement Weather

When inclement weather occurs, LUCOM works collaboratively with the Liberty University Police Department to make decisions based on road and facility conditions. LUCOM also considers weather forecasts and precipitation outlook when making decisions due to the occurrence, or anticipation, of inclement weather. LUCOM provides closure and/or delay notifications separately from that of Liberty University using three primary platforms:

1. E-mails will be sent to official "@Liberty.Edu" e-mail address

2. Students, Faculty and Staff may dial (434) 592-6400 to hear a pre-recorded notification in the case of a closure or delay

3. Text messaging alerts will be available to those who register through the myLU portal

Members of the LUCOM community are encouraged to confirm closures and delays with the above options, which may vary from the Inclement Weather notification sent by Liberty University. All LUCOM students, faculty, staff and guests are encouraged to exercise caution when traveling in potentially hazardous conditions.

Please see the Clinical Training Manual for inclement weather instructions for OMS-III and OMS-IV students.
2.2. Regulations for All Rooms

Students are to adhere to the following regulations regarding all room types in the Center for Medical and Health Sciences:

- The College of Medicine’s Code of Conduct must be followed.
- Rooms are to be used for academic and university related purposes only. Using the rooms for non-academic purposes or repeated forfeits may result in loss of privileges.
- Windows should never be drawn on nor covered.
- Doors must never be locked.
- Furniture should never be rearranged nor should it be moved from one room into another.
- Writable walls should be cleaned before leaving the room.
- All trash from food must be placed in a trash can outside of the room.
- If a group leaves one of the rooms in an unexpected state of disarray (tables not put up, food stains, trash, etc. as defined by the dean or his administrative team solely at their discretion), they will be billed a $150 cleaning fee.
- Rooms cannot be reserved or held by placing personal belongings in them. Unattended items will be removed and sent to the Library front desk or the Lost and Found.

2.3. Privacy Rooms

Several small privacy rooms are located in the back of each auditorium. These rooms are equipped with a door and a two-way mirror. These rooms are to be used by those students, faculty, and staff who may need privacy during lectures. Use of the privacy room must not create a distraction for others attending lectures or events in the auditorium. Examples of situations that might necessitate the use of privacy rooms include but are not limited to: illness/injury, lactating mothers, educational accommodations to assist student learning, or other extenuating circumstance whereby use of the privacy room would allow a student doctor to attend lecture, Convocation, or other events which they might otherwise miss. It is not permissible to loiter in this space between lectures, therefore the privacy room must be cleared unless the Dean or the Office of Medical Education has granted an exception. Children may not be present in the privacy room(s). Questions about these spaces should be directed to the Office of the Dean.

2.4. Room Reservations

The purpose of Group Study Rooms, Small Group Classrooms, and Auditoriums located through the Center for Medical and Health Sciences are to provide spaces for students to learn, work, study, and collaborate for academic and professional purposes. Technical and research assistance is available from the IT Helpdesk and librarians. The Group Study Rooms are equipped with writable walls, and the instructions and supplies for these rooms are available at the circulation desk. The Small Group Classrooms and Auditoriums are equipped with a television monitor, and the instructions for the television are available from the IT Helpdesk.
2.4.A. Group Study Room Reservations

Students have access to 25Live to reserve these rooms for academic purposes: CMHS 3077A, 3077B, 3076A, 3076B, 4042A, 4042B, 4050A, 4050B, 4050C, 4048A, 4048B, 4003A, 4003B. The Office of Admissions and Student Services is available to assist students who wish to request use of other spaces within the building.

The Medical Library Staff secures and monitors all small group study reservations for spaces within the Medical Library, including: 4033, 4032, 4031, 4030, 4029, 4028, 4027, 4026, 4025, 4024, and 4023.

- Curricular/Administrative needs will supersede student reservations. For example, PCM/OMM small group splits will override a student's reservation, as will COMPASS.
- Reserving student groups must consist of two or more people and must not exceed the maximum posted capacity of the room (list all names on the 25Live reservation)
- Group Study Rooms can be reserved for up to 3 hours at a time
  o Student groups may re-reserve the space at the close of the 3-hour block if no one else has reserved the space.
- Reserved rooms that are not occupied by members of the reserving group within 10 minutes after the beginning of the reservation period will be forfeited and open for use by others – the others at that time must submit a reservation through 25Live to secure the space.
- Rooms not previously reserved will be available for reservation on a first-come, first-served basis and the individual must secure the reservation in 25Live.

If a student encounters any challenges with this process or wishes to submit a suggestion or feedback, the student should contact their Student Government Association representative. The SGA representative will follow-up accordingly with the appropriate Administrative Staff member.

2.4.B. 25Live Room Reservations Instructions

https://25live.collegenet.com/liberty (log in with LU credentials)

1. Click “Create an Event"
2. Follow the instructions listing all group members in the event name;
   a. For Students: Primary Organization is “LUCOM Student Services & Admin”
   b. To search for locations, you may type the location if you know it by name: “CMHS ####” or search by typing “CMHS” into the search field and click ‘enter’ for a drop-down menu.
   c. Skip Event Resources, Custom Attributes, Event Categories, Publish to Calendar, Set Up Instructions, and Event Confirmation Notes
   d. Click “Confirmed” as the Event State
   e. Save
3. Your reservation has been secured, unless you receive notice that there is a scheduling conflict. In that case, you can search for other available spaces during the requested timeframe by using the “Event Locations” drop-down.
2.5. Medical Library

The medical library is an essential focal point of the academic goals and educational programs of the medical school as the librarians work closely with professors to support faculty research, scholarship, and teaching, develop a competent collection, and provide library services and instruction to medical students. As the College matures and the student body and faculty grow, the medical library must support increased faculty and student research and scholarly activity, an expanding and evolving curriculum, along with faculty and student professional development.

2.6. The Medical Collection and Access to Information

The medical library can most effectively execute its collection development plan when the faculty provides coordinated, collaborative, effective, and efficient requests for additional resources.

The library collection must support the required and basic curriculum as well as scholarly opportunities for expansive research into topics of interests on the part of faculty and students.

The College recognizes, promotes, and strives to further develop the professional status of the medical librarians and staff.

The medical library maintains a mutually supportive relationship with the University’s Jerry Falwell Library.

2.7. Food and Beverage

Food and drinks without lids are not permitted in auditoriums, laboratories, simulation, standardized patient rooms, or in the Medical Library. Exceptions to the food and beverage policy for the auditoriums can be made with prior approval from the Dean or his designee. Abiding by the food policy is considered appropriate professional behavior. Therefore, failure to adhere to the policy will be documented in the student’s file. Students who fail to adhere to the policy on more than one occasion may be required to appear before SPC regarding a violation of the code of conduct and a breach in professional behavior.
Chapter 3. Standard of Conduct for Teacher-Learner Relationship

Liberty University College of Osteopathic Medicine is committed to maintaining a positive environment for study and training, in which individuals can pursue their educational and professional activities in an atmosphere that is humane, respectful and safe. As such, student mistreatment disregards these fundamental principles and will not be tolerated.

LUCOM defines mistreatment as behavior that shows disrespect for learners and interferes with their respective learning process. Such behavior may be verbal, emotional, or physical. When assessing behavior that is perceived as mistreatment, students are expected to consider the conditions, circumstances, and environment surrounding such behavior. Provision of healthcare is inherently stressful. Osteopathic Medical Student training is a rigorous process where the welfare of the patient is the primary focus and that, in turn, may impact behavior in the training setting. Osteopathic Medical Students also are required to maintain a high level of individual responsibility for their education and actions.

Reflective of this philosophy, all LUCOM faculty, including community faculty, will abide by this Compact between Teacher and Learners of Medicine. This Compact has been modified from the Compact between Resident Physicians and Their Teachers produced by the Association of American Medical Colleges. This Compact serves both as a pledge and as a reminder to teachers and learners that their conduct in fulfilling their mutual obligations is the medium through which the medical and health professions inculcate their ethical values.

3.1. Guiding Principles

**Duty.** Medical and health professions educators have a duty not only to convey the knowledge, competencies, and skills required for delivering their profession's contemporary standard of care or research, but also to instill the values and attitudes required for preserving their profession's social contract across generations.

**Integrity.** The learning environments conducive to conveying professional values must be infused with integrity. Students learn enduring lessons of professionalism by observing and emulating role models who epitomize authentic professional values and attitudes.

**Respect.** Fundamental to the ethic of osteopathic medicine is respect for every individual. Mutual respect between learners, as novice members of a profession, and their teachers, as experienced and esteemed professionals, is essential for nurturing that ethic. Given the inherently hierarchical nature of the teacher–learner relationship, teachers have a special obligation to ensure that students are always treated respectfully.
3.2. Commitments of Faculty

We pledge our utmost effort to ensure that all components of the educational program for students are of high quality.

As mentors for our students, we maintain high professional standards in all of our interactions with patients, colleagues, and staff.

We respect all students as individuals, without regard to gender, race, national origin, religion, or sexual orientation; we will not tolerate anyone who manifests disrespect or who expresses biased attitudes towards any student.

We pledge to respect the duty hour requirements for students as stipulated in the applicable accreditation standards.

In nurturing both the intellectual and the personal development of students, we celebrate expressions of professional attitudes and behaviors, as well as achievement of academic excellence.

We do not tolerate any abuse or exploitation of students.

We encourage any student who experiences mistreatment or who witnesses unprofessional behavior to report the facts immediately to appropriate faculty or staff. We will treat all such reports as confidential and do not tolerate reprisals or retaliations of any kind.

3.3. Commitments of Students

We pledge our utmost effort to acquire the knowledge, skills, attitudes, competencies, and behaviors required to fulfill all educational objectives established by the faculty.

We cherish the professional virtues of honesty, compassion, integrity, fidelity, personal responsibility, dependability, and a high moral standard.

We pledge to respect all faculty members, and all students as individuals, without regard to gender, race, national origin, religion, or sexual orientation.

As osteopathic physicians in training, we embrace the highest standards of our profession along with its code of ethics and pledge to conduct ourselves accordingly in all of our interactions with patients and/or colleagues and staff.

In fulfilling our own obligations as professionals, we pledge to assist our fellow students in meeting their professional obligations as well.
3.4. Reporting of Student Mistreatment

Students are encouraged to report mistreatment via three avenues:

1. Notify rotation/program director or department chair

2. Notify a Dean

3. Report the incidence on a course/clerkship evaluation

These mechanisms can be used to report mistreatment by staff members of LUCOM or affiliate institutions as well.

If deemed appropriate, reports will be investigated by the Office of the Dean, LUCOM Human Resources, or by a Department/Division chair.
Chapter 4. Academic Services

4.1. Access to College Administration

The Dean has a regularly scheduled monthly meeting with the Class Officers and Student Government Association to promote the exchange of information and encourage communication between students and administration. Regularly scheduled “Dean Hours” are held with the classes each semester to provide information and interaction.

4.2. Faculty Office Hours

The COM administration endorses an open-door policy and encourages students to meet with the faculty and administration regularly. While walk-in consultations and conferences are possible when faculty are available, each faculty member has regular office hours. You may contact faculty members or their administrative assistant regarding office hours or to schedule an appointment.

4.3. Academic Advising

The goal of the Academic Adviser/Compass Leader is to provide students with assistance, guidance, and mentorship to enable them to achieve the maximum benefit and outcome from their educational experiences and to assist them in maintaining quality of life while they are students at LUCOM.

The role of the academic adviser is to:

- Provide students with guidance, direction, and encouragement
- Direct the student to appropriate College, University, or community resources
4.4. Professional and Career Counseling and Resources

Part of the College's mission is to educate primary care and first point of contact physicians for underserved populations in Virginia and the Southeast United States. The College also strives to expose students to make informed decisions about their own professional lives. Toward this end, LUCOM's Office of Admissions and Student Services can direct students to the appropriate College, University, or community resources for a wide range of materials and information on:

- Graduate medical education, including resident and fellowship training
- Research opportunities
- Careers in federal, state, and local government
- Mission and outreach opportunities

The Offices of Clinical Affairs, for the Office of Graduate Medical Education, and the Office of Admissions and Student Services offer individualized coaching and information on careers in medicine, residency programs, the AOA and NRMP match, hospital, clinic based, and private practices; group and solo practice; public health units; military careers, and managed health care organizations.

First and second year students may be introduced to careers in medicine through the Shadowing Program. Second and third year students are invited to events organized on campus to allow them to meet with current clinical students, residents and representatives from hospitals that sponsor training programs throughout the nation to prepare them for selecting pre-doctoral and post-doctoral training sites.
The primary role of the Academic Counselors is to assist students in developing a support plan both academically and personally and to offer individual guidance to help students achieve academic goals and success. The Academic Counselors will provide direction through study skills, test-taking techniques, and time management skills by recommending educational solutions. It is also likely that, at times, the Academic Counselors will suggest referrals for students who may need emotional or psychological counseling or treatment. The Academic Counselors work with faculty advisors to provide support for students on academic monitoring or academic probation. The Academic Counselors monitor student progress and reach out to students early in their academic careers should they need assistance. Students may be required to participate in academic assistance services once they fail any graded course assessment in an academic year, they achieve a grade of less than 74 in a course, or they have to remediate a course. Students may also be required to participate in academic support services for other reasons in which lack of academic progress is determined. The Counselors also serve students returning from a leave of absence in an advisory role. The Academic Counselors provide counseling, serve as advocates while addressing student concerns which are genuine and specific to their academic experience, and oversee the hiring, scheduling and pay for the graduate assistants associated with the LUCOM Tutorial Program.

The LUCOM Graduate Assistant Tutorial Program is designed to provide an additional level of academic support to students seeking assistance with course specific-content in order to supplement the formal learning environment. This assistance allows medical students to develop a deeper understanding of course concepts with the support of GA’s who clarify difficult course material and provide motivation as peer mentors. Those students who have performed well in specific courses are afforded the opportunity to serve as GA’s for their peers and allows those students receiving tutoring to learn from their peers. The primary goal of tutoring services is for all students to be successful in course work as they progress through the curriculum. For more information regarding the tutorial program, contact the Academic Counselors.
Chapter 5. Student Services

The Office of Admissions and Student Services (OASiS) exists to support students and enhance their quality of life and to facilitate their academic endeavors while in attendance at Liberty University College of Osteopathic Medicine. The curriculum at LUCOM is rigorous and is designed to prepare students to become osteopathic physicians, placing demands on the student and the student’s family that often mandate outside assistance. The Office of Admissions and Student Services will offer services to help meet the emotional, spiritual, social, physical, financial, and academic needs of students. The OASiS maintains an open-door policy to guide and advise students on personal and spiritual matters.

Student Services is responsible to provide oversight for, collaborate with and coordinate student government and student organizations’ activities: social, community service and outreach events, educational presentations, symposiums, etc.

The Office of Admissions and Student Services works with the Office of the Dean to assign student advisors for the individual students to provide mentorship, role modeling, and general guidance during the students time at LUCOM.

The Office of Admissions and Student Services works with the individual student to provide career counseling and assistance in GME preparation and selection.

5.1. Flames Pass

The Flames Pass is the official Liberty University ID card. It provides access to the college and its various educational and administrative areas such as the laboratories and library. In addition, it can provide access to pre-paid meal plans, Flames Cash, serve as student I.D. for sporting events and activities campus wide. The Flames Pass is valid as long as a student is actively enrolled and financially in good standing. During orientation, students will apply for their Flames Pass through the ID & Campus Services Office.

5.2. Parking Decals

Any motor vehicle (including motorcycles, motorbikes, and mopeds) or bicycle operated or parked on property owned or controlled by Liberty University must display a valid Liberty University parking permit or pass. The type of permit or pass indicates the areas in which a vehicle may be parked. COM students will have an assigned parking lot on campus and any car parked in faculty or clinic parking is subject to a ticket or tow.

Students must register for their parking permits or passes with the Liberty University Police Department during orientation and annually by following the directions on the LUPD webpage. Students must abide by all parking rules and regulations as stated on the Liberty University Police Department webpage.
5.3. Liberty University Police Department (LUPD)

The Liberty University Police Department (LUPD) provides 24-hour a day patrol, police, security, and emergency medical services to the campus, parking lots, residence halls, and other properties owned or controlled by the University.

LUPD officers are duly sworn with full law enforcement powers and responsibilities, identical to those of the local police or sheriff’s department in any local community.

LUPD reminds students that safety is a community responsibility. A truly safe campus can only be achieved through active participation of all persons who reside, work, study, or visit on campus.

LUPD Contact Information:

- On-campus Emergency Services (Police, Fire, EMS): 434-592-3911
- Non-Emergency and Escort Service: 434-592-7641

5.4. BankMobile Card

The BankMobile card is issued to every Liberty University student and is the tool needed to select a refund preference to receive financial refunds. BankMobile is the banking partner that disburses refunds for the University. For new medical students, the card is sent to the mailing address on file with the University approximately three weeks prior to first day of orientation on campus. Financial check-in must be completed before the student will receive their card.

A student retains the same card during their time as a student at Liberty University. For returning students (those who were once a student at Liberty University) the original BankMobile card will still be active. If the student no longer has possession of the card, please contact ID & Campus Services to have another card ordered. Important: No refunds from a student account can be processed until the card is activated online and the refund method selected.

For more information, contact the LUID & Campus Services Office.

5.5. Lockers

Students will be assigned a locker annually during the OMS-I and OMS-II years. They are available for usage from the first day of class the first semester until the last day of class at the end of each year. Students are to provide their own lock. The University or College are not responsible for theft or lost items from the lockers. The lock and the material in the locker must be removed within one week after the end of the each year or the lock will be cut and the material in the locker disposed of by the College.
5.6. Mental Health Services

All students have access to a variety of mental health services including 24-hour psychiatric services. Information is maintained and posted in the Office of Admissions and Student Services and other strategic locations throughout the campus. The individual student and their personal health insurance are responsible for all fees that are incurred through the utilization of such services.

5.6.A. Centra Piedmont Psychiatric Center
LUCOM students will be called back within 48 hours and an appointment will be scheduled within 2 weeks. Students will need to identify as a LUCOM student to the intake worker in order to expedite the scheduling process.

3300 Rivermont Avenue
Lynchburg, VA. 24503
434-200-5999 or 888-528-5999
Fax: 434-200-5993
Monday – Thursday 9:00am-6:00pm
Friday 9:00am-5:00pm
*After hours, for an emergency, call 911 or go to the nearest emergency department (Lynchburg General Hospital)

5.6.B. LU Student Counseling Services
Licensed professional counselors are available to provide individual counseling, group counseling and referrals as needed.

Green Hall, 1830
434-582-2651
studentcounselingservices@liberty.edu
Monday – Friday
8:00am-5:00pm

*For an emergency after hours, contact LUPD at 434-582-3911. LUPD will place students in immediate contact with on-call clinicians through Liberty University Student Counseling Services who are available 24/7.
5.6.C. StudentLinc
The StudentLinc program is a free health benefit offered to help you balance school, family and your personal life. StudentLinc provides short-term counseling and also provides valuable resources for life-balance services. Licensed professional counselors are available via phone, video or web chat. Services are available 24/7, 365 days per year.

1-888-893-5462

username: lucom

5.6.D. LUCOM Student Services
Students can contact Assistant Dean of Admissions and Student Services for a referral to local counseling services.

Phone #: 434-592-6954
Office 1010
glpatton@liberty.edu

5.6.E. Behavioral Health Providers and Student Performance Evaluation
A health care provider that is delivering or has delivered behavioral health services to a LUCOM student may not directly participate in any aspect of that student’s performance evaluation. This primarily applies to core or elective clinical rotations, but may apply to pre-clinical educational events in which the provider is not blinded to the student. As LUCOM may not be aware of the relationship due to confidentiality, it is the responsibility of the health care provider to recuse themselves from having the student on their clinical service. The provider should contact LUCOM through the office of clinical rotations to switch preceptors for the month.

5.6.F. LUCOM Clinical Rotations
LUCOM students on clinical rotations are also encouraged to visit the LUCOM web page for an up-to-date list of mental health services near core hospital sites.

5.7. LU Health Center
All students have access to the Liberty University Student Health Center on Liberty University’s campus.

LU Student Health Center wellness and health services are designed to promote the current and future well-being of our student-patients through the provision of nationally recognized healthcare. The LUSHC offers services that are cost-effective and responsive to student needs so as to reduce the impact of illness and other health concerns which may interfere with student success.
On campus healthcare services are provided by CVFP Medical Group as a convenience for students and staff. Payment for services rendered is the patient's responsibility. If preferred, the student may contact any other health provider of their choice.

**Services Offered**

**Medical Clinic**

- Acute care visits
- Preventive care visits
- Annual physicals
- Chronic disease management for asthma, diabetes, auto-immune disorder and other long-term conditions
- Nutrition and health coaching
- Flu vaccine
- X-rays

**Women’s Clinic**

- Complete physical exams including breast exam, gynecological exam, pap smears and other health maintenance testing as needed
- Testing and treatment of Sexually Transmitted Infections (STIs)
- Contraceptive (birth control) counseling/management
- Evaluation of menstrual and other gynecologic disorders, such as: vaginitis, urinary tract infections, endometriosis, pelvic pain, sexual concerns
- Management and treatment of abnormal pap smears
- HIV testing
- HPV vaccine
- Pregnancy Detection
- Preconception counseling

**Lab**

- Complete Blood Count
- Manual Differentials
- Complete Urinalysis
- Fingerstick Glucose
- Wet Prep for Vaginal Infections
- KOH Skin
- Rapid Strep
- Rapid Mononucleosis
- Rapid HCG
- Sed Rate
- Hemoccult

For additional information about services, contact LUSHC.

Chapter 6. Student Organizations

6.1. Student Government Association

The Student Government Association is the official voice for all osteopathic medical students on the campus of LUCOM. The meetings are open to all students in the College, and the Student Government Association welcomes proposals and participation from the entire student body. Responsibilities of the Student Government Association include collecting and expressing student opinion, dispensing funds for student activities, acting as a liaison for the student body, promoting osteopathic medicine, supporting club and class activities, and working to improve the quality of life for all students at LUCOM.

The student government president, vice president, secretary, treasurer, community liaison and parliamentarian are elected in February of the spring semester from the rising OMS-II, OMS-III or OMS-IV class.

The Student Government Association President is LUCOM representative on the Council of Student Government Presidents (COSGP) of the American Association of Colleges of Osteopathic Medicine (AACOM).

6.2. Class Officers

OMS-I will elect a class president, vice-president, secretary, treasurer, parliamentarian and historian in the Fall semester after the first grades have been posted.

The OMS-II officers will be elected in February of the OMS-I year. The officers elected for the OMS-III class shall serve as the officers for the class during the OMS-III and OMS-IV years and will be elected in February of the OMS-II academic year.

All officers may serve for more than one year and may succeed themselves in office.
6.3. Honor Court

The Honor Court exists to provide accountability for and adherence to the Constitution, bylaws and procedures within the LUCOM SGA. It will also serve as a means to settle social grievances. When a dispute or violation of the Constitution, Code of Conduct, or Student Handbook occurs, the complaint or allegation is brought to the attention of the Court by submitting a grievance form. The grievance form must state the accused, the offense, and the name of the person submitting the form. Matters handled by the Honor Court shall be kept confidential when the case permits.

The Honor Court shall address the grievance in a reasonable amount of time. The resulting sanction will depend on the offense and number of previous offenses and will be decided by the Honor Court. One appeal may be submitted via email to lucomhonorcourt@liberty.edu within five business days of the Honor Court's decision, in which case, the grievance will be reevaluated and could potentially include external opinions. The outcome of an appeal is final.

Grievances outside the jurisdiction of the Honor Court shall be referred to the Student Progress Committee; henceforth, not involving the Honor Court further.

The Court is comprised of one Advocate General who presides over all Honor Court meetings. The Advocate General is appointed by the Office of Student Services. Three Constitutional Justices are elected by the student body and must be at all hearings. Two of the elected Justices will be OMS-II students and one of the elected Justices will be an OMS-I.

6.4. Student Activity Groups

The Office of Student Services must first approve all extracurricular activities as well as recognize all on-campus and off-campus organizations that are identified with LUCOM. All new organizations and certain events, such as those which include risk to participants, events involving health care services, events which could potentially affect the image of the University must be further approved by the Dean. To apply for recognition, and to receive LUCOM funding, organizations must be an affiliate of a nationally recognized osteopathic professional society, have a mission that mirrors Liberty University's, or provide unique service to the professional community or patients in the opinion of the administration of LUCOM.

There must be sufficient interest among the student body to support an organization, which shall be measured in part by requiring those proposing to charter any new organization to obtain the signature of > 20% of the total members of the OMS-I and OMS-II classes (the students on campus) indicating they would be interested in joining or working with the organization if recognized prior to presentation of the request for recognition to the Office of Admissions and Student Services. The constitution and by-laws for the organization must be submitted at the time of the request for recognition. Each club or organization must have a faculty sponsor that is approved by the Office of Admissions and Student Services.
All activities and events that involve students, faculty, or staff of LUCOM must be appropriately scheduled to avoid conflicts with academic requirements and other professional events and must be approved not more than 90 or less than 10 business days in advance through the Office of Admissions and Student Services. Requests for permission for off campus speakers, student meetings or activities, and other individual or group activities on campus should be made on forms provided by the Office of Admissions and Student Services at least 10 days in advance. No meeting announcements may be made until approval is received from the Office of Admissions and Student Services.

A variety of clubs and organizations are approved on campus, a non-inclusive listing of organizations is below.

6.4.A. American College of Osteopathic Family Physicians (ACOFP)

The student chapter of the ACOFP’s objective is to advance the study of family practice in the field of osteopathic medicine and surgery. The organization works toward the advancement of family medicine and the family practitioner's role and scope of practice, the advancement of access to quality, patient centered, cost effective health care for the patient, and the principles of preventive and primary care. The chapter recognizes the fact that the family practitioner is the backbone of modern medical practice. The Virginia Society of the ACOFP is the state division of the national organization and maintains a direct liaison with the LUCOM chapter. Membership in this organization entitles students to benefits such as seminars, educational programs, and financial support to various family practice conferences.

6.4.B. Association of Military Osteopathic Physicians and Surgeons (AMOPS)

The student chapter of this national organization is open to all College of Osteopathic Medicine students in the military or public health service. The chapter serves as liaison between on-campus military students, those on rotations, military alumni, and organizations.

6.4.C. The Council of Osteopathic Student Government Presidents (COSGP)

The organization represents all osteopathic medical students. COSGP is the official national leadership council of the American Association of Colleges of Osteopathic Medicine (AACOM) comprised of the student government/council presidents from each of the osteopathic medical college. The council collectively serves as the liaison between osteopathic medical students and advocating for them.
6.4.D. Christian Medical & Dental Associations (CMDA)

The Christian Medical & Dental Associations is a national organization that began in 1931. The chapter is composed of osteopathic medical students and other health care professionals who are committed to living out their faith through their profession and the example of their lives while providing support for medical students and their families. Benefits of the club include local events as well as regional and national seminars, journals, and newsletters.

6.4.E. Emergency Medicine Interest Group (EMIG)

The Emergency Medicine Interest Group is devoted to developing students' interests in emergency medicine. Since emergencies present themselves to the physician at any and all times, this club seeks to instill those precepts necessary for handling an emergency properly and appropriately. The parent organizations are the American College of Osteopathic Emergency Physicians (ACOEP) and the American College of Emergency Physicians (ACEP).

6.4.F. National Osteopathic Women Physician Association (NOWPA)

The National Osteopathic Women Physician Association is a professional organization composed of female students. The purpose and objective of the organization is to further the study of women's interests and concerns in the field of medicine and to promote osteopathic medicine as a philosophy, a science, and an art.

6.4.G. Psi Sigma Alpha

Psi Sigma Alpha is the national osteopathic medical honor society established to uphold standards of professionalism and community service. Members of high professional and ethical standards in the top 10% of their class are eligible for membership on recommendation of the faculty and vote of the membership.

6.4.H. Sigma Sigma Phi

Sigma Sigma Phi is the original national osteopathic scholastic honor and service society that through its student affiliates, fosters student fellowship, scholarship, service to the College and the profession, and a commitment to the principles of osteopathic medicine.
6.4.I. Student Advocate Association (SAA)

The College of Osteopathic Medicine Chapter of SAA was organized for those who support the students at LUCOM and is chartered by the Advocates to the American Osteopathic Association (AAOA). The primary objective of the SAA is to further the goals of the College and the osteopathic profession and to support the students of LUCOM and those that support them, and to promote fellowship, goodwill, and unity within the school.

6.4.J. American College of Osteopathic Obstetricians and Gynecologists (ACOOG)

The American College of Osteopathic Obstetricians and Gynecologists Club fosters an enhanced interest among students in obstetrics and gynecology and provides information and opportunity for enhanced experiences and knowledge in the discipline.

6.4.K. Student National Medical Association (SNMA)

The Student National Medical Association was created to produce sensitive, qualified physicians to serve minority and indigent communities. SNMA focuses on providing its members with avenues that help foster an obligation to practice medicine within minority communities; instituting programs for the dissemination of health care information and the empowerment of minority communities; and serving the fraternal needs of minority medical students.

6.4.L. Student Osteopathic Internal Medicine Association (SOIMA)

SOIMA is the student affiliate of the American College of Osteopathic Internists, the national certifying board for osteopathic internists. SOIMA's purpose is to educate osteopathic medical students about the opportunities open to osteopathic physicians specializing in internal medicine.

6.4.M. Student Osteopathic Medical Association (SOMA)

This is the official student organization of the American Osteopathic Association and the representative body for Osteopathic Medicine in the U.S.A. The Student Osteopathic Medical Association is one of the largest student groups on campuses of the Colleges of Osteopathic Medicine, representing more than 90 percent of most student bodies. SOMA's national affiliations with similar groups at other schools provide the largest network for information exchange and interaction available today. Membership in SOMA brings many benefits including free subscriptions to Student Doctor and Medical Student and discount prices on diagnostic equipment, the Preceptorship Program, SOMA scholarships, life insurance programs, and more. Locally, SOMA is involved in the school, hospital, and citizen communities through various service projects and socials.
6.4.N. Student Osteopathic Surgical Association (SOSA)

Osteopathic medical students interested in surgery or its subspecialties are welcomed to acquire additional knowledge and skills surrounding the practice of surgical specialties.

6.4.O. American College of Osteopathic Pediatricians

The American College of Osteopathic Pediatricians fosters students' interest in pediatrics. The club is open to those desiring to specialize in pediatrics or those interested in family medicine and other fields in which pediatric patients will be encountered.

6.4.P. The Student American Academy of Osteopathy (SAAO)

The Student American Academy of Osteopathy is a professional organization dedicated to serving osteopathic medical students. It is the COM's extension of the American Academy of Osteopathy, a national association established in 1937. The academy maintains the goal of developing the science and art of total health care, with an emphasis on palpatory diagnosis and the use of osteopathic manipulative medicine. Membership in SAAO allows students to receive the AAO publications and to attend the annual convocation, both at reduced prices.

6.4.Q. Virginia Society of Osteopathic Medicine Association (VOMA)

VOMA student chapter is the student division of the Virginia Osteopathic Association. It is open to all osteopathic students and deals with those medical and political issues unique to the state of Virginia. Benefits include invitations to a variety of conferences and educational programs, as well as financial support to these programs and scholarships.
Chapter 7. Student Honors & Awards

7.1. President’s List

A OMS I or OMS II student whose term average places them in the top three percent of the class for that semester or an OMS-III student whose cumulative average places them in the top three percent of the class for that academic year. A letter of commendation is sent from the President to the student and the honor is recorded on the student’s official transcript.

7.2. Dean's List

An OMS-I or OMS-II student whose term average places them in the top 4 to 10 percent of the class for that semester or an OMS-III student whose cumulative average places them in the top 4 to 10 percent of the class for the academic year. A letter of commendation is sent from the Dean to the student and the honor is recorded on the student's official transcript.

7.3. Graduation with Honors

OMS-IV students with a cumulative average in the upper three percent of their class will receive a diploma inscribed with "highest honors." OMS-IV students in the next seven percent of their class will receive a diploma inscribed with "honors." These students will be recognized with special honor cords to be worn during graduation. The notation will be included on the student’s transcript.

7.4. Student Awards

The following represent a non-inclusive listing of awards and recognitions that may be presented to graduating students. The list is subject to additions and deletions.

7.4.A. Biomedical Scholarship Recognition

Awarded to the student, who in the opinion of the faculty, demonstrated the greatest dedication to scholarly activity, academic achievement, promotion of research and scientific methods, and the advancement of medical knowledge during their career as a student at LUCOM.

7.4.B. Clinical Service Award

Presented to the student judged to be outstanding in clinical service by a vote of the clinical faculty based on evaluations, performance on boards and end of-rotation examinations and comments from preceptors and faculty.
7.4.C. Dean's Award for Academic and Clinical Excellence
Presented for the demonstration of excellence to the student graduating with the highest overall combined scholastic and clinical achievement.

7.4.D. Student Service Leadership Award
Awarded to that member of the graduating class who, by personal and professional conduct, by contributions to the student affairs and to the general program of LUCOM, has been deemed worthy of special citation.

7.4.E. Donna Jones Moritsugu Memorial Award
Presented to the spouse or significant other of a COM student who demonstrated the support needed by a medical student as well as leadership and service to advance the profession typified by the advocates and supporters of the profession.

7.4.F. Ambassador Awards
Presented to students who completed all four stages of the Ambassador Program in recognition of their leadership, representation, and commitment to LUCOM's mission to develop osteopathic professionals who have a commitment to serve one's fellow man.

7.5. General Awards and Recognition Ceremony
LUCOM annually recognizes service and scholarship amongst students, faculty, and staff. Some of the award/recognitions will be to student organizations for achievement in community service, professional service, and professional development. Students may be recognized for servant leadership, tutoring assistance, and more.
Chapter 8. Academic Policies & Procedures

8.1. FERPA – Privacy of Student Records: Family Educational Rights and Privacy Act

Students attending, or who have attended, Liberty University are given certain rights under the Family Educational Rights and Privacy Act of 1974 as amended (20 U.S.C. 1232g) and Rules of the Department of Education (34 C.F.R. Part 99) implementing this Act.

Additional information and University policies regarding the protection of student records are published online at http://www.liberty.edu/ferpa.

8.2. Course and Instructor Evaluations

Each student has a responsibility to their professional development to provide constructive evaluation for the courses and the instructors in the curriculum as directed by the College’s policy on curricular evaluation and improvement. This responsibility will be met by participation in course evaluations that are routinely administered by the College. The College expects each student to sincerely accept this responsibility and obligation in a constructive manner so that optimal feedback can be provided. This input will facilitate student welfare by promoting changes that have the potential to improve the educational effectiveness of the curriculum, as well as assist faculty members by providing them with constructive input to help them improve their teaching strategies.

If a student chooses to submit a course evaluation, forms must be completed within one week of course completion.

8.3. Disabilities and Academic Accommodations

It is the student’s responsibility to initiate the process for disability services 2 months before the start of an academic year. Each request will be considered on an individual basis. The University and the COM has the right to require the student to seek additional evaluation by a provider recognized as having expertise in the evaluation, diagnosis and treatment of the condition.

If the student disagrees with the accommodation proposed, they may appeal the decision to the Dean of LUCOM. The decision of the Dean is final.

Students who fail in the curriculum or who are suspended or dismissed may not claim failure due to disability if they have not previously identified the disability and requested reasonable accommodations in advance of the curricular failure.

LUCOM Student Handbook 2019-20
8.4. Academic Accommodations Process

Accepted applicants and first and second year students must submit their request to the Office of Medical Education, in a sealed envelope or electronically, to LUCOMMedEd@liberty.edu. Students requesting accommodations in their third and fourth years will email LUCOMClinicalEducation@liberty.edu with the request. Any request for accommodations must be submitted in writing with supporting documentation from a physician (M.D. or D.O.) with peer-recognized expertise or certification in the area of claimed disability, and will then be forwarded to the ADA and Technical Standards Committee Chair for committee process. The details for the process of applying for academic accommodations are obtained from the Office of Medical Education.

In all cases, accommodations are not retrospective, and decisions do not affect grades or other actions that have taken place prior to the granting of the accommodation.

Additional details and information are available in the LUCOM Catalog.

8.5. Student Responsibility to Obtain Information

Each student enrolled in the College of Osteopathic Medicine is individually responsible for knowledge of the current academic regulations, the general and specific requirements, and the operational policies, as contained in the College Catalog, Student Handbook, and Clinical Training Manual including any changes to current or new published policy or procedures established during the year, and any other official documents or announcements of the College.

Students are individually responsible for remaining aware of educational obligations, i.e. being aware of their grades, the procedures for remediation, and the times and locations of all examinations or laboratory sessions, the time and location of clinical rotations, et al.

Official College communications may be sent via University/College assigned email accounts. Information will not be sent to private email accounts. All students are required to maintain and access their LUCOM email account regularly for any communications that have been forwarded. The College may send communications via U.S. Mail, registered or certified mail at their discretion. The student is responsible to maintain their correct address with the Office of Admissions and Student Services and the Office of Clinical Education while on clinical rotations. Failure to receive communications from the COM due to failure to keep the COM informed of current address, failure to sign for certified or registered mail, or failure to access and be aware of information distributed via email will not relieve the student of the duties and obligations that are included in such communications.
8.6. Incomplete Course Work

8.6.A. OMS-I and OMS-II

Students who are unable to complete coursework prior to the last day of the course due to unavoidable circumstances or circumstances outside of his/her control such as personal illness/injury or family emergencies must notify the Office of Medical Education to request a temporary course grade of "I" (Incomplete). Students must initiate the request for an "I" grade prior to the last day of the course. Documentation of the exceptional circumstances for an "I" grade may be required. An "I" grade will be changed to the earned grade upon the student's satisfactory completion of the course requirements. During the OMS-I and OMS-II years, the Office of Medical Education will establish the deadline for the completion of the remaining coursework (all "I" grades must be resolved no later than 20 business days after the last day of the course). An "I" grade not resolved within this time frame will be converted to a failing (F) grade. No exceptions are permitted without specific approval from an appropriate dean.

8.6.B. OMS-III and OMS-IV

Students who are unable to complete coursework prior to the last day of the course due to unavoidable circumstances or circumstances outside of his/her control such as personal illness/injury or family emergencies must notify the course director and the Office of Clinical Education to request a temporary course grade of "I" (Incomplete). Students must initiate the request for an incomplete prior to the last day of the course. The authority for the decision to grant an "I" grade completely lies with the appropriate clinical dean. Documentation of the exceptional circumstances for an "I" grade may be required. An "I" grade will be changed to the earned grade upon the satisfactory completion of the course or clinical rotation requirements. During the OMS-III and OMS-IV years, all "I" grades must be resolved no later than 20 business days after the last day of the course. An "I" grade not resolved within this time frame will be converted to a failing (F) grade. No exceptions are permitted without specific approval from an appropriate dean.

All "I" grades resulting from a missing preceptor evaluation of student will be resolved upon the receipt of the evaluation or from a granted Dean Approval of Grade. A preceptor’s inability to return the preceptor evaluation of student within 20 business days after the last day of the course will not result in the “I” grade being converted to a failing grade, but will be resolved upon the receipt of the evaluation or from a granted Dean Approval of Grade.
8.7. Examinations

8.7.A. Examination and PER Protocol

No books, bags, writing implements, purses, brief cases, food, blankets, hoodies, outerwear coats/jackets, hats, or any electronic devices (cell phone, smart watches, Bluetooth devices, etc.) other than the LUCOM issued laptop are permitted in the exam room. Non-electronic, noise protecting headphones may be permitted upon presentation of headphones to a proctor and approval on each exam day. Foam earplugs are permitted.

There will be negative consequences for any student who does not abide by this policy (as a minimum: loss of points from the exam and referral to SPC). There will be no warning, even for first-time offenders. These measures are in place to ensure the integrity of the exams.

Drinks are allowed in the examination room provided they are in a sealed, spill-proof container.

8.7.B. Attendance

A student is expected to be seated and prepared to begin each examination at the scheduled time. In order to not disturb other students, students who are not present or not seated and prepared for the start of the examination will be considered tardy and may not be permitted to take the examination. These students may be required to take a make-up examination, if eligible, or may receive a grade of 0 for that examination if not eligible for the make-up. No student will be permitted to leave the examination before 30 minutes after the examination starting time, unless they have submitted their exam. Likewise, a student will not be permitted to leave the examination room in the final 15 minutes of the examination time, unless they have submitted their exam. Students who are leaving the examination room and have not yet submitted their exam, must sign-out and in. No more than one female and one male student is allowed to be signed out at the same time. This policy applies to all written examinations.

Students who are not on time for Standardized Patients, laboratory, or other skills-based assessments may not be permitted to participate and earn any points.

8.8. Make-up Examinations

A student who does not take an examination at its scheduled time and has either a reasoned absence or is tardy to take an examination, and is deemed eligible, may take a make-up examination.

Make-up examinations may be short answer, essay, verbal, or multiple-choice formats at the director’s discretion and with the approval of the Office of Medical Education (OME). Any and all exceptions will be stated in the course syllabus. The student is responsible to read each course syllabus and to comply with the policies as stated.
Make-up examinations will be given as soon as reasonably possible after the original examination on a day and time determined by the OME. If the student misses the make-up examination, the student will receive a 0 for that examination.

No student will be eligible to take more than one of the scheduled examinations as make-ups in those courses offering more than one examination. Failure to take each course's examinations as scheduled, outside of this policy exception, will result in failure of the course and require the student to take a remediation examination for the course or repeat the course. In those courses with only one examination, missing the examination will result in the student taking a make-up examination as stated above.

Nothing in this policy will prohibit a student from taking a scheduled examination at a remote site if approved by the OME. A student may only be permitted to take an examination prior to the scheduled time due to extreme circumstances and with approval of the OME.

8.9. Reexamination Grade Calculations

In the event a course and the remediation exam are failed or the remediation exam is not taken, the original course grade shall be recorded on the transcript. If the course is subsequently repeated and passed, it will be noted on the transcript that the course was repeated, consistent with the repeat policy.

8.10. Remediation

A student, who earns a grade of less than 70 but greater than 60 in a single course during the academic year will be given the opportunity to remediate that course without Student Progress Committee review or recommendation. The student will be allowed to continue with the curriculum prior to remediation.

Students who fail a course with a grade less than 60 will be required to meet with Student Progress Committee and typically are not eligible for remediation. The Student Progress Committee shall recommend to the Dean whether the student should be allowed to continue with the curriculum and be eligible for remediation or if the student should be required to follow the repeat protocol. Any student who fails two or more courses that are numerically graded during any one academic year will not be given an opportunity to take any remediation examinations. The Student Progress Committee has the authority to recommend dismissal of the student if they feel the prognosis for academic success is poor.

Once grades are finalized that result in a second course failure in a single academic year, a student will be placed immediately on academic suspension and must meet with the LUCOM Office of the Registrar. A student who is appealing an assignment/course grade (Student Handbook 16.3) is expected to continue in coursework and take all examinations pending the
result of the appeal. A student who is not appealing an assignment/classroom grade or whose appeal is denied will be required to appear before the Student Progress Committee and may be given the opportunity to follow the repeat protocol or may be dismissed from the COM. The final determination of any action is made by the Dean.

Notification of remediation opportunity, if granted, or requirement for repeating the academic year will be made by the appropriate academic administrator. Any student failing to receive at least 70 on any remediation examination will receive a failing grade for the course and will be required to appear before the Student Progress Committee. A student may be required to follow the repeat protocol or may be subject to dismissal from LUCOM based on their failure as well as review of the individual’s composite professional and academic performance.

All remediation examinations for first and second-year students are normally scheduled at the end of the academic year during the elective period for first year students and during the board review period for second year students. Extra remediation periods may be established by the Office of the Dean or the Senior Associate Dean for Academic Affairs.

*The LU Graduate School Repeat Policy does not apply to LUCOM students.

8.11. Repeat Policy

LUCOM students are eligible to repeat a course if the original course had been taken at LUCOM. In all cases, regardless of repeat status, a student is required to complete all academic requirements in no more than six years from the date of matriculation. The repeat policy may be applied to courses where the student has earned a grade of 0-100, H, HP, P, F, FN, S, or U, or attempts where the student was awarded a grade of W, WP, WF, or I. This repeat policy does not apply to independent study and similar courses for which course content varies significantly with each offering or is a variable credit course.

When a course is successfully repeated, the repeat policy will automatically be applied, all earned grades will remain visible on the student’s permanent record, and the most recent grade earned will be the only grade to count toward the student’s term and cumulative averages. Any student who is required to repeat a course or rotation and fails that repeated course or clinical rotation is subject to dismissal from the COM.

On the student’s transcript, the original grade is followed by the letter “E” to indicate that the original grade is excluded from the earned hours, term average, and the computation of the cumulative average. The grade for the repeat of the course will be followed by the letter “I,” which will indicate that the grade for the repeat of the course will be included in the earned hours, term average, and the computation of the cumulative average. The grades which have been excluded from the term and cumulative average calculations will not count toward hours or hours earned, but will remain on the student’s record as attempted hours.
This policy is retroactive to include any course taken at Liberty University College of Osteopathic Medicine. Activation of the repeat policy for a prior semester will not affect the academic standing for that semester. Academic standing for a prior semester may be changed only because of a grade reporting error.

The repeat request must be submitted prior to degree conferral for the policy to be activated. Once a student has graduated, the repeat policy may not be used on a course taken prior to graduation to enhance the cumulative average which was recorded at the time of degree conferral.

Students are advised to consult with the Office of Financial Aid to determine what impact repeating coursework could have on their financial aid awards.

8.11.A. Repeat Protocol
The following repeat protocol will apply primarily to OMS I and OMS II students who are permitted to take a leave of absence, repeat a previously failed course or courses, and/or complete some courses within a term that have been attempted but not finished.

In cases where a student on academic probation is permitted the opportunity to repeat a previously failed course or courses, he/she must repeat and complete all courses offered for that academic year. Students who are approved for a voluntary leave of absence and are in good academic standing (without any course failures) must repeat the entire semester from which they withdrew, and may choose to repeat a previous semester. Students under the repeat protocol will be billed as students on an altered degree plan.

The student will be expected to meet with the COM academic counselor(s) biweekly until otherwise advised by the counselor. Failure of any course taken in the repeat year by a student on academic probation will result in immediate dismissal from the COM. Failure of any course taken in the repeat year by a student in good academic standing approved for a voluntary leave of absence will trigger the remediation outlined in the Handbook. Academic probation status will remain on the student’s transcript. Academic standing will be assigned at the end of each semester in accordance with policy. No student shall take longer than three years to complete the OMS-I and OMS-II curriculum, excluding approved time for a voluntary leave of absence in good academic standing.
8.12. Grade Reports, Records, and Transcripts

A report of grades attained by a student in the LUCOM will be available through their ASIST account.

The official records of each student in LUCOM will be secured in the Office of the Registrar. The Family Educational Rights and Privacy Act (PL93-380) will govern the release of information for this record, which contains the transcript from Liberty University, transcripts and transcript evaluations from other educational agencies attended by the student, secondary school transcripts, scholastic aptitude, other standardized test scores, LUCOM admission application, and general correspondence with the student. Letters concerning misconduct or disciplinary actions at Liberty University are kept in the Office of the Dean. The official transcripts will only be released when the student has met all of their financial obligations to Liberty University. Questions regarding a hold on the student account may be addressed to Student Accounts at (434) 592-7201. The transcript and contents of the permanent record may be examined by the student upon emailing the request from your Liberty email account to lucomregistrar@liberty.edu or by coming to the Registrar's Office and filling out a Transcript Request form.

8.12.A. Transcript Notations

Failing grades will be included in calculating the term average for that semester and the cumulative grade point average to that point. If a course is failed and subsequently passed on remediation, a grade of 70 (the highest possible grade on remediation or repeat of a failed course) will be recorded with the notation X on the transcript that the course was passed by remediation. The remediation grade of 70 will be used to calculate all cumulative averages from that point forward.

A designation of 70R may appear on the transcript to indicate that a previously failed course was passed by way of repetition. The use of a 70R applied to grades earned prior to academic year 2019-20.

8.13. Attendance

While students are encouraged to attend all educational sessions, individual faculty members may have specific requirements for attendance during their course as detailed in the syllabus. The attendance policy for each course will be specified in the course syllabus along with make-up requirements and/or penalties. All mandatory Learning Activities (LA’s) for a course will be identified in the syllabus, subject to change with advance notice to the class via email or announcement. The consequences for unexcused absence from a mandatory LA will be delineated in the syllabus (e.g., deduction of 2% from the final course grade). Any student who misses a mandatory learning activity without prior approval, except unavoidable absences (see below) will receive a zero for that session and will not be allowed to make it up.
Students requesting to be excused from a mandatory learning activity or examination must submit the request to the Office of Medical Education (OME) prior to the date of absence, at least 30 days for pre-planned events (i.e., professional meetings, weddings). The excused absence request must be submitted via e-mail to LUCOMAbsence@liberty.edu. A request is not considered approved until the student receives an email confirmation from the OME. Likewise, the OME will communicate if a request has been denied. LUCOM does not grant excused absences retroactively except in dire emergencies, but it does grant reasonable excused absences for requests made in advance. Unavoidable absences (i.e., illness, death of an immediate family member, motor vehicle accidents, etc.) may be excused as determined by the OME.

Supplemental documentation may be required by the OME to substantiate the excused absence requests (e.g. doctor's note, obituary, wedding program, etc.). If the absence falls upon a graded activity, documentation WILL be required.

Students making requests to attend professional meetings should be detailed and specific in their requests. These requests must include the meeting/conference name, location, meeting dates, travel dates, method of travel, what the student hopes to learn/how they will benefit from the meeting, and if they are presenting or otherwise representing LUCOM (e.g. as a leader of a student organization).

Upon the student's return, he/she must contact the course director to discuss any required make-up work. Students are responsible for any assignments and lecture material missed during their absence. Students are not entitled to make up work, missed exams, etc. if they do not have an excused absence. Students with an excused absence who miss a scheduled assessment or graded activity will be entitled to take a make-up of the assessment/activity.

In the event an excused absence is granted for a graded learning activity for which there is no ability to adequately recreate the event, the student will not have an opportunity to earn those points; the total points possible for the course will be reduced to adjust for the missed activity.

Repeated unexcused absences or tardiness may result in administrative action, including referral to an appropriate dean or to the Student Progress Committee for disciplinary action.

A course director may approve, at any time, unannounced quizzes for extra credit. Total value of these extra credit assessments may total up to 5% of the total points for the class. If a student is not present during any extra credit assessment, they are not entitled to make it up. (It remains possible to make 100% for the class based on performance even if a student misses one or more “pop” assessments.) Bonus points are not awarded based solely upon attendance. A student may not earn more than 100% in any course.

Lectures at LUCOM will be digitally recorded to supplement learning and for student review of information provided during the class. They are not a replacement for attendance in class. There is no guarantee that every lecture will be recorded or that the lecture recording will be of a quality that can be utilized for primary learning.
Regularly scheduled learning activities are typically scheduled during standard LUCOM operational hours of 8am-5pm, Monday through Friday. The dates and times provided in the syllabus and the Canvas calendar are subject to change. As a result, students should not make outside commitments that would necessitate absence within these hours, without prior approval from the OME (the standard approach to considering these requests would apply). Students who commit to plans that are not granted an excused absence should be prepared to cancel those plans in order to be present for any change of schedule that requires attendance for mandatory learning activities, or assume an unexcused absence with any corresponding penalty/loss of points. During inclement weather and other intervening circumstances, learning activities may need to be scheduled outside of the typical schedule.

Attendance policies and practices for clinical rotations are found in the Clinical Training Manual.

Any student, who is absent from classes for five consecutive school days without notifying the OME, will be considered to have voluntarily withdrawn from the College.

8.14. Classroom Behavior

The instructor may dismiss any student from class who is involved in disruptive behavior. Disruptive behavior may include but is not limited to loud or disruptive vocal events, reading the paper in class, watching movies online, talking on the phone, etc. Any student dismissed from class for disruptive or unprofessional behavior will be reported to the Office of the Dean for appropriate disciplinary action and may be required to appear before the Honor Court or the Student Progress Committee to show reason why they should not be suspended or dismissed from the COM.

8.15. Faculty and Student Relationship

To avoid potential bias, LUCOM faculty health professionals are required to avoid entering into therapeutic relationships with any student for whom they currently, or will in the future, have a role in academic assessment or promotion. Students should not seek medical care from LUCOM faculty health professionals except in emergencies or comparable extenuating circumstances. If a student has a concern about potential bias due to a current or prior therapeutic relationship with a faculty health professional, he/she should notify the course director and/or the Office of Medical Education at least one week prior to the scheduled assessment.
Chapter 9. Academic Standing

Each student's academic achievement is reviewed each semester, and the Office of the Registrar compiles a transcript. A copy of this transcript is available to the student, the Office of the Dean, the Senior Associate Dean for Medical Education the Student Progress Committee, the Office of Admissions and Student Services, the Office of Administration and Finance, and to other individuals or facilities when authorized by the student or the Dean. The transcript includes:

- All grades earned (including remediated failure)
- Deficiencies (incompletes, failures, etc.)
- Term and cumulative average
- Honors (President's List and Dean's List)
- Probations, suspensions, dismissals, withdrawals, and/or leaves of absence

9.1. Academic Promotion

Promotion is defined as progression from one academic year to the next. A student must satisfactorily complete all course requirements in the preceding academic year in order to progress to the next academic year and be considered making satisfactory academic progress. In addition, students must demonstrate sufficient longitudinal development in each of the seven core competencies including osteopathic philosophy/osteopathic manipulative medicine, medical knowledge, patient care, interpersonal and communication skills, professionalism, practice-based learning and improvement, and systems-based practice. Student performance in these areas will be reviewed in addition to the student's overall grades and taken into consideration when evaluating a student's eligibility for promotion. For OMS-III and OMS-IV students, the COM expects that students will demonstrate progressive improvement in performance over the course of rotations. Those students who receive repeated evaluations indicating performance concerns in a given competency or who fail one or more rotations, may be deemed as not making academic progress. Concerns related to a student's performance in a given competency may be grounds for remediation, delayed academic promotion, and/or up to dismissal from the COM.

First-year courses are considered prerequisites for second-year courses. This means that no second-year courses may be taken until all first-year courses are satisfactorily completed unless directed by either the Student Progress Committee or the Office of the Dean. Similarly, second-year courses are considered to be prerequisites for OMS-III and OMS-IV clinical rotations. As such, no student with an incomplete, withdrawal, or failing grade in any classroom course will be permitted to proceed with clinical rotations. Students may not advance to OMS-IV until such time as all requirements of the curriculum are met and the student has passed COMLEX Level 1. Students may be allowed to participate in clinical rotations normally taken during the OMS-IV year by special permission from the Office of the Dean.

To be eligible for clinical rotations, students must have successfully completed and passed all first-year and second-year courses, including all components of the required preclinical clerkship course and pre-clinical evaluation requirements. They must have met the criteria to be eligible

LUCOM Student Handbook 2019-20
and have taken COMLEX Level 1 examination. All administrative obligations to the College must be up to date, including payment of tuition and fees, demonstration of health insurance, have all required immunizations up to date, or antibody titers documented, be currently negative on PPD testing or have followed current COM guidelines if a positive test is present and completed any clinical site or COM mandated related testing, including background screening and drug testing as required. Documentation of this information must be on file with the College’s Office of Clinical Education prior to participating in any patient contact.

The Student Progress Committee (SPC) shall annually recommend to the Dean all students who are eligible for promotion into the next academic year, as well as those qualified for graduation.

9.2. Academic Deficiencies

In cases of first-year and second-year course deficiencies, the Office of Medical Education shall notify students of their grades and remedial requirements. Students who have satisfactorily remediated deficiencies will then be recommended for promotion to the Student Progress Committee and the Dean.

In cases of clinical rotation deficiencies, the Office of Clinical Education shall notify students of their grades and remedial requirements. Students who have satisfactorily remediated deficiencies will be recommended for promotion to Student Progress Committee and the Dean.

Students still having remaining deficiencies following unsatisfactory efforts at remediation will not be promoted, and may be required to appear before the Student Progress Committee and are subject to dismissal from the COM.

9.3. Good Academic Standing

A student is considered in good academic standing when they have successfully completed all required courses to date with a cumulative grade point average of 70 or better. A student in good standing must have successfully remediated any course failures.

9.4. Academic Probation

A student will be placed on academic probation when he or she has a cumulative grade point average less than a 70, any unremediated course failures, or Student Progress Committee imposed sanction. A student on this status will be prohibited from certain activities and officiating positions.
Chapter 10. Leave of Absence

Any leaves of absence may not exceed one year cumulatively or six months within a single leave during the student's matriculation unless specifically granted as an exception by the Dean of LUCOM. Leaves of absence do not extend the maximum of six years from matriculation to complete all requirements for graduation or face dismissal from the COM. If the student does not meet the requirements established for return within that time frame, they will automatically be considered a voluntary withdrawal. The specific time frame of the leave of absence is dependent on the ability of the student to return to classes within the curricular framework and to complete the required course work in the time and sequence dictated by the faculty and the curriculum. A student may not be allowed to return in the middle of a course or semester, but may be directed to begin after a leave of absence during a specific starting point such as a start of a semester, system, etc. While on a leave of absence, a student is not eligible to make up incomplete class work, remediate any examinations, or take the COMLEX Level 1 or Level 2 CE or PE examinations or Step 1 or Step 2 of the United States Medical Licensing Examination (USMLE) unless specifically granted that ability by the Dean of LUCOM.

Any student who is absent from classes or clinical rotation for five consecutive school days and has not contacted the Office of Admissions and Student Services, the Office of Medical Education, the Office of Clinical Education or the Office of the Dean, will be considered to have voluntarily withdrawn. The student may be required to appear before the Student Progress Committee and is subject to dismissal from the COM. The student will also be withdrawn from any courses currently in progress. A designation of W, WP, or WF for withdrawal will be noted on the student's transcript for each course as indicated by policy.

To be accepted back into the College after any leave of absence, the student must write a letter addressed to the SPC or the Dean, which satisfactorily addresses the circumstances of the prolonged absence that mandated the administrative leave and a written request for reinstatement. The student must also demonstrate to the Dean's satisfaction that a reasonable likelihood exists that the reason for the prolonged absence will not reoccur. The Student Progress Committee will evaluate and make recommendations to the Dean concerning the student’s status.

All decisions made by the Dean concerning a student's administrative or voluntary leave of absence will be final. As a result of any Leave of Absence, a student will no longer be accounted for in the class rank calculations.
10.1. Administrative Leave of Absence

An administrative leave of absence is a mandatory leave of absence imposed by the Dean with or without recommendations of the Student Progress Committee. During the leave, the Office of the Dean and the COM will provide the student the opportunity to rectify, seek rehabilitation or treatment for the problem that precipitated the directed leave. To be accepted back into the program after an administrative leave of absence, the student must be able to demonstrate to the Dean's satisfaction that the pre-established requirements have been met, that they show reasonable likelihood that previous problems have been resolved, will not recur, and that the student is prepared to meet all of the demands and requirement of the curriculum satisfactorily and in the time period directed by the curriculum.

10.2. Voluntary Leave of Absence

A voluntary leave of absence is one that is requested by a student to temporarily withdraw from classes for personal, financial, or medical reasons. Students should call, email or visit the LUCOM Registrar’s Office to request a leave of absence. Students on academic probation requesting a leave of absence must meet with the Student Progress Committee who will review the request and make a recommendation to the Dean. The Dean will then determine whether or not the leave of absence is to be granted. A voluntary leave of absence will not be granted in excess of one year either cumulatively or six months within a single leave during the student's matriculation unless exception is granted by the LUCOM Dean. If approved, and the student is in good academic standing, the student may be allowed to reenter the program at the end of the leave without any need for reapplication, remediation, or reevaluation. However, the student may be required to meet specific requirements established by the Dean or the faculty in order to be allowed to return after the leave of absence.

If a student is granted a leave of absence while current course work is still in progress, they will be withdrawn from those courses. In all such cases an appropriate designation for each course in progress will be entered on the transcript as follows: a W, if no graded course work has been completed; a WP, if graded course work has been completed and is at a passing level; and a WF, if graded course work is not at a passing level. In such cases of withdrawal from a course, students will be required to complete all course requirements when they return from their leave of absence in compliance with repeat protocol.

If the Dean approves a leave of absence and the student is currently not in good standing, is under review for a disciplinary action, or has a disciplinary action imposed on him or her, then the student may not be reinstated to the College without a review by the Student Progress Committee (SPC). Upon completion of its review, the SPC shall make a recommendation to the Dean to reinstate or not reinstate the student. If the student is denied reinstatement, his or her status will be changed to either a withdrawal or a dismissal. If appropriate, students may be reinstated with disciplinary action requirements at the beginning of their readmission.
Students requesting a leave of absence for a medical reason must have a licensed physician outline the reason for the student's request for a medical leave of absence. The physician's note must be sent on department/center/clinic letterhead. Students granted a leave of absence for a medical reason must have a licensed physician certify in writing that their physical and/or mental health is sufficient to permit them to continue in their medical education with a reasonable expectation that they are able to complete the curriculum before they will be allowed to return to the College. The physician providing the certification must either be designated by or accepted by the Dean and the medical release must be sent on department/center/clinic letterhead for the certification to be accepted for reinstatement.

Students granted a leave of absence for financial reasons must, before their return to the University, prove to the financial departments of the University that they have the financial capability to advance in their education.

10.3. Leave of Absence Records

Leave of absence records and the date of each determination shall be placed in the student's permanent record.

10.4. Withdrawal from College

Withdrawal is a voluntary resignation by the student under which they surrender all rights and privileges as a student in the COM. A student fails to attend classes or be present at their assigned clinical rotation site for five (5) consecutive calendar days without written notification to the Dean as to the reason for the absence, as well as their intention to continue studies in the College, shall be considered withdrawn from the College.

To return to school after withdrawal, the student must apply for readmission through the Office of Admissions and Student Services.

Withdrawal in good standing is a designation that is placed on the transcript to indicate to anyone receiving those transcripts that the individual had passed all previous courses and was currently passing the courses that they were enrolled in at the time of the withdrawal.

Withdrawal not in good standing indicates that either the student has unremediated failures in previous courses or the student is currently failing a course they are taking at the time of withdrawal.

These withdrawal designations are intended to serve as notification to any academic institution, including LUCOM if the student should reapply, the status of the student at the time of their withdrawal.

Once a student withdraws from the COM, they will no longer be accounted for in the class rank calculations.
10.5. Withdrawal from a Course

Withdrawal from a course or courses must be distinguished from a withdrawal from the College (see "Withdrawal" section).

A student who has no graded course work or who has passing course work in a course in progress may withdraw from a course at any time before the final examination. Students should call, email or visit the LUCOM Registrar’s Office to request a withdrawal from a course. Students will receive a notation of W on their transcript, if no graded course work has been completed, or WP, if graded work has been taken and completed at a passing level.

A student who has failing course work in a course in progress can only withdraw with grade of ‘W” if less than 50 percent of the course has been completed and if they have received approval from either the Office of the Dean or the Senior Associate Dean for Medical Education. A course will be considered 50 percent completed when half of all of the lectures, labs, or small group sessions have been delivered. In cases where 50 percent has been completed, the student will receive a notation of WF on their transcript to indicate that withdrawal occurred while the student was failing completed course work.

During an academic year, a student will be allowed to withdraw from no more than one course while failing. These guidelines may not apply to students placed on a leave of absence. In such instances, all cases will be individually reviewed (see "Leave of Absence" section).

In all cases of withdrawal, regardless of the reasons, the student must repeat the course in its entirety as assigned by the Office of the Dean and will receive their earned grade. Until the course is repeated, the student may not progress to the next academic year. As a result of any course withdrawal, a student will no longer be accounted for in the class rank calculations.

10.5.A. Requesting Leave of Absence or Withdrawal

A student intending to pursue a leave of absence, course withdrawal, or program withdrawal must request the appropriate form from the LUCOM Office of the Registrar. Provision of this form begins the official leave of absence and withdrawal process.

10.6. Auditing

Students may request to audit classes they previously passed to remain up to date on the content. Auditing will be available only through permission from the Dean. Auditing students will be permitted to attend lectures and have access to the course material, including lecture-capture. The student will not be permitted to participate in class evaluations or assessments. Auditing students will not participate in labs or team activities. OMM and PCM courses are not available to be audited. Auditing students may be charged for their attendance at the same rate as students on altered degree plans unless otherwise specified by the Dean. Audited courses will appear on the student’s transcript and be notated accordingly with a grade of “AU”.

LUCom Student Handbook 2019-20
Chapter 11. General Policies & Procedures

11.1. Addresses

It is the responsibility of the student to keep the College, through the Office of Admissions and Student Services, up to date on their mailing address, phone number, and emergency contact information. OMS-III and OMS-IV students must also notify the Office of Clinical Education of any changes in mailing address, phone number, or emergency contact information in addition to the Office of Admissions and Student Services. It is required that the appropriate office be notified of any changes within 30 days to ensure that the student is available for information and emergencies. It is the responsibility of the student to inform the Office of Admissions and Student Services of the address to be used during their vacation periods. Non-compliance may result in disciplinary action.

11.2. Incident/Exposure Policy

11.2.A. Universal Precautions

Universal precautions is a concept which is common to all clinical settings. It assumes that any body fluids that you may be exposed to are infectious with entities such as HIV, Hepatitis, or other pathogens. It assumes that possible exposures could transmit the host’s infection to the health care worker or student. By assuming that all patients have dangerous infections and all body fluids may be able to transmit dangerous infections, we take universal precautions to prevent such transmissions.

Universal precautions shall be practiced in the care of all patients. Gloves should be worn:

- When touching blood, other body fluids, mucous membranes, or non-intact skin of all patients
- When handling items or surfaces soiled with blood or body fluids to which universal precautions apply
- For performing phlebotomy.
- In situations where the health care worker judges that hand contamination with blood or body fluids or mucous membranes may occur.
- For performing finger and/or heel sticks on infants and children.

Masks and protective eyewear or face shields should be worn by health care workers to prevent exposure of mucous membranes of the mouth, nose, and eyes during procedures that are likely to generate droplets of blood or body fluids requiring universal precautions. Gowns or aprons should be worn during procedures that are likely to generate splashes of blood or body fluids requiring universal precautions.

All health care workers should take precautions to prevent injuries caused by needles, scalpels, and other sharp instruments or devices during procedures; when cleaning used instruments; during disposal of used needles; and when handling sharp instruments after procedures. To prevent needle stick injuries, needles should not be recapped by hand, purposely bent or broken.
by hand, removed from disposable syringes, or otherwise manipulated by hand. After they are used, disposable syringes and needles, scalpel blades, and other sharp items should be placed in puncture-resistant containers for disposal. The puncture-resistant containers should be located as close as practical to the use area. All reusable needles should be placed in a puncture-resistant container for transport to the reprocessing area.

11.2.B. Exposure to Hazardous Body Fluids and Accidental Needle Stick

Occupational exposure to blood borne pathogens may occur during preclinical labs as well as patient care activities. It is critical that LUCOM students understand the actions they need to take to protect themselves if such an exposure happens. To assist students in this process, LUCOM has developed the Incident/Exposure Report Form located on the LUCOM website under Academic Documents. Any student who sustains a needle stick or other potential exposure to blood or body fluids should immediately wash the affected area with soap and water. If the exposure involves the eyes or mucous membranes, they should be immediately flushed with copious amounts of water. Following irrigation of the affected area, the exposure should be immediately reported to the appropriate clinical/faculty supervisor. As supervisory faculty will vary based on the setting, students should refer to the Incident/Exposure Report Form which will provide additional guidance. Finally, all students involved in an occupational exposure must seek medical attention to ensure that appropriate medical care relating to the exposure is provided. This medical follow up is time sensitive and must occur within 2 hours if the exposure involves blood or other body fluids. The LUCOM Incident/Exposure Report Form provides students step-by-step guidance through these processes, including the acceptable medical care follow up for an incident or exposure. Please note that students must complete the Incident/Exposure Report Form and return it to the Office of Clinical Rotations within one business day of the exposure or incident.

As discussed above and on the LUCOM Incident/Exposure Report Form, timely medical follow up is essential. When reviewing the acceptable medical follow up options on the Incident/Exposure Report Form, it is important for all students to recognize that they are not employees of any hospital, clinic or practice where they are rotating and thus they are not covered under workman’s compensation or the policies of the institution if they suffer an accident or injury. All LUCOM students are required to carry medical insurance to cover the expense of such an unlikely event and provide coverage for the laboratory testing and prophylactic medications that may be required. Students are responsible for all costs whether covered by their personal insurance or not. This includes copayments.

Medical care evaluation after an incident or exposure must occur in a professional setting as described in the Incident/Exposure Report Form and involves the establishment of a formal doctor-patient relationship and generation of a medical record that can be utilized by the student and their physician in any subsequent or follow up care that is required. This is protected health information and should not be submitted or reported to LUCOM.
Students are reminded that they are individually responsible for any charges that may occur as a result of evaluation and treatment. Some institutions will provide initial screening and treatment for students that are exposed on their campuses. In addition, institutional policy at hospitals and medical clinics may provide for testing of source patient blood to include rapid HIV and Hepatitis C testing. However, regardless of whether an institution provides this source testing, students are still required to obtain medical care consultation within the time frame described in the Incident/Exposure Report Form. Students are reminded that HIV drug prophylaxis, when indicated, is time sensitive in a high-risk exposure.

11.2.C. Other Health Care Related Exposures or Injuries

In the course of clinical education, students are sometimes exposed to infectious diseases that require evaluation and/or treatment. An example of this is Pertussis, but there are others. If the exposure happens to an employee of the institution, Employee Health handles these situations. As students are not employees but visiting students, the local employee health office will not be able to assist in most cases. If a student becomes aware that they have been exposed to an infectious disease requiring further evaluation or treatment, they are required to fill out the Incident/Exposure Report Form. In so doing, they are required to immediately inform their clinical/faculty supervisor. They must contact the Office of Clinical Rotations and submit the Incident/Exposure Report Form within one business day. They are also required to seek timely medical care. If it is an emergency, they must be seen at the emergency department. If it is not an emergency, the student may be seen at the LU Student Health Clinic, by their personal physician, an urgent care center, or a walk in clinic within 24 hours of becoming aware of the potential exposure.

In the course of clinical education, students occasionally are injured. This may be the result of an accident or of workplace violence. If a student is injured, they are required to fill out the Incident/Exposure Report Form. In so doing, they are required to immediately inform their clinical/faculty supervisor. They must contact the Office of Clinical Rotations and submit the Incident/Exposure Report Form within one business day. They are also required to seek timely medical care. If it is an emergency, they must be seen at the emergency department. If it is not an emergency, the student may be seen by their personal physician, an urgent care center, or a walk in clinic within 24 hours. If the injury is the result of workplace violence, the student is strongly encouraged to be seen in the emergency department. The student is also to follow the direction of officials from the hosting institution.

Students are reminded that they are individually responsible for any charges that may occur as a result of evaluation and treatment.
11.3. Dress Code

Students must maintain a professional appearance appropriate for students attending medical school. Therefore, attire should be clean, neat, and convey a professional appearance whenever the student is on the main campus or at any off-campus educational site.

The dress code is to be maintained at all times on the campus, including but not limited to, the administration building, classrooms, library, standardized patient and small group facilities, laboratories, whenever school is in session, generally from 8:00 a.m. until 6:00 p.m. Monday through Friday. The dress code also applies to all areas involved in providing patient care including clinical rotations when the student is on duty. Those failing to comply may be dismissed from the classroom and/or the campus resulting in him/her being reported to the Office of Admissions and Student Services for appropriate disciplinary actions.

For all students, the University issued identification badge must be worn at all times in addition to the acceptable professional or business casual attire noted below:

11.3.A. For male students:

- Slacks or pants
- Shirt with collar
- Sweater or sweat-shirts over a collared shirt
- Suit or sports coat
- Business, dress, or athletic shoes

11.3.B. For female students:

- Slacks, pants, dress, or skirt
- Professionally appropriate blouse/sweater
- Sweater or sweat-shirt over a collared shirt
- Scarf
- Athletic, dress or business shoes

11.3.C. Dress Code Violations:

Students may not wear the following unless specified in the syllabus or required for laboratory experiences:

- Shorts or cutoffs
- Miniskirts
- Jeans or denim of any type (except on designated “Jean Day”)
- See-through clothing or halter tops
- Sandals, flip-flops, crocs, or any open-toed shoe
- T-shirts of any type may not be worn as the outer shirt
• Jogging, yoga, or other exercise clothing
• Inappropriately matched garments
• Garments with any offensive, suggestive, obscene, or unprofessional statements or gestures
• Hats, caps, or head coverings, other than religious cover, may not be worn in the classroom, laboratories, library, or other educational settings.

Scrubs may not be worn outside of the OMM, Anatomy or Clinical Medicine Laboratory.

Scrubs may not be worn on clinical rotations except on Surgery, OB, or ER unless directed by faculty or DSME.

Dress code violations will be reported by faculty and staff to the Office of Admissions and Student Services. The violations will be documented as follows.

Dress code violations reported from a student doctor about another student doctor will be reported to the Honor Court. Honor Court will notify Student Services of the violation so that it can be documented and addressed as follows:

• First violation: address in meeting with Student Services staff member
• Second violation: address with Assistant Dean of Admissions and Student Services
• Third violation: student is reported to Student Progress Committee

11.4. Acceptable use of Computing Resources

This policy provides guidelines for the appropriate and inappropriate use of the computing resources of LUCOM. It applies to all users of the College's computing resources including students, faculty, staff, alumni, and guests of the College. Computing resources include all computers, related equipment, software, data, and local area networks for which the College is responsible as well as networks throughout the world to which the University provides computer access.

The computing resources of LUCOM are intended to be used for its programs of instruction and research and to conduct the legitimate business of the College. All users must have proper authorization for the use of the College's computing resources. Users are responsible for seeing that these computing resources are used in an effective, ethical, and legal manner. Users must apply standards of normal academic and professional ethics and considerate conduct to their use of the University/College's computing resources. Users must be aware of the legal and moral responsibility for ethical conduct in the use of computing resources. Users have a responsibility not to abuse the network and resources, and to respect the privacy, copyrights, and intellectual property rights of others.

In addition to the policy contained herein, usage must be in accordance with applicable University Policies and applicable State and Federal laws.
Policy violations generally fall into five categories that involve the use of computing resources:

1. for purposes other than the University/College's programs of instruction and research and the legitimate business of the University/College

2. to harass, threaten or otherwise cause harm to specific individuals or classes of individuals

3. to impede, interfere with, impair, or otherwise cause harm to the activities of others

4. to download, post or install to University computers, or transport across University networks, material that is illegal, proprietary, in violation of license agreements, in violation of copyrights, in violation of University contracts, or otherwise damaging to the University

5. to recklessly or maliciously interfere with or damage computer or network resources or computer data, files, or other information

Examples of policy violations include, but are not limited to:

- using computer resources for personal reasons
- sending Email on matters not concerning the legitimate business of the University/College
- sending an individual or group repeated and unwanted (harassing) Email or using Email to threaten someone
- accessing, or attempting to access, another individual's data or information without proper authorization (e.g. using another’s computing account and password to look at their personal information)
- propagating electronic chain mail, pyramid schemes, or sending forged or falsified Email
- obtaining, possessing, using, or attempting to use someone else's password regardless of how the password was obtained
- copying a graphical image from a Website without permission
- posting a University site-licensed program to a public bulletin board
- using illegally obtained licensed data/software, or using licensed data/software in violation of their licenses or purchase agreements
- releasing a virus, worm, or other program that damages or otherwise harms a system or network preventing others from accessing services
- attempting to tamper with or obstruct the operation of LU's computer systems or networks
- using or attempting to use LU's computer systems or networks as a means for the unauthorized access to computer systems or networks outside the University
- improper peer-to-peer file sharing
- viewing, distributing, downloading, posting or transporting child or any pornography via the Web, including sexually explicit material for personal use that is not required for educational purposes
- using University resources for unauthorized purposes (e.g. using personal computers connected to the campus network to set up web servers for illegal, commercial, or profit-making purposes)
- violating Federal copyright laws or the LU copyright policy
Inappropriate conduct and violations of this policy will be addressed by the appropriate procedures and agents (e.g., the Office of the Dean, the Office of the Vice President and Provost for Academic Affairs, or the Office of Human Resources) depending on the individual’s affiliation to the University. In cases where a user violates any of the terms of this policy, the University/College may, in addition to other remedies, temporarily or permanently deny access to any and all LU computing resources, and appropriate disciplinary actions may be taken, up to and including dismissal.

11.5. Access to Computer Account

LU requires students to hold and maintain one official University computer account that is used to access major computing resources, including electronic mail. These University-assigned computer accounts correspond directly to LU email addresses (see below). All official electronic mail communications directed to LUCOM students will be sent exclusively to LU-assigned computer accounts to ensure timely and accurate delivery information. LUCOM students may forward their LU generated email to external locations, but do so at their own risk.

Relationship between LU computer account and email address:

If your assigned username is janedoe your email address will be janedoe@liberty.edu

Note: A computer account may also be referred to as an email name or a username.

11.6. Web Pages—Use of Material

You should assume that materials you find on the Web are copyrighted unless a disclaimer or waiver is expressly stated. You may not place any materials owned by others (i.e., copyrighted works) on your Web pages(s) without the expressed permission of the copyright owner (examples: graphic images from other Web pages, articles, video, audio, photographs, software, or images scanned from published works). You may include short quotations of text provided you identify in an obvious way (e.g., in a footnote) the author and the work from which the quotation is taken. If you want to include something from another Web page in one of your Web pages, then link to it rather than copy it. The occurrence of plagiarism on your Web page is subject to the same sanctions as apply to plagiarism in any other media.

Images in the LU graphics repository may be used on Web pages without permission. Clip art images provided with licensed software may be used if permitted in the license agreement for such software. You may not place any pictures or videos of people on a Web page without the expressed permission of the people in the picture or video. Every person has the right to privacy, which includes the right to restrict the use of their own image. In addition, the picture or video may be protected by copyright.
If you have received formal permission to use material owned by another, place the following suggested notice on the page that contains the copied material: Copyright 2005 by (name of the copyright owner). Used with permission.

Although a copyright notice is not required to assert a student's rights to their own original material, a student may want to include a minimal notice of copyright in a Web page footer when appropriate. When used, the suggested copyright notice should appear as follows:

Web pages: Copyright 2005 (your name). All rights reserved.

Organization Web pages (examples): Copyright 2005 Cornell Law Review. All Rights Reserved. Copyright 2005 The Graduate School of Computer and Information Sciences. All Rights Reserved.

11.7. Social Media

Students must be thoughtful about how they present themselves in online networks. By virtue of self-identifying in such a network, students must be aware of how they are viewed by their peers, the student body, the faculty, future residency directors, future employers, and others who would be aware of their connection to the College.

LUCOM reserves the right to consider how a student presents themselves in online networks as a part of deciding whether or not that person is of appropriate ethical behavior for the institution or whether or not the person represents a threat to any student, staff member, faculty member, or administration member.

LUCOM offers the support of the institution in defining appropriate social media as a tool in communication goals, providing social computing guidelines for LUCOM students engaging in online discourse and identifying themselves with LUCOM.

The remainder of the policy below is not intended for internet activities that do not associate or identify a student with LUCOM, do not use LUCOM email addresses, do not discuss an affiliation of any type with LUCOM (on any location), and are purely about personal matters.

Definitions:

Content owners – are those assigned the responsibility of maintaining, monitoring, and moderating a LUCOM social media platform.

Official communication – refers to those done in LUCOM’s name or any department or organization within or associated with the LUCOM name.

Content Presentations – Website and Publications office representing LUCOM.
Moderator – Assigned by Content Owner or the Dean for moderating comments and postings by internal and external users, including deleting comments and posting that do not meet the criteria set forth in this policy.

Social Media Platforms – Technology tools and online spaces for integrating and sharing user-generated content in order to engage constituencies in conversations and allow them to participate in content and community creation. Examples are Facebook, Twitter, LinkedIn, and YouTube.

Official Institutional Web Communications: Because of the emerging nature of social media platforms these guidelines do not attempt to name every current and emerging platform. Rather, they apply to those cited and any other online platform available and emerging including social networking sites and sites with user-generated content. Examples include but are not limited to the following:

- YouTube
- Facebook
- iTunes
- LinkedIn
- Twitter
- Blogs
- Social media content that is hosted internally and protected

Institutional representation via online social media platforms can only be initiated and authorized through the efforts of LUCOM Marketing. There can be no official LUCOM sites or pages on the Web, YouTube, Facebook, Twitter, etc. unless they are developed by or authorized by LUCOM.

Any sites or pages existing without prior authorization as required above will be subject to review when discovered and may be amended or removed.

LUCOM official sites on social media platforms can have pages or content areas that are assigned to departments, divisions, or programs at LUCOM; however, these should be reviewed and branded by LUCOM.

Content Owners, as named by their departments or division’s leadership, are responsible for the content used and maintaining compliance with LUCOM Policies, HIPAA (Health Insurance Portability and Accountability Act), and policies related to Conflict of Interest, Privacy, Security, Safety, and Human Resources, and FERPA (Federal Education Records Protection Act).

Content Owners are responsible for:

- seeking the Administrative Officer for their Division and the Director’s approval prior to development and posting;
- developing, and continuous monitoring of web content;
- assuring content is current, accurate, and consistent with the catalog and handbook.
• constantly monitoring postings and comments to social media sites, and for deleting postings that do not adhere to our policies.
• gaining the expressed consent of all involved parties for the right to distribution or publication of recordings, photos, images, video, text, slideshow presentations, artwork, and advertisements whether those rights are purchased or obtained without compensation.

Content Owners engage in communications that are acceptable in the LUCOM workplace and are responsible to respect copyrights and disclosures. Proprietary financial, intellectual property, patient care, or similar sensitive or private content may not be revealed.

Content Owners and/or Moderators sign a Content Owner/Moderator Terms and Agreement Form. This form is renewable annually and will be monitored by the Director.

11.7.A. Guidelines for Online Professional or Personal Activity

Online social media allow LUCOM faculty, staff, and students to engage in professional and personal conversations. These guidelines apply to students who identify themselves with LUCOM and/or use their LUCOM email address in social media platforms such as professional society blogs, LinkedIn, Facebook, etc. for deliberate professional engagement or casual conversation. These guidelines apply to private and password protected social media platforms as well as to open social platforms.

All professional and personal social media activity by students who use LUCOM or identify themselves with LUCOM must:

• Follow the LUCOM policies on professionalism and ethics standards
• Comply with all HIPAA, Conflict of Interest Policy, and Privacy policies of the College
• Not reveal proprietary financial information, violate intellectual property rights, or discuss patient care or similar sensitive or private content.
• When students identify themselves as a member of the LUCOM student body in any online forum and/or use their LUCOM email address, students must clarify that they are not speaking for LUCOM, what they stated is representative of their individual personal views and opinions and not necessarily the views and opinions of LUCOM. This statement however does not wave the responsibilities outlined above.

Offers to pay students for participating in online forums in their LUCOM role, offers advertising for pay and/or for endorsement, could constitute conflict of interest and are prohibited per LUCOM policies and guidelines.

All communications or requests from public or professional media or press to members of the student body requesting comments from LUCOM about policy, procedures, news stories, et al. are to be directed to the LUCOM Office of Marketing.

Violation of any of the above policies may result in disciplinary action, up to and including dismissal from the COM.
This social media policy is extended to personal activity and/or professional activity where the student identifies him/herself as a LUCOM student either through a bio, comments, or by using their LUCOM email address. The following disclaimer should be added whenever you identify yourself as part of LUCOM while not officially acting on behalf of the College or University: The views and opinions expressed here are personal and not necessarily those of Liberty University or LUCOM, and in addition may not be used for advertising or product endorsement purposes.
Chapter 12. Clinical Rotations Policies & Procedures

This code of conduct is designed to guide ethical behavior in hospitals, community clinics, research facilities, and various rotation sites included as clinical practice experiences.

This code of conduct represents general standards of behavior and illustrates ideals for which to strive; however, specific infractions reported by students, preceptors, Office of Clinical Education, or faculty to the Chair of the Student Progress Committee may be investigated by this Committee with respect to both the magnitude and chronicity of incidents considered. These general standards may not afford guidance in every conceivable situation or anticipate every possible infraction.

While participating in Clinical Rotations, students enrolled at LUCOM will:

- Demonstrate respect and concern for the welfare of patients
- Treat patients and their families with respect and dignity both in their presence and in discussions with others
- Recognize when one’s ability to function effectively is compromised and ask for relief or help
- Recognize the limits of student involvement in the medical care of a patient and seek supervision or advice before acting when necessary
- Refrain from the use alcohol, tobacco, or other drug in any manner that could compromise themselves or patient care
- Respect the rights of others
- Interact with members of the health care team in a considerate manner and with a spirit of cooperation
- Act with an egalitarian spirit toward all persons encountered in a professional capacity regardless of race, age, religion, gender, sex, ethnicity, or socioeconomic status
- Respect the patient’s modesty and privacy
- Respect the rights, opinions, and input of the patient and family in health care decision-making
- Be trustworthy
- Be truthful in communication to others
- Maintain confidentiality of patient information.
- Admit errors and not knowingly mislead others to promote one’s self at the expense of the patient
- Participate responsibly in patient care or research to the best of their ability and with the appropriate supervision
- Undertake clinical duties and persevere until they are complete
- Notify the responsible person if something interferes with their ability to perform clinical tasks effectively.
- Report on time and be in attendance at clinical site until released by preceptor or supervisor. Absence without notice can be construed as patient abandonment.
- Have professional demeanor
• Maintain a neat and clean appearance, and dress in attire that is consistent with LUCOM dress code and accepted as professional to the population served.
• Be thoughtful and professional when interacting with patients and families.
• Strive to maintain composure during times of fatigue, professional stress, or personal problems.
• Avoid offensive language, gestures, or inappropriate remarks.

12.1. Treatment of Students

Students should be treated with respect as health care professionals, to receive quality education and input from the COM, its faculty and preceptors, to have their rights and obligations as detailed in student and faculty manuals and College catalog respected.

Students should be challenged to learn, but should not be belittled, humiliated, verbally or physically abused. Students should not be sexually harassed, either verbally or physically. Students should not be discriminated against on any basis including age, gender, race, religion, ethnicity, and national origin.

Students should be a participant in patient care decisions whenever possible.

Students should have their health care related education take priority over routine menial tasks.

If a preceptor feels a student lacks adequate knowledge or skills, the preceptor has the responsibility to inform and instruct the student so they can improve their performance. The instructor should provide timely, fair, and accurate evaluations and completion of the student's evaluation and curriculum requirements.

If a student feels that a preceptor has committed infractions against the above standards, they have the responsibility of informing that preceptor, whether by direct contact or by way of an honest preceptor evaluation at the end of a rotation, of such feelings so that the preceptor can improve their performance. If they do not feel that the issues are addressed appropriately, they are to notify the Office of Clinical Rotations.

12.1.A. Retaliation and False Claims

Retaliation against a person who reports, complains of, or provides information in a mistreatment investigation or proceeding is prohibited. Alleged retaliation will be subject to investigation and may result in disciplinary action up to and including termination or expulsion.

Any person who knowingly makes false allegations of mistreatment, or who knowingly provides false information in a mistreatment investigation or proceeding, will be subject to disciplinary action and, in the case of students, will be considered a violation of the Honor Code. Any complaints anonymously reported will not be investigated.
12.2. Medical Student Performance Evaluation (Dean’s Letter)

The Medical Student Performance Evaluation (MSPE) is a formal letter of objective evaluation issued by the Dean and serves as an evaluation tool in the application process for post-doctorate training programs. This evaluation summarizes the levels of accomplishment a student has achieved during medical school. Specifically, the MSPE provides a succinct chronology of a student’s entry and progress through medical school, which includes the preclinical and clinical rotation records, noteworthy characteristics, commentary on the student’s professional performance while in medical school, and the student’s summary of academic performance. The MSPE is generally available for students by October of the OMS-IV year. Since the MSPE is a part of the student record, students may be permitted to review their MSPE prior to it being uploaded to ERAS. Students can only view the MSPE in the Office of the Registrar. The College of Osteopathic Medicine provides the document to ERAS and up to 10 other institutions free of charge. Thereafter it will cost $5 for each request.

12.3. Electronic Residency Application Service (ERAS)

The Association of American Medical Colleges developed ERAS to transmit residency applications, letters of recommendation, the MSPE, transcripts, and other supporting credentials from applicants and medical schools to residency program directors.

The Office of Clinical Rotations will provide students with support and instructions for accessing ERAS.

12.4. COMLEX Board Exams

LUCOM and the National Board of Osteopathic Medical Examiners (NBOME) requires that a student be in good academic standing at LUCOM to take the COMLEX Level 1, Level 2 CE and 2 PE. All students are required to pass COMLEX Level 1 and both components of COMLEX Level 2 examinations (CE and PE) of the NBOME to graduate from the COM. A student may take the COMLEX Level 1 and Level 2 examinations of the NBOME any time the examination is offered after a student becomes eligible.

To be eligible to sit for COMLEX Level 1, students must first pass all OMS-I and OMS-II courses. In addition, a predictive model (PM) that utilizes COMSAE score and performance on LUCOM exams to predict COMLEX readiness has been developed by LUCOM. The PM is utilized to release students to take COMLEX Level 1.

All OMS-II LUCOM students will take COMSAE at LUCOM at a time designated by the COM. The PM is then applied to determine whether a student is released to take COMLEX Level 1. All OMS-II students, including those who are remediating an OMS-II course, must be released to sit for COMLEX Level 1 based on the PM. Students who are released to take COMLEX Level 1 must

LUCOM Student Handbook 2019-20
sit for the exam prior to the first day of OMS-III orientation. Students will not be allowed to begin clinical rotations until they have sat for the COMLEX Level 1 examination.

OMS-II students that are not released to take COMLEX Level 1, based on the PM, will retake COMSAE at their own expense. The repeat COMSAE will be administered at LUCOM. The date of the COMSAE retake will be assigned by the Office of Medical Education. After retaking COMSAE, students still not released to take COMLEX Level 1 will be required to complete a board prep immersion course at their own expense. Students cannot begin clinical rotations prior to sitting for COMLEX Level 1. Although the start of rotations is delayed, students are required to participate in their core site's orientation activities at the scheduled time.

Any student who fails COMLEX Level 1 will be allowed to finish his or her current clinical rotation. After this rotation, the student will be placed on academic suspension. While on academic suspension, students must take an approved immersion course to prepare to retake COMLEX Level 1. Students will be responsible for all costs associated with the immersion course. The student must complete the course of study and achieve a passing COMLEX Level 1 score to be removed from suspension. A second COMLEX Level 1 failure will result in dismissal from LUCOM for failure to progress. Students who are academically suspended for 6 months are subject to dismissal from the COM for failure to make adequate academic progress. The student's date of graduation, ability to Match, and opportunity to be included in class rank may be altered by the above actions and such alteration may impact the student's eligibility for graduate medical education training.

A student will be eligible to take COMLEX Level 2-CE and 2-PE examinations after successfully completing the OMS-III curriculum. In addition, effective beginning January 1, 2020, for students taking the COMLEX Level 2-CE exam for the first time, a predictive model (PM) that utilizes factors such as, but not limited to, COMAT scores and COMLEX scores, to predict COMLEX Level 2-CE readiness has been developed by LUCOM. The PM is utilized to release students to take COMLEX Level 2-CE. OMS-III students that are not released to take COMLEX Level 2-CE, based on the PM, will be required to complete an assigned remedial program prior to sitting for COMLEX Level 2-CE. Upon successful completion of the program, the students will be released to sit for COMLEX Level 2-CE. The PM may not be applicable to students on alternative degree completion plans; these students will be released to sit for COMLEX Level 2-CE on a case-to-case basis by the Office of Clinical Education.

The Dean must approve a student to take COMLEX Level 2-CE. Students must sit for COMLEX Level 2-CE before beginning OMS-IV. Students may be allowed to participate in rotations normally taken during the OMS-IV year prior to sitting for COMLEX Level 2-CE by special permission from the Office of the Dean.

Students who fail COMLEX Level 2-CE on the first attempt will be allowed to continue with rotations while studying and sitting for their next exam attempt. They will be given up to three months to prepare and retake the examination. Students who have not retaken the exam three months after the date of their returned failing score will not be allowed to continue with future rotations until the exam is taken. Students in this case are not on suspension, but may be on an
altered degree completion plan. The student’s date of graduation may be altered by a COMLEX failure and such alteration may impact the student’s eligibility for graduate medical education training. Students who fail COMLEX Level 2-CE a second time will be academically suspended and required to complete an immersion course in preparation for taking the boards a third time. The student must complete the course of study and submit a passing COMLEX Level 2-CE score to be removed from suspension. The student’s date of graduation will be altered by the above actions and such alteration will impact the student’s eligibility for graduate medical education training. Students who remain on academic suspension for more than 6 months are subject to dismissal from the COM for failure to make adequate academic progress.

In addition, effective beginning January 1, 2020, for students taking the COMLEX Level 2-PE exam for the first time, a predictive model (PM) that utilizes factors such as, but not limited to, preceptor evaluations, COMLEX scores, and OSCE scores, to predict COMLEX Level 2-PE readiness has been developed by LUCOM. The PM is utilized to release students to take COMLEX Level 2-PE. Students that are not released to take COMLEX Level 2-PE, based on the PM, will be required to complete an assigned remedial program prior to sitting for COMLEX Level 2-PE. Upon successful completion of the program, the students will be released to sit for COMLEX Level 2-PE. The PM may not be applicable to students on alternative degree completion plans; these students will be released to sit for COMLEX Level 2-PE on a case-to-case basis by the Office of Clinical Education.

COMLEX Level 2-PE must be taken on or before December 31 of the OMS-IV year at LUCOM. If on an alternative degree completion plan, timing of the COMLEX Level 2-PE examination will be assigned by the Office of Clinical Education for the student but should occur no later than five months before expected graduation.

Any student failing any segment of the COMLEX examination may be directed by the Student Progress Committee or College administration to complete a remedial education program on or off campus before being allowed to attempt the examination additional times. Any student who fails any segment of the examination three times must appear before the SPC and will be subject to dismissal from the College.

All students must complete all the requirements for graduation, including the passing of the COMLEX Level 1, COMLEX Level 2-CE and COMLEX Level 2-PE examinations within six years of their initial matriculation into the COM, inclusive of any leaves of absence, or they will be dismissed from the COM.

Students may not be absent from scheduled rotations or alter the established clinical training schedule for board study during their OMS-III or OMS-IV years outside of any time designated for board review by the COM administration, policy or procedures without the written permission from the Office of Clinical Education or the College administration. The student must notify the Office of Clinical Education, their preceptor and DSME of their COMLEX or USMLE testing dates for any portion of the examinations one month in advance of the date of their examination. The student may take as an excused absence the day prior to the exam and the date of the exam when
approved by the Office of Clinical Education and the DSME of the clinical site at which the student is assigned.

A student independently wishing to take additional time for Board preparation should make a written request to the Office of Clinical Education for the third and fourth year rotations. If the board prep program coach/tutor advises a student to delay taking COMLEX Level 1 beyond the start of block 2, the student must submit a request to the Office of Clinical Education via email for an additional 1-block delay with accompanying supporting documentation from the board prep program coach/tutor. Action on the request will be taken by the appropriate dean. Appeal of the action, if the student disagrees, will be to the LUCOM Office of the Dean. Additional delays may be granted on a case-by-case basis as all delays may have impacts to the student’s degree completion plan and eligibility for graduate medical education training.

12.4.A. Procedure for failure of COMLEX Level 2 PE

Completion of COMLEX Level 2 PE is required for conferral of the D.O. degree.

- The student immediately notifies the Assistant Dean of Clinical Education: OMS IV to schedule an appointment, for either an in-person visit, or telephone conference. The following will be discussed:
  - The reason for the failure.
  - The study materials and methods used in preparation for the exam.
  - A recommended plan of action.
- If currently on rotation, the student may remain on rotation.
- It is the responsibility of the student to schedule a re-examination of the COMLEX Level 2 PE and notify the office of the Assistant Dean: OMS IV of the date and time posted.
  - LUCOM strongly recommends that the student schedule their examination prior to the end of January.
    - This will potentially allow the student to continue in the match process and to graduate on time.
    - The student is responsible for all fees, transportation and lodging associated with the examination.
- The student is highly encouraged to take a review course prior to any subsequent attempt at the examination.
  - The review course should encompass the biomechanical-biomedical as well as the humanistic portion of the examination including but not limited to:
    - Time management
    - History taking
    - SOAP notes, writing and organization
    - Differential diagnoses
    - Remediation of physical examination skills
    - OMM review and remediation
    - Review of humanistic socialization, professionalism, expectation, skills
    - Communication processes and skills
  - A list of in-depth review courses is available in the Office of Clinical Rotations
- Subsequent failures may delay the conferral of the D.O. degree. Students must complete all graduation requirements within 6 years of the date of initial matriculation or
will be subject to dismissal. All students are required to pass COMLEX Level 2 PE to receive the D.O. degree.

- If the student fails to complete all degree completion requirements prior to June 30, the student may lose their matched residency position.
  - The residency program director and/or director of medical education at the residency site make this decision.
  - It is the student’s professional and ethical duty to inform the program director of any failure of COMLEX Level 2 PE that will delay graduation and start of residency.

### 12.5. Rotation Site Selection Process

#### 12.5.A. September 1 to mid-January: Hospital Information Months

During these months, the Office of Clinical Education shall make available information concerning the core rotation sites and will have symposia to educate students on the requirements, rights, and opportunities of the third-year clinical curriculum. These presentations may include, but are not limited to, hospital DSMEs, physicians, clinical professors, and students that are currently, or have recently, rotated through these sites. Hospital Days may be conducted to allow students to gain more information, generally occurring during the first semester annually. Hospital Day will include presentations by the DSMEs and other representatives at LUCOM clinical training campuses and programs that provide GME to inform the class about each of the core training sites.

Information provided during the hospital information months will empower the second-year student to decide at which core rotation sites they would prefer to rotate during the third and fourth years of medical education. This allows the students to decide which learning environment is more conducive to their style of learning.

#### 12.5.B. Mid-January

There will be a public lottery held in January or February of the second year. Only OMS-II students will be permitted into the lottery. During the lottery, students will be selected in random order to select their core site. Once a site has been filled with the maximum number of students, it will be removed from the selection process. This will continue until all students have selected a site. Students who fail to participate in the lottery will be assigned a core site by the Office of Clinical Rotations.

Students may be excluded from the lottery and assigned a specific core site for one or more of the following exceptions:

1. Students with children that they are raising in their house.
2. Students who are married and their spouse is gainfully employed outside the home either in the requested core site region.
3. Students spouse is a full time residential student at Liberty University, Lynchburg College, Randolph College or LUCOM.
4. Special medical reasons that require the student or immediate family member (spouse or children) be near a specific core site region

In order to be granted an exception, supporting documentation may be required by the Office of Clinical Rotations.

Students who have a special exception not listed above, must present their case to the Assistant Dean of Clinical Education at least one month prior to the lottery. Approval for an exemption must be obtained in writing from the OMS-III Assistant Dean of Clinical Education.

12.5.C. Swap Week

For one week following the Rotation Selection Process, the students will be allowed to effectively “swap” rotations with another willing classmate. This will allow students that are not satisfied with their core rotation site to trade with another classmate who is willing to change spots. The students must exchange their entire schedule, not components.

Swap Forms will be provided by, and must be submitted to, the faculty of the LUCOM Office of Clinical Rotations. This will be the final step in the Rotation Selections Process.

12.5.D. Final Distribution of Assignments

The final list of core rotation site assignments will be submitted to the students one week following the end of “swap week.” All assignments are considered final after this date.

12.6. Practicing Medicine

Students are prohibited from engaging in any activities (from the time of admission to the University until graduation or other termination of student status) that might be construed as the practice of medicine, or any phase thereof, without the proper supervision and direction of designated members of the faculty. This exclusion includes all students who are a licensed practitioner of such health care prior to admission to medical school or during their time in medical school (i.e., medical doctor, dentist, podiatrist, chiropractor, or other health care professional). Students may only engage in such activities when the student has received an exception and permission in writing from the Dean and/or is under the direct supervision of a licensed physician or a clinical faculty member of the University.

Any student who is a licensed practitioner and wishes to be employed in the health-related field must contact the Office of Admissions and Student Services and forward a request to the Dean. All decisions of approval or disapproval will come from the Dean in a written letter.

Students who are alleged to have engaged in the practice of medicine, or any phase thereof, and are not in compliance with the requirements above, will be required to meet with the SPC and may be subject to disciplinary action including, but not limited to dismissal from the COM.
Chapter 13. Academic Conduct Standards

The College of Osteopathic Medicine Academic Conduct Standards do not replace the University Student Honor Code (The Liberty Way), but rather supplements it for osteopathic medical students. Students are required to know and adhere to both the COMs Academic Conduct Standards and The Liberty Way. The Dean of LUCOM has established the following Academic Code of Conduct, which shall apply to all students enrolled in the COM.

All students are expected to manifest a commitment to academic integrity through rigid observance of standards for academic honesty. Students should avoid any impropriety, or the appearance thereof, in taking examinations or completing work in pursuance of their educational goals.

It is not possible to list all examples of expected academic behavior nor is it possible to list all inappropriate, unprofessional or unethical academic behavior. The following acts that constitute a violation of the Academic Conduct Standards include, but are not limited to:

- Cheating: intentionally using or attempting to use unauthorized materials, information or study aids in any academic exercise or performing work for another individual under false pretense. Students are expected to submit tests and assignments that they have completed without aid or assistance from other sources. Students must avoid any impropriety or the appearance of impropriety in taking examinations or completing work in pursuance of their educational goals.
- Fabrication: intentional and unauthorized falsification or invention of any information or citation in an administrative or academic exercise.
- Facilitating Academic Dishonesty: intentionally or knowingly helping or attempting to help another to violate any provision of this code. Allowing or giving of one's work to another to be copied, providing exam question or answers, releasing, or selling term or research papers is prohibited. Knowingly furnishing false information to the institution
- Plagiarism: the adoption or reproduction of ideas, words, or statements of another person as one's own without proper acknowledgment. Students are expected to perform and submit original work, giving proper credit if the thoughts or words of another author are included.
- Bribery: giving or offering money and/or favors in order to influence the judgement of a faculty or staff member in an attempt to gain an academic advantage.
- Forgery: falsely making, copying or altering documents or credentials.
- Utilization of position or power by a student for personal benefit, to the detriment of another student, faculty member, or member of the staff or in a capricious or arbitrary manner.

Students in violation will be subject to disciplinary action up to and including suspension or dismissal from the COM.
Chapter 14. General Conduct Standards

The College of Osteopathic Medicine General Conduct Standards do not replace the University Student Honor Code (The Liberty Way), but rather supplements it for osteopathic medical students. Students are required to know and adhere to both the COMs General Conduct Standards and The Liberty Way. The Dean of LUCOM has established the following Academic Code of Conduct, which shall apply to all students enrolled in the COM.

Students enrolled at LUCOM are expected to adhere to behavior consistent with the high standards of the osteopathic medical profession, including the standards established by the osteopathic oath and code of ethics. Compliance with institutional regulations as well as city, state, and federal laws is expected.

Acts that may undermine the safety, mission, or reputation of the students of Liberty University or the College of Osteopathic Medicine or either institution are violations of the Personal Code of Conduct. Examples of such acts include, but are not limited to:

- Commission of a crime; or
- Violations of institutional policies, procedures and/or conduct standards, including standards of dress; or
- Causing public embarrassment to the College, the University, or its representatives, students, or employees; or
- Any attempt to provide or support residential students with the opportunity to break The Liberty Way

Osteopathic medical students shall act honorably and ethically. Dishonesty, unethical, unprofessional, or other designated inappropriate conduct shall not be tolerated. It is not possible to enumerate all forms of inappropriate behavior, some of which could raise serious questions concerning a student's ability to continue in the academic program or to practice after graduation and interpretation is the purview of the Student Progress Committee and the Dean. Below, however, are the general rules and policies that shall apply to all students.

Students will not interfere with the rights, safety, or health of members of the University or College community nor interfere with other student’s rights and privileges in pursuit of their education. Students are expected to abide by all University, College, and program rules and regulations and all local, state, and federal laws and regulations affecting their education and profession. Violations include but are not limited to:

- Theft, robbery, and related crimes
- Vandalism or destruction of property
- Disorderly or disruptive conduct, public intoxication, lewd, indecent, or obscene behavior on the campus or at any College-sponsored or -supervised function or event
- Physical or verbal altercation, assault, battery, domestic violence, or other related crimes
- Possession, transfer, sale or use of illicit and or illegal drugs, misuse of legal drugs or other legal medications, or use, possess, distribute, or sell alcohol or tobacco products.
• Possession of or use of an unregistered firearm, fireworks, explosives, or other dangerous substances or items on campus, at University affiliated sites, or at any University sponsored event on or off campus. The possession of or use of firearms is regulated by LU policy or University affiliated sites’ policy.

• Appearance in the class or on the campus, at University affiliated sites or at any University sponsored events on or off campus that the student is under the influence of drugs or alcohol, illegal or illicit drugs, or chemicals.

• Any act or conspiracy to commit an act that is harassing or abusive; an act that invades an individual’s right to privacy; sexual harassment; discrimination and abuse against members of any racial, ethnic, religious group or on the basis of sex, gender, marital status or cultural group and/or any other protected group or as a result of an individual membership in any protected group.

• Verbal or written disrespect to a faculty or staff member (this includes e-mails).

• Offensive or crude language directed at individuals.

• Sexual misconduct.

• Stalking.

• Involvement with pornographic, obscene, indecent, or other similarly offensive materials, expressions, or conduct. Use of the University's computing network to obtain or distribute such materials.

• Unacceptable use of computing resources as defined by the University.

• Impeding or obstructing a LUCOM investigatory, administrative or judicial proceeding.

• Threats of or actual damage to property or physical harm to others.

• Any activity that may be construed as hazing or engaging in, supporting, promoting, or sponsoring hazing of another student, faculty, or staff member.

• Failure to pay tuition and fees in a timely manner.

• Embezzlement or misuse of COM and/or student organizational funds, resources, or monies.

• Failure to comply with the directives of a LUCOM official.

• Violation of the terms or conditions of a disciplinary sanction imposed by the administration.

• Violation of state or federal law, rule, regulation, or ordinance.

• Fraud, misrepresentation, forgery, alteration or falsification of any records, information, data or identity.

• Plagiarism.

• Unauthorized access to or utilization of restricted University documents, data, programs, and other types of information and informational systems.
14.1. Harassment and Assault

Liberty University is committed to providing students with a safe, professional environment free of assault or harassment in any form. Any act of harassment that threatens a person or persons is considered a serious and reportable offense.

Harassment is a form of discrimination that violates Title VII of the Civil Rights Act of 1964, the Age Discrimination in Employment Act of 1967, (ADEA), and the Americans with Disabilities Act of 1990, (ADA).

Harassment is unwelcome conduct that is based on race, color, religion, sex (including pregnancy), national origin, age (40 or older), disability or genetic information. Harassment becomes unlawful where 1) enduring the offensive conduct becomes a condition of continued employment, or 2) the conduct is severe or pervasive enough to create a work environment that a reasonable person would consider intimidating, hostile, or abusive.

Any act of assault, coercion, or activity initiated when an individual is physically or psychologically unable to provide consent is considered a serious offense.

Any LUCOM student who believes that they have been the subject of harassment in any form should immediately report the incident to their advisor, the Office of Student Services or to the Office of the Dean of LUCOM. The student will be given the opportunity to document their concerns and will then be informed of the recourse available to him/her under college policy and local and state statutes.

The College is committed to providing a safe environment and prompt, compassionate and discreet support to victims of harassment or assault should it occur. Students who desire assistance in contacting local authorities and/or assault support agencies can obtain such assistance from administration and staff through the Office of Student Services or the Office of the Dean.

All incidences of harassment or assault reported to LUCOM will be reported to LUPD if occurring on LU campus or appropriate law enforcement agency if occurrence is off LU or LUCOM premises for investigation and action.

14.2. Sexual Harassment and Interpersonal Violence Policy

Liberty University, including LUCOM, complies with Title IX of the Education Amendments of 1972 ("Title IX"), which prohibits unlawful discrimination on the basis of sex in its programs and activities. Liberty University does not unlawfully discriminate on the basis of sex in any of its education or employment programs and activities, nor does Liberty University tolerate sex discrimination or sexual harassment. Liberty University prohibits sexual harassment, sexual assault, sexual exploitation, stalking, intimate partner violence, and retaliation (collectively, “Prohibited Conduct”), which are harmful to the well-being of the university community and its members, the learning and working environment, and collegial relationships amongst students, faculty, and employees. Liberty University will respond to reports of sex discrimination and sexual
harassment with measures designed to eliminate such misconduct, prevent its recurrence, and remedy any adverse effects of the misconduct on individuals, members of the campus community, and university-related programs and activities. All members of the university community are encouraged to review Liberty University’s Sexual Harassment and Interpersonal Violence Policy, which is incorporated into the LUCOM Student Handbook, and other applicable university conduct codes, by reference.

Liberty University has multiple resources, some of which are confidential, and options are available to individuals who have experienced Prohibited Conduct. In order to encourage complainants and cooperating witnesses to make reports of Prohibited Conduct under the university’s Sexual Harassment and Interpersonal Violence Policy, the university will not pursue disciplinary action against complainants or cooperating witnesses for voluntary disclosure of personal consumption of alcohol or other drugs (underage or illegal) or immorality (e.g., premarital sex) when the disclosure is made in connection with a good faith report or investigation of Prohibited Conduct and when the personal consumption or immorality did not place the health or safety of another person at risk.

Liberty University faculty and staff are required to report all instances or suspicions of Prohibited Conduct. Certain Liberty University employees are designated as Confidential Resources. Confidential Resources include employees of the University’s Student Counseling Services and Student Health Center (operated by CVFP Medical Group). Reports of Prohibited Conduct that are shared with Confidential Resources who are acting within the scope of their employment will remain confidential. All other university employees are Responsible Employees who must report Prohibited Conduct to the university’s Title IX Office. Regardless, the university will respect the privacy of all such reports and individuals involved.

14.2.A. Reporting and Process

Any student who believes that he or she has been the subject of Prohibited Conduct in any form should immediately report the incident to Liberty University’s Title IX Office and/or to Liberty University Police Department (LUPD). Any student who observes or becomes aware of any Prohibited Conduct in any form is strongly encouraged to report the information to the Title IX Office and/or to LUPD. Any faculty or staff member who observes or becomes aware of any Prohibited Conduct in any form is required to immediately report the information to the Title IX Office and/or to LUPD using any of the contact information indicated below. Students who would like assistance in contacting local authorities may request such help from campus authorities.

Liberty University strongly encourages that all forms of Prohibited Conduct be reported. To report an incident of Prohibited Conduct under Title IX, any student, faculty, or staff member may contact the Title IX Office as follows:

- Visit the Title IX Office in Green Hall, Room 1837
- Call the Title IX Office at (434) 592-4999
- Text 4999 to the Title IX Office at 24502 (reply text will give instructions)
- Email the Title IX Office at TitleIX@liberty.edu
- Utilize the university SpeakUP! report process
If a LUCOM student, faculty or staff member is not sure whether an incident qualifies as a violation of the Sexual Harassment and Interpersonal Violence Policy, the Executive Director of Title IX or the Deputy Title IX Coordinator for LUCOM listed below may be contacted:

Nathan Hopkins
Director of Investigations & Acting Title IX Coordinator
University Title IX Office (434) 592-4999
titleix@liberty.edu

Dr. Linda Mintle
Deputy Title IX Coordinator School of Osteopathic Medicine (434) 592-7386
lsmintle@liberty.edu

Additionally, any student, faculty, or staff may contact the Liberty University Police Department or local police department for emergencies, questions, or concerns regarding an incident of sexual harassment, discrimination, or assault.

- LUPD Emergency (434) 592-3911
- LUPD Non-emergency (434) 592-7641

For confidential reporting options, please contact:

- Student Counseling Services - 434-582-2651 (studentcounselingservices@liberty.edu)
- Sexual Assault Response Program (SARP) - 434-947-7273
- Student Health & Wellness Services - 434-200-6370

For more information about Liberty University’s Title IX Office and Title IX-related policies, including the university’s Sexual Harassment and Interpersonal Violence Policy, visit www.liberty.edu/studentaffairs/titleix/ or contact Liberty University’s Executive Director of Title IX:

Nathan Hopkins
Director of Investigations & Acting Title IX Coordinator
Liberty University Title IX Office Green Hall, Room 1837 Lynchburg, VA 24515
(434) 592-4999
titleix@liberty.edu

14.3. Racial Harassment and Discrimination

LU COM insists that all members of the College are entitled to and shall be afforded an environment free of racism - whether overt or subtle. Behavior that constitutes racial discrimination or harassment is prohibited by Title VII of the 1964 Civil Rights Act.

This includes, but is not limited to:

- racial or ethnic slurs
- coarse jesting with racial or ethnic overtones
- other forms of communication resulting in disparagement or intimidation

Any perceived incident should be reported to the Office of Student Affairs or the Office of the Dean. Staff will review the Racial Harassment & Discrimination policy with the complainant. A Grievance Form may be filed by the complainant with assistance from Staff and Administration of the COM.

An investigation will occur by the Student Progress Committee if the complaint concerns a student or the Faculty Council if the incident concerns a member of the faculty or staff. The investigating committee may call witnesses and hear testimony of the complaint. Witnesses and those requested to appear are not entitled to legal counsel during the hearing and investigation period or sessions.

The Student Progress Committee or Faculty Council will reach a conclusion concerning the grievance and make recommendations for actions, including disciplinary actions if indicated, to the Dean.

The Dean will adopt or modify the recommended actions and institute the actions.

The Dean will meet with complainant and accused to review outcome of investigation and actions recommended.

Any LU COM student who is guilty of Racial Discrimination or Harassment is subject to disciplinary action up to and including dismissal from the COM.

Any Liberty University College of Osteopathic Medicine faculty or staff who is guilty of racial discrimination or harassment is subject to disciplinary action, including unpaid leaves of absence, mandated educational requirements, probation, suspension, up to dismissal as an employee at LU COM.
14.4. **Impaired Student Program**

All students, as a condition of enrollment at LUCOM must agree to abide by the College's policies on alcohol and drug usage and the impaired student policy. Under this policy, students who are identified abusing alcohol, legal or illegal substances are subject to dismissal from the College or may be referred to the Impaired Student Program (ISP) for further evaluation and treatment.

Entry into the ISP may be initiated at the student's own request or at the direction of the Dean. The Dean may, at their sole discretion, refer the matter to the ISP or initiate an investigation, which may include drug screens.

All students placed in the ISP must sign a release, including the release of medical records, allowing the College of Osteopathic Medicine (COM) access to any information necessary in order to monitor the student's compliance with the conditions of the program. Any lack of compliance by the student in meeting the conditions of the ISP or external agent shall result in dismissal from the COM.

Any student assigned to the ISP may have their clinical rotations or other clinical assignments suspended or scheduled at sites that will allow the student to be more appropriately monitored during the course of their participation in the ISP. Agreement to such scheduling modifications will be considered to be a requirement of continuing in the ISP while a participant in the program, the student must be under the supervision of a qualified external agent assigned by the ISP director.

Any acts of inappropriate behavior or violations of policies attributed to students participating in the Impaired Student Program or otherwise, shall continue to be referred to the Student Progress Committee for independent evaluation as is applicable to all students enrolled in the LUCOM.

Any member of the faculty who observes a student with symptoms suggestive of impairment secondary to emotional disturbance, substance abuse, or addiction will report the matter to the Dean for implementation of this policy.

The procedures regarding participation and responsibilities in the ISP are available from the Office of the Dean or the Assistant Dean of Admissions and Student Services.
14.5. Failure to Report a Violation

Every member of the COM has the duty to report all circumstances they have reason to believe constitute a violation of the code. Failure to report a violation of the code is itself a violation. All members of the College community have an affirmative duty to give testimony or evidence relevant to any alleged violation of the conduct standards.

14.6. Penalty

Any student of LUCOM who engages in the aforementioned Conduct violations, is subject to disciplinary action. Possible disciplinary actions can be found in the Academic & General Conduct Disciplinary Sanctions section.

Since the University takes such charges seriously, where the results of an investigation reveal a conduct violation complaint of to be frivolous or groundless, the individual having made such a complaint may be subject to disciplinary action.
Chapter 15. Policies & Procedures for Code of Conduct Violations

For the duration of a student's enrollment at LUCOM, the student is expected to meet both academic and professionalism standards, set forth in the LUCOM policy manuals, independent of his/her course grades. Students with identified concerns in a given area, either academically or professionally, will be monitored by the college to ensure opportunities for student success. These students may be provided with improvement recommendations or escalation to the Student Progress Committee.

Any member of the College community may file a written complaint with the Honor Court or the Chair of the Student Progress Committee (SPC) setting forth specific violations. The SPC shall have nonexclusive authority to evaluate all alleged student violations of misconduct, whether academic, moral, professional, or ethical.

During the period of time of any disciplinary action, except dismissal, the student may be directed to comply with the specific requirements intended to rehabilitate or monitor the student. These requirements may include counseling, auditing one or more courses, medical treatment, preparing scheduled reports, or any other requirement intended to rehabilitate the student and/or to ensure that the student is able to continue with their education without further monitoring.

Records of dismissal, suspension, probation, or leave of absence, and the date of each determination shall be placed in the student's permanent records.

Nothing shall limit the right of LUCOM to immediately remove a student from the College who has been accused of a violent act or threat, or any act that constitutes a violation of state, local, or federal criminal law subject to further proceedings consistent with these rules. A student who has been removed from the College shall not return until given permission to do so by the Dean.

Nothing shall prevent the Dean from taking action deemed necessary, including removing a matter from the committee's consideration, whenever, in the Dean's judgment, such action may prevent harm to the health, safety, and welfare of any individual, to school property, or to the integrity of the educational process.

Nothing shall limit the right of the College or any of its representatives or students to file a report with any law enforcement or civil agency.

15.1. Student Progress Committee Meeting Protocols and Process

Proceedings to determine whether a student has violated a regulation, policy, behavior, or academic code of the College shall conform to the following protocols and process:

When informed of alleged violation, the Chair of the Student Progress Committee (SPC) will conduct a preliminary investigation. The Chair may, at that time, deescalate behavioral and/or professional concerns to the Professional Advisory Group (PAG, a subcommittee of SPC). The
Professional Advisory Group may alternatively determine it necessary to escalate concerns to SPC for a hearing and committee deliberation.

The Chair will call a meeting of the committee and shall notify the charged student(s). The student(s) shall receive written notice of the time, place, and subject of the meeting. Legal representation or any other form of representation is prohibited during hearings before the SPC.

If desired, the student or complainant will provide the Chair with a list of any witnesses they may have secured to present in their support, in writing, no later than three business days before the meeting date. The student or complainant will be responsible for ensuring the presence of their witnesses.

Any witnesses will be called individually to be questioned and to provide any statements to the committee. Witnesses may be asked to remain outside the meeting room for later recall. The student will not be present during the questioning of any witnesses.

The student will be given the opportunity to present information concerning the issues and their statements to the committee. The student will only be present during their statements and to respond to any questions from the committee. If the student fails to appear at the designated location, date and time of the hearing, the student waives his/her right to attend the hearing and a decision will be made by the committee based on the available evidence. The committee may, in its discretion and for good cause, reschedule the hearing but it is not required to do so for any reason.

The Chair will dismiss the student and any witnesses. Deliberations of the committee shall be in closed session to protect the student’s privacy.

At the conclusion of the discussion, the Committee shall make its recommendation(s) to the Dean in writing. Various disciplinary actions that may be recommended by the SPC include but are not limited to: reprimand, fine, probation, suspension, dismissal, and administrative leave of absence.

The Dean shall review the Committee’s recommendation and render a final decision. The Dean may choose to accept, not accept, or change the committee’s recommendations or they may send the case back to the committee for further investigation or action. The student shall be notified of the Dean’s decision by U.S. mail, certified mail return receipt requested, or personal delivery.

The recommendations of the SPC and all reports, letters, and investigative records shall be maintained in the Office of the Dean’s files for not less than five years. This investigatory information is not part of the student’s permanent records or the student’s transcript. Disciplinary action imposed by the Dean and administration is a permanent part of the student’s record and may be recorded on the transcript.
15.2. Academic & General Conduct Disciplinary Sanctions

15.2.A. Points

A point’s notification is an oral or written notification to the student that continuation or repetitive wrongful conduct may result in more severe disciplinary penalties. Whether the reprimand is oral or written initially, a copy of the document will be given to the student as well as placed in the student's file.

The Dean or designated Associate Dean shall notify the student that they have been placed on disciplinary status, but it is the student’s responsibility to be aware of their disciplinary status at all times.

15.2.B. Academic Monitoring

An internal academic monitoring status is utilized by LUCOM to enhance matriculated students' success with the curriculum. This status is not reported on a student’s transcript, but it is notated and reported to the Office of Medical Education and Office of Dean so that enhanced assistance may be available for the student. While still in good standing, a student may be placed on academic monitoring status when they fail a course examination, have a cumulative average less than a 75 or other criteria which demonstrates the student may not successfully progress through the academic year. A student who raises their cumulative average to 75 or higher, remediates all course failures, and completes all incomplete coursework will be removed from this status.

If a student's cumulative average remains below 75, they will remain on academic monitoring. To ensure that the student has adequate time to commit to the academic endeavors required to be successful with the curriculum and the requirements of the professional degree in which they are seeking, a student on this status will be prohibited from participation in certain “extra-curricular” activities and officiating positions without specific permission of the Office of the Dean or its representatives; however, the student will be considered in “Good Standing” for verification purposes. Students on academic monitoring may be required to meet with the Academic Counselor(s) at least once per semester and may have additional requirements imposed by the Student Progress Committee, Office of Medical Education or Office of the Dean.

15.2.C. Disciplinary Warning or Behavior Monitoring Status

Formal notice to a student that their action and/or behavior have not met University and College standards. This sanction remains in effect for a designated period of time and may be expunged from the student file. This status is defined as a period during which a student has the opportunity to demonstrate that they can effectively cease behavioral misconduct. A student may remain a participating member of professional organizations while on warning or behavioral monitoring status. A student on Warning or Behavioral Monitoring status may be prohibited from participating in activities off campus or activities on campus that involve absence from any scheduled class, laboratory, clinical or other academic requirement without written permission of Office of Dean, holding office in any LUCOM professional organization, club, student government, or class and being elected to any honorary or other school organization.
15.2.D. Probation

The Student Progress Committee may make a recommendation for probation to the Dean for, but not limited to:

- It is believed that a student has failed to achieve sufficient maturity of thought or professionalism
- A student is responsible for an infraction of the laws, rules, or codes of conduct that govern the osteopathic medical profession and its members at LUCOM

Probation is defined as a period during which a student has the opportunity to demonstrate that they can remediate failing grades, academically redeem a failing cumulative average, or can effectively cease behavioral misconduct. Probation can be for any period of time, i.e. the remainder of a current term or may be for the remainder of the time the student is enrolled at LUCOM. While on probation, the student will be prohibited from participating in LUCOM sponsored student activities (e.g. mission trips, health fairs), holding office in any LUCOM organizational club, student government, or class and, being elected to any honorary or other school organization.

During probation for disciplinary reasons, the student must show appropriate behavioral, professional, and personal conduct as defined in the conditions of their probation. The student may be required to seek professional behavior modification education or counseling. Additionally, the student is required to refrain from any further violation of the code and may be required to perform community service or comply with any other requirements intended to rehabilitate the student.

Once the student has corrected all academic or behavioral deficiencies, the SPC may recommend to the Dean to remove the student from probation. If, while on probation, the student violates the terms of their probation, actions may be taken up to and including dismissal from the LUCOM. Probations that are issued for reasons that are not academic in nature will not be recorded on the student’s transcript.

15.2.E. Suspension

The Student Progress Committee may make a recommendation for academic suspension to the Dean for, but not limited to:

- the student fails to make satisfactory academic progress
- the student fails to meet academic standards
- the student has multiple course failures
- the student has not attained the academic level expected of the student at their level of education
- has not met the requirements for promotion to the next academic level
- the student has a Student Progress Committee granted sanction

The Student Progress Committee may make a recommendation for suspension to the Dean for, but not limited to:
• the student has deviated from the policies and procedures
• the student has violated Academic Conduct Standards
• the student has violated General Conduct Standards

Suspension bars a student from attending school as a student for credit for a defined period of time. A student suspended for disciplinary reasons will be removed from the academic enrollment with revocation of all other privileges or activities, including the privilege of entering the campus or any affiliated sites for a specified period of time. As a result of suspension, a student will no longer be accounted for in the class rank calculations. Suspension is included in the calculation of the six-year limit for completing all graduation requirements.

In the preclinical years, suspension cannot be less than the remainder of the academic semester if the interruption to classes and laboratories will result in the failure of current courses. In the clinical years, suspension can be imposed for the remainder of the current rotation and/or future additional rotations.

Readmission will not be entertained until the suspension period is completed and any required actions are satisfactorily fulfilled. Return of the student is subject to approval of the University and College administration and faculty. When a student returns from a defined suspension period, they will be placed on academic probation until satisfactory progress is made. A student on this status will have program restrictions.

While appealing an academic suspension, a student may continue to attend classes and take all examinations pending the results of the appeal.

15.2.F. Dismissal

The Student Progress Committee may make a recommendation for academic dismissal to the Dean for, but not limited to:
• Failure to make satisfactory academic progress
• *Failure of two or more courses during any academic year
• *Failure of three or more courses during any academic year
  o In such cases, no opportunity for remediation will be permitted
• *Failure of four or more courses during any academic year
  o In such cases, no opportunity for remediation will be permitted.
• Failure of a repeated course or repeated clinical rotation
• Failure of a total of two clinical rotations
  o Any failing F grade received will be counted toward this total regardless of whether the rotation was repeated and passed
• Exceeding the six-year limit for completing all graduation requirements
• The student has a SPC granted sanction

The Student Progress Committee may make a recommendation for dismissal to the Dean for, but not limited to:
• A student found to have represented themselves as a Doctor of Osteopathic Medicine (D.O.) or to have practiced medicine, or any phase thereof, not under the direct supervision of a licensed physician or a clinical faculty member of the University
• Circumstances of a legal, moral, behavioral, ethical, or academic nature that warrant such action or would result in the student not being able to practice as an osteopathic physician.
• Determination by the Student Progress Committee and Dean that the student’s actions would prevent the student from practicing or that they do not meet the professional and ethical standards expected of an osteopathic physician.
• Failure to fully meet the stipulations of a suspension within the time prescribed

*Remediation of a course failed during one academic year does not remove it from the total failures allowed per year. Failing a remediation examination does not count as a second course failure. In cases of a second failure in the same course, remediation examinations will not be permitted.

Dismissal is the permanent termination of a student's academic enrollment where they are not allowed to return to the program. As with all disciplinary actions, the Dean is responsible for imposing this recommendation. As a result of any dismissal, a student will no longer be accounted for in the class rank calculations.

While appealing a dismissal, a student may continue to attend classes and take all examinations pending the results of the appeal.

15.2.G. Other Sanctions
• Expulsion: permanent dismissal from the University with no right for future readmission.
• Temporary Suspension: action taken removing and barring the student from the campus and/or affiliated University sites pending final determination of student's status taken by the Dean or Director for Admissions and Student Services.
• Final Disciplinary Probation: disciplinary sanction taken when a student is in violation of University or College standards, under which the following conditions may exist:
  o The sanction is for the remainder of the student's career. The action may be reviewed by the Dean no sooner than two academic semesters or its equivalent after the sanction is imposed. The student may request in writing reduction of the sanction after two semesters to disciplinary probation if they can demonstrate reason to substantiate the request.
  o Another violation of the University policy or standards of conduct while on final disciplinary probation will result in at a minimum a suspension.
• Verbal Warning: A verbal admonition to the student by a University or College faculty, administration or staff member that their behavior is inappropriate. A verbal warning will be noted in the student's file for a designated period of time and expunged if no further violations occur.
• Fines: Penalty fees payable to the University for Violations of policy, rules, or regulations.
• Restitution: Payment made for damages or losses to the University or College is directed by the adjudicating body.
• Restriction or Revocation of Privileges: Student may be restricted from participation in extra-curricular activities, i.e., serve as an officer in a LUCOM organization or national organization, mission trips, etc.
• Counseling Intervention: College or University directed professional evaluation or treatment for behavioral or psychological issues
• Other Appropriate Actions: As determined by the SPC or the Dean.

15.2.H. Readmission Policy

If a student is dismissed or withdraws from Liberty University College of Osteopathic Medicine, they may not apply for admission to a new class starting less than 12 calendar months after the date of dismissal or withdrawal. The student may only reapply as a first year student. In order to be considered for admission, the candidate must provide adequate evidence that the conditions and/or factors that caused the prior dismissal or withdrawal have changed significantly, so that there is reasonable expectation that the applicant can perform satisfactorily if admitted.

Any applicant applying for admission must do so through the Office of Admissions and must follow the same procedure as any other entering student. Admission will be solely at the discretion of the Dean as are all admissions. The student's prior academic record will remain a part of their overall academic record and will be recorded on the permanent transcript. If admitted, none of the student's prior grades will be utilized in calculating their new cumulative or term average. If admitted, the student may follow the process for advance standing as published at the time.
Chapter 16. Grievances & Appeals

Any student has the right to seek redress of a grievance with immunity from disciplinary action or retaliation without regard to the student’s sex, gender, race, religion, disability, color, creed, ethnic, or national origin as included in the regulations of Title VI, Title IX, the Americans with Disabilities Act and section 504 of the Rehabilitation Act. For a student to address a grievance, they must utilize the following procedures:

16.1. Non-academic Grievance

The student will present the grievance to the student’s assigned faculty adviser. If the faculty adviser cannot affect a resolution to the problem, the student may then consult with the Office of Admissions and Student Services.

The Assistant Dean of Admissions and Student Services will hear the grievance. If a satisfactory solution cannot be achieved, the student will be advised to prepare a written, signed request, setting forth the grievance and requesting a hearing with the Honor Court or Student Progress Committee.

Copies of appropriate and relevant documentation must be appended to this request, which will include a statement to redress the student requests.

The student will submit the request to the Office of Admissions and Student Services, who will present it to the Chairperson of the appropriate committee.

The Chairperson shall convene the committee after receipt of a written request. The student will be notified in advance of the date, time, and place of the meeting.

The meeting shall be internal, private, and closed to non-University persons. Non-University personnel are not available for consultation during these meetings. Legal representation or any other form of representation is prohibited during the hearing. At the meeting, the student will be afforded a full and fair opportunity to present the grievance and to respond to relevant questions posed by members of the committee.

The Committee will, after deliberation, make a recommendation to the Dean.

Following receipt of the Committee's recommendation, the Dean or his designee will advise the student, in writing, delivered by either certified mail or in person, of the action taken to resolve the grievance.

16.2. LUCOM Policy or Procedure Grievance

Concerns, questions or grievances regarding LUCOM policies and procedures should be addressed to the SGA Administration. The SGA will present the grievances to LUCOM Administration for an appropriate and reasonable resolution.
16.3. Academic Grievances

Matters regarding grading disputes shall include all concerns related to specific grades received or the processes by which grades are determined. In all appeals regarding a grading dispute or appeal situations, the decision of the Dean is final.

A student who has difficulty in negotiating the grading dispute appeals process may seek guidance from the College’s Office for Student Services.

16.3.A. Assignment Grade

For any laboratory practical examinations or graded assessments involving standardized patients or simulation exercises, students have 2 business days from the day the graded assessment is returned to present a written grade appeal request for that assessment via LUCOM email to the responsible faculty member. The faculty member will respond to this request via email (with copy to the Medical Education office and course director) within 1 week of receiving the request.

16.3.B. Classroom grade

A student seeking to appeal a decision regarding a course grade during the first and second year should seek solutions through the following administrative channels; proceeding in the order stated if a resolution cannot be reached:

1. Administrative Director of Medical Education at LUCOMMedEd@Liberty.Edu
2. Senior Associate Dean of Academic Affairs
3. Dean (final level of appeal)

A student seeking to resolve a grade concern through the administrative channels above must initiate such action in writing within 5 calendar days from the date of the end of the course. Review of a student problem and complaint at each administrative level will be carried out as expeditiously as possible. If the student is not satisfied with the decision, they may appeal to the next administrative level. If the student chooses to continue the appeal, this must be done in writing within 5 calendar days of the date the decision was rendered at each level of the appeal. No administrative grade changes will be accepted 45 days after the grade is recorded.

16.3.C. Clinical Rotation grade

A student seeking to appeal a decision regarding a rotation final grade or graded component during the third and fourth years should seek solutions through the following administrative channels; proceeding in the order stated if a resolution cannot be reached:

1. Course Director
2. Final level of approval: Clinical Dean for the 3rd or 4th year, as appropriate
Students seeking to resolve a grade concern through the administrative channels listed above must initiate such action in writing no later than 30 days from the date that the final grade or graded component was recorded by the Office of the Registrar. Review of a student problem and complaint at each administrative level will be carried out as expediently as possible. If the student is not satisfied with the decision, they may appeal to the next administrative level. If the student chooses to continue the appeal, this must be done in writing within five (5) business days of the date the student is notified of the decision reached by the previous appeal level, excluding weekends and official school holidays. The final level of appeal is to the Clinical Deans. The decision of the Clinical Deans is final. No administrative grade changes will be accepted 60 days after the grade is recorded.

16.4. Appeals of Academic, Disciplinary or Dismissal Action

A written appeal by a student doctor of a Dean's decision regarding an academic, disciplinary or dismissal action must be submitted in writing to the Office of the Dean within 72 hours of receipt of notice of the action or disposition of a hearing.

To appeal a decision made by the Dean relating to academic, dismissal or disciplinary actions reference Chapter 17.
Chapter 17. Appeals Process

Student appeals are reviewed as part of an informal proceeding. Rules of civil procedure and evidence will not apply. Appeals must be presented in writing for consideration. All procedures and actions are aimed to safeguard and preserve the educational and developmental mission of the College of Osteopathic Medicine.

Written appeals of an academic, dismissal or disciplinary decision rendered by the Dean must fall into one or more of the following categories:

- The student has new evidence that was not available prior to the original hearing.
- The prescribed process was not adhered to during the student's hearing.
- The decision communicated by the Dean is disproportional to the student's academic or disciplinary inefficiencies.

17.1. Appeals Request Process

If a student doctor appeals an academic, disciplinary or dismissal decision made by the Dean, the appeal must be submitted in writing within 72 hours upon receipt of the Dean's decision.

Written appeals must be submitted to the Office of the Dean for distribution to the Faculty Council Chair. The Faculty Council Chair is responsible for convening an ad hoc committee for the purpose of reviewing the written appeal.

Any appeals not submitted in writing to the Office of the Dean will not be considered. The written appeal must contain a concise, written statement of all relevant facts applicable under the criteria listed in 17 and include the result sought.

17.2. Review Board

Written appeals shall be reviewed by an ad hoc appeals committee, chaired by the Faculty Council Chair. The Faculty Council Chair is elected each academic year by the Faculty. Appeals shall be received from the Office of the Dean.

The Appeals Committee, as an ad hoc committee, will be comprised of, at minimum, three (3) voting members with one (1) non-voting, representative from the Student Progress Committee (SPC). The Chair of the Faculty Council Committee will chair the appeals committee and will be responsible for convening the committee upon receipt of a written appeal.

Summary of notes may be taken.

17.3. Appeals Procedures

The appeals committee must convene and render a decision within seven (7) business days upon receipt of written appeal from the Office of the Dean.
The student will be notified as to the date of the committee’s review and may continue to attend classes and take all examinations pending the results of the appeal. It is the student's responsibility while waiting on an appeal decision to be reached to communicate with the Office of the Registrar and the Office of Financial Aid to understand his/her financial and academic obligations to the COM.

The ad hoc appeals committee will review the written request to appeal the decision of the Dean. The Chair of the ad hoc committee is responsible to distribute the written appeal to committee members. All requests must provide written justification of at least one of the criteria under 17 for appealing a Dean's decision on academic, disciplinary or dismissal action.

The ad hoc committee will render a decision based on the student's written appeal by majority vote of the voting committee members in attendance. The committee may render a decision of yes the appeal has merit, no the appeal does not have merit, or request additional information.

If the appeal is found to have merit, the ad hoc committee will move to reopen the case. The committee will then submit their written recommendation to the Dean.

Appeals found to have no merit will be dismissed. The Dean's original decision will stand. Student will be notified in writing by the Chair of the appeals committee.

The ad hoc committee may request additional information if it deems necessary in order to render a decision. Students must supply requested additional information within 72 hours of the committee’s request. Upon obtaining additional information, the committee will decide if the appeal has merit to reopen and submit a recommendation to the Dean or if the appeal has no merit and will be dismissed.

Once a decision is reached by majority vote, a written recommendation will be sent to the Dean for consideration.

The committee's written recommendation will be submitted to the Dean, and the Dean's subsequent decision will be final.

**17.4. Notification of the Dean's Decision**

An appeals decision determined to have merit to consider will be forwarded in writing to the Dean by the Chair of the ad hoc appeals committee with the committee’s written recommendation. The Dean will render a final decision in writing within a time period not to exceed ten (10) business days.

The Office of the Dean will forward it to the student by certified mail to the student's last official address or hand deliver with receipt.

All decisions of the Dean will be final and binding.
Chapter 18. Complaints Regarding COCA Accreditation Standards

LUCOM is committed to meeting the standards set forth by the American Osteopathic Association Commission on Osteopathic College Accreditation. A copy of the standards is available upon the request from the Office of the Dean or at the AOA COCA’s website at: www.aoacoca.org.

Students in the osteopathic medicine program who believe that LUCOM may not be in compliance with a standard of accreditation have the right to file a complaint through the following procedure:

- A written, dated, and signed compliant must be filed with the Office of Admissions and Student Services. Records of all proceedings regarding complaints will be maintained by the Office of Admissions and Student Services.
- The Assistant Dean of Admissions and Student Services will consult with the Dean and form an ad hoc committee of faculty and students to investigate the complaint.
- The results of the investigation will include findings of fact, a determination of standard compliance or non-compliance, and recommended corrective actions. The results will be communicated in writing to the Dean, Office of Admissions and Student Services, and the student complainant.
- If corrective action is indicated, the Dean will respond with a description/plan for such action within 30 days of receipt of the ad hoc committee results.

In the event that the student complainant is not satisfied with the ad hoc committee determination and/or corrective action, the student may communicate their complaint to:

Commission on Osteopathic College Accreditation
Department of Accreditation
142 East Ontario Street
Chicago, IL 60611
(312) 202-8000
(312) 202-8396 Fax

Chapter 19. Reservation of Power

This handbook is not intended to be a contract or part of a contractual agreement between LUCOM and the student. The Student Handbook is available online at www.Liberty.edu/LUCOM. Changes in the content of the Student Handbook may be made at any time, by the University or College administration. Notice of anticipated changes will be given to the students in advance of implementation, whenever possible. Each addition of the student handbook supersedes all previous handbooks, documents, and directives where they may be in conflict. Failure to read the handbook and to be familiar with the rules, policies, and procedures contained in it does not excuse the student from being required to comply with the provisions of the policy.

Liberty University reserves the rights to amend, modify, add to, or delete from its rules, policies and procedures without notice, affecting its institutional relationship with students as deemed necessary by the administration without such change being considered a violation of the relationship between the University or College and the student. Such changes may include but are not limited to changes in tuition and/or fees, academic requirements, curriculum or responsibilities of the student.
