

What if TimeSaver keeps refreshing the log-in page when I try to log-in? I don't get an error message; I just simply enter my username and password and can't get in.

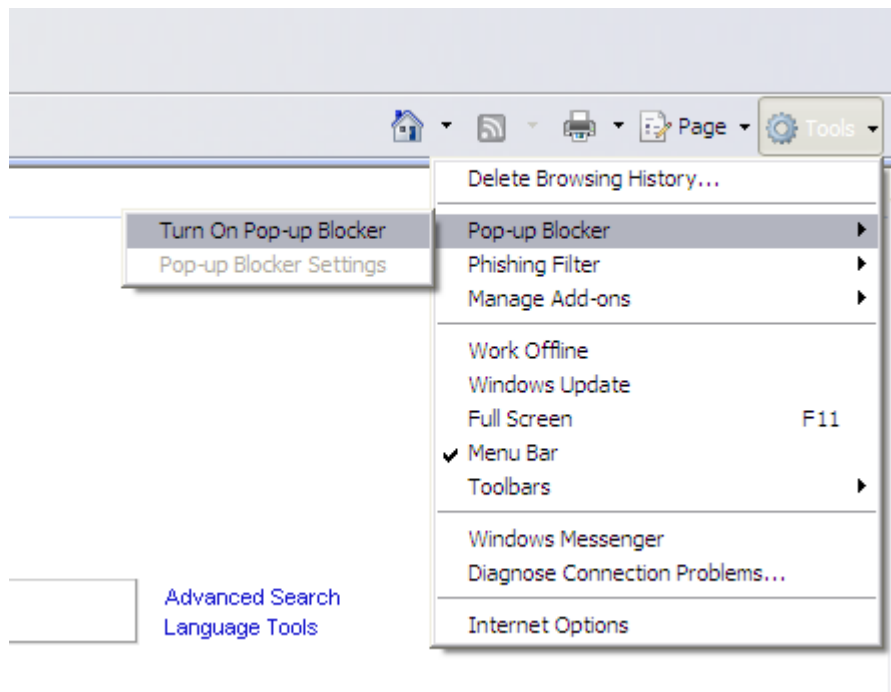

INTERNET EXPLORER

Click tools -> popup blocker

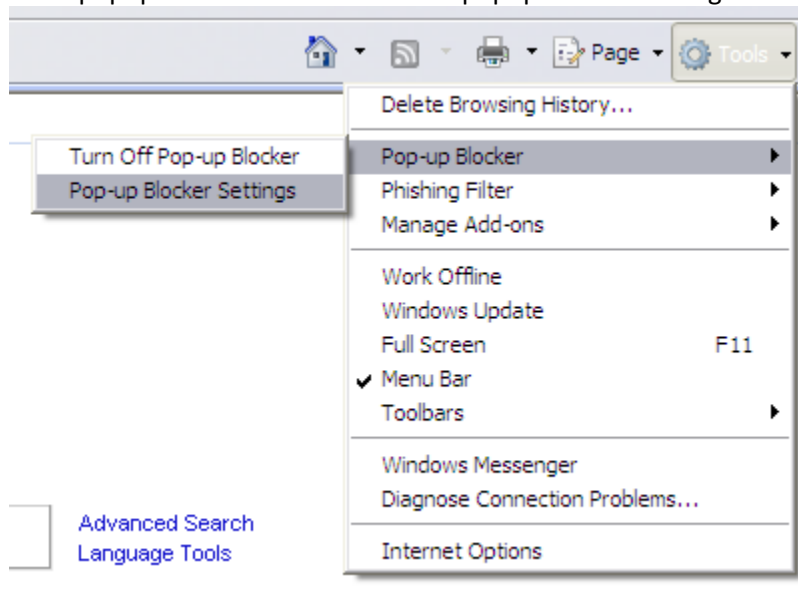

If popup blocker is off turn it on

TURN ON popup blocker = Blocker is off

Turn OFF popup blocker = Blocker is on

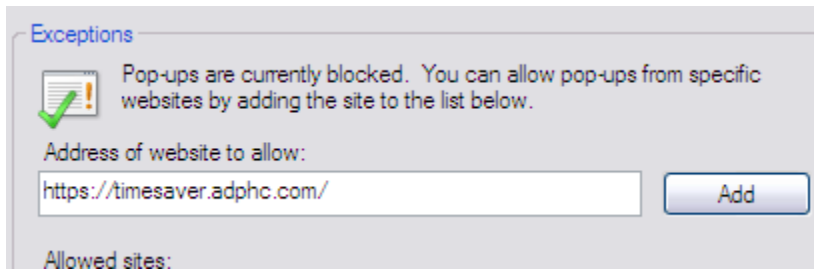

Once popup blocker is on click on the popup blocker settings

Add the website

<https://timesaver.adphc.com>

to the list of exceptions

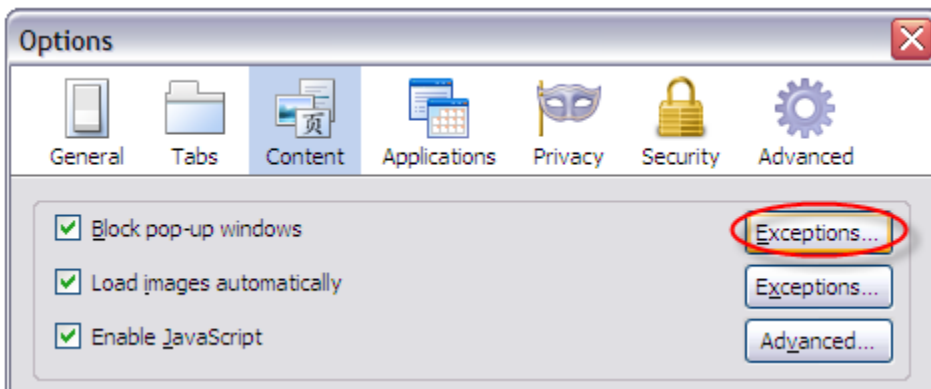

FIREFOX

On the top bar click

TOOLS-> OPTIONS

Highlight Content

The block popup winders will be checked off

Click on exceptions

Add the website

<https://timesaver.adphc.com>

to the list of exceptions
