

Liberty University School of Nursing Simulation Center

Our Mission

To provide baccalaureate level through doctoral level nursing students a broad education background by means of space, equipment and personal guidance to increase skill performance through hands on practice in a non-threatening, safe environment

Our Goal

To evidence through measurable outcomes, the increased confidence, competence and critical thinking skills associated with the nursing process and to translate student acquired knowledge to bedside wisdom, leadership and teamwork; allowing students to minister through nursing

Our Vision

To be the simulation program that produces professional, safe and effective nurse leaders who are committed to a biblical worldview and uphold ethical standards of nursing practice; viewing nursing as a global ministry of excellence and caring based on the Benner theoretical framework
