I am delighted to welcome you to the Graduate School at Liberty University, as you begin your Master of Public Health (MPH) with the Department of Public and Community Health.

Whatever has brought you onto the pathway of this program, we are grateful that are here. Many things lead people to want to work in Public Health. Sometimes it is an experience that leads to a desire to change the world. Sometimes it is a calling to serve populations, other times a heart for vulnerable people groups. Either way, something opened your eyes to a population health need and has built in you a desire to learn and do.

Yet, now that you are here, as excited as you are, you may feel overwhelmed and wonder how to set yourself up for success. If you are feeling concerned or anxious about transitioning into the program or just about starting a particular new course, let us know. We are here to help! We can help to make sure you are registered for the right classes, pray with you, talk about your degree choices, or about your career options. I have found that often a few minutes in Scripture and things become a lot clearer. *Matthew 6:33 But seek ye first his kingdom, and his righteousness; and all these things shall be added unto you.*

Get to know your Gates and your Gate coordinators very well! You can read more about our Gates and what they mean beginning on later in this manual. As you begin your initial course be sure you are using the many resources that we have at Liberty to help you become successful.

As you work, be sure to work honestly. *2 Timothy 2:15 Do your best to present yourself to God as one approved, a worker who does not need to be ashamed and who correctly handles the word of truth.* But also remember that in times of difficulty, we are stronger together. *Ecclesiastes 4:12 reminds us Though one may be overpowered, two can defend themselves. A cord of three strands is not quickly broken.*

I firmly believe that God has a purpose for each of you. I pray for each Liberty student that you find yourself drawn closer to that purpose as a part of your time here at Liberty. *Many are the plans in a person's heart, but it is the Lord's purpose that prevails Proverbs 19:21.* I We so quickly pray for God to release us from our hardship and challenge, but forget to consider it is the challenge that is growing us.

If you ever have specific prayers needs, I encourage you to reach out to me. I would love to pray for you. You can send me your prayer requests, concerns, needs, or just let me know what you are thinking at lgraf@liberty.edu.

May this year bring challenges, and growth. May it His Glory and our Growth *in Him*.

Warm Regards,

Linnaya Graf, PhD, MCHES

Director of the Master of Public Health Program

Dept. of Public and Community Health

LIBERTY UNIVERSITY

Liberty University | Training Champions for Christ since 1971

LIBERTY UNIVERSITY

DEPARTMENT of PUBLIC
& COMMUNITY HEALTH

I am overjoyed to welcome you to the Graduate School at Liberty University Online as you begin your Master of Public Health (MPH) Online with the Department of Public and Community Health.

For more than 50 years, Liberty University has been committed to God's word and following the established mission of Training Champions for Christ, developing influential leaders who follow God's calling in their life, serving Him to advance His Kingdom. As the Scripture said in 2 Corinthians 5:20, We are Christ's ambassadors, as though God were making his appeal through us. We implore you on Christ's behalf: Be reconciled to God.

We have made our program to equip you with an integrated approach to being Public Health agents of change. We are dedicated to teaching you to address health disparities through a Christian worldview serving those in need, so you will get the values, knowledge, and skills to impact them. MPH program integrates our Christian faith with a solid public health foundation in competency-based and practice-focused to help you in this path. We are here to help!

You may feel amazed by the track you have in front of you; let me give you some advice. Firstly, trust the Lord; He is leading your way as He promised it in Proverbs 3:5-6 Trust in the Lord with all your heart and lean not on your own understanding; in all your ways submit to him, and he will make your paths straight. Secondly, as Dr. Graf said, get to know your gates for the program and your gate coordinator.

Please read this handbook to find out all resources available for you as an online student for the MPH program, and if by any chance you have questions about figuring out where the resources are, do not hesitate to contact us back; we are here to serve you.

“With the possible exception of the equator, everything begins somewhere.” - C.S. Lewis.

Take the courage to walk this path; you are not alone; we are in this together. Here is where you begin.

Faithfully,
Gineska Castillo, MD, MPH, CHES, CPH
Director, Master of Public Health Program Online
Instructional Mentor
Dept. of Public and Community Health
LIBERTY UNIVERSITY
Liberty University | Training Champions for Christ since 1971

Using this Handbook

Welcome to Liberty University's Department of Public and Community Health!

The faculty and staff are excited to partner with you on your journey of becoming a public health professional. You have chosen to pursue an exciting career path that allows you to influence and improve the health of diverse populations.

This student handbook has been designed to guide you through the academic portion of your career development by providing an overview of the policies and procedures of the MPH program at Liberty University. Inside, you will find specific guidelines that are essential for your success in becoming a Master of Public Health graduate. This is the guide for our program and complements the [Residential Graduate Honor Code](#), [LU Online Honor Code](#) and the [Liberty Way](#). Although these are important documents to consult, they do not substitute the interactions with your instructors and other faculty of the program. Faculty are here to help; get to know them and ask for their advice about courses and career options. They are more than willing to be of assistance.

While every effort has been made to ensure the accuracy and currency of the information in this handbook, the official statement of information relating to the MPH degree is the Liberty University [Graduate School Academic Catalog](#).

During Orientation PHGT 510, or after successfully completing HLTH 501 Biostatistics, you will be able to be added to the online **MPH Portal**, which is available as a **non-term course on Canvas**. It will provide important resources to guide you through the MPH program such as jobs and internship opportunities, possible awards, practicum opportunities and information, relevant happenings on campus and community, professional career opportunities, and University resources.

Mission and Purpose

Maintaining the vision of the founder, Dr. Jerry Falwell, Liberty University develops Christ-centered men and women with the values, knowledge, and skills essential to impact the world.

Through its residential and online programs, the University educates men and women who will make important contributions to their workplaces and communities, follow their chosen vocations as callings to glorify God, and fulfill the Great Commission.

Liberty University will:

1. Emphasize excellence in teaching and learning.
2. Foster university-level competencies in communication, critical thinking, information literacy, and mathematics in all undergraduate programs.
3. Ensure competency in scholarship, research, and professional communication in all graduate programs.
4. Promote the synthesis of academic knowledge and Christian worldview in order that there might be a maturing of spiritual, intellectual, social and physical value-driven behavior.
5. Enable students to engage in a major field of study in career-focused disciplines built on a solid foundation in the liberal arts.
6. Promote an understanding of Western tradition and diverse elements of American cultural history, especially the importance of the individual in maintaining democratic and free market processes.
7. Contribute to a knowledge and understanding of other cultures and of international events.
8. Encourage a commitment to the Christian life, one of personal integrity, sensitivity to the needs of others, social responsibility and active communication of the Christian faith, and, as it is lived out, a life that leads people to Jesus Christ as the Lord of the universe and their personal Savior.

DEPARTMENT OF PUBLIC AND COMMUNITY HEALTH

Purpose

The Department of Public and Community Health provides an integrated approach to health, offering competency-based and practice-focused preparation for successful careers in public health and healthcare. Through a Christian worldview, students will learn to strategically address the

health needs of priority populations from the individual to the global level using a variety of health promotion and education strategies.

The department is comprised of programs applicable to a variety of practice settings and situations, as well as further education in the clinical and professional fields. Students completing the program and prerequisites may sit for the exam to become Certified in Public Health as our program is accredited by CEPH. Further, students meeting all required Health Promotion and Education requirements may sit for the Certified Health Education Specialist (CHES) exam through the National Commission for Health Education Credentialing (NCHEC).

Public and Community Health Program

Mission

Embracing the Christian worldview with a commitment to serve the underserved, the Liberty University Public and Community Health Program provides diverse educational, research, and practice opportunities to enable others to experience the embrace of God—“A faithful envoy brings healing” (Proverbs 13:17).

Core Commitments

- ***Intelligent Faith.*** We commit to build all instruction, scholarship, and service on a foundation of biblically-based, scientifically sound, reasonable faith that supports the Christian worldview. (Hebrews 11:1; 1 Thessalonians 5: 21-22)
- ***Servant leadership.*** We commit to serving responsibly in local, global, religious, and professional organizations and communities in the spirit of humility and cooperation, building collaborative relationships, fostering leadership qualities in others, and contributing our knowledge, skills, and resources for the common good. (Mark 10:42-45)
- ***Compassionate service.*** We commit to follow Christ’s example of compassion and benevolence toward those in need through active, altruistic, responsible engagement, using our knowledge and abilities to promote the physical, mental, and spiritual well-being of the people we encounter and the communities we serve. (Matthew 25: 31-40)
- ***Transformational teaching.*** We commit to equip ourselves and others with the requisite knowledge, skills, and attitudes for a lifelong pursuit and application of knowledge and truth to improve our communities and ourselves. (2 Timothy 2:2)
- ***Creative excellence.*** We commit to develop and use our gifts, talents, and resources to the best of our abilities to achieve excellence in teaching, scholarship, and service for the glory of God and the benefit of humanity. (Ecclesiastes 9:10, 1 Corinthians 6: 19-20; Colossians 8:21)
- ***Respect for all.*** We commit to treating all people with dignity and respect, honoring the gifts and unique contributions of each person, fostering a climate that is open and welcoming, promoting the University’s core values, and celebrating the Creator’s diversity in creation and design. (James 2:1-4; Proverbs 24:23)

Public and Community Health Program Goals and Measures

The program's goals addressing instruction, research and service, and relevant measurable outcomes, are shown below.

I - INSTRUCTION

Preparing graduates with the requisite professional skills to excel in public health practice in diverse settings in the state, the nation, and the world.

GOAL I-1.0 Offer effective learning opportunities through curricular and co-curricular experiences to prepare competent public health professionals.

Measurable outcomes

- I-1.1** Number of MPH students passing the competency exam on the first attempt.
- I-1.2** Number of practicum/internship preceptors who rate students as competent in their field of study.
- I-1.3** Number of employers who rate students as competent in their field of study.
- I-1.4** Number of alumni who feel adequately prepared for their current jobs.
- I-1.5** Successful annual review of University-specific program learning outcomes.

GOAL I-2.0 Provide an environment conducive to student learning and professional development.

Measurable outcomes

- I-2.1** Student satisfaction with class size in relation to appropriateness for learning and academic success.
- I-2.2** Number of primary faculty who participate in instructional and professional development activities.
- I-2.3** Student participation in the advisement process.
- I-2.4** Student satisfaction with the availability of faculty.
- I-2.5** Student satisfaction with the academic advising.

GOAL I-3.0 Recruit and retain a diverse, qualified student body.

Measurable outcomes

- I-3.1** Number of MPH students with military service connections (active, veteran, spouse).
- I-3.2** Proportion of underrepresented minorities (URM) enrolled.
- I-3.3** Graduation rate.
- I-3.4** Number of students currently working or continuing their education.

R - RESEARCH

Advancing the field of public health practice through research, scholarship, and other creative endeavors focused on identifying solutions to leading health challenges.

GOAL R-1.0 Engage in research and other scholarly activities to advance the knowledge and practice of public health.

Measurable outcomes

R-1.1 Submission of proposals by primary faculty for extramural or intramural funding for public health research projects.

R-1.2 Number of primary faculty presenting at regional, national, or international professional meetings.

R-1.3 Number of peer-reviewed or other scholarly publications from primary faculty.

R-1.4 Number of primary faculty addressing the needs of vulnerable, at risk, or underserved populations.

R-1.5 Number of primary faculty addressing the relationship between faith and health.

GOAL R-2.0 Nurture student intellectual inquiry into public health knowledge and practice.

Measurable outcomes

R-2.1 Number of primary faculty serving as research mentors for student research projects.

R-2.2 Number of students presenting at sponsored research symposia.

GOAL R-3.0 Support professional development of primary faculty in research and scholarly activity.

Measurable outcomes

R-3.1 Number of primary faculty who maintain current human subjects protection certification.

R-3.2 Number of primary faculty accessing Program funding for professional development.

S - SERVICE

Using education, advocacy, and service by faculty, students, and alumni to facilitate positive health outcomes among diverse populations.

GOAL S-1.0 Address health needs of vulnerable, at risk, and underserved populations through local and global service activities.

Measurable outcomes

S-1.1 Number of primary faculty participating in community service or health advocacy activities.

S-1.2 Number of collaborative projects with local, regional, national, or international organizations that address the public health needs of vulnerable or at risk populations.

GOAL S-2.0 Support preparation, training, and professional development of the public health workforce.

Measurable outcomes

S-2.1 Number of extracurricular training or workforce development opportunities for individuals serving in public health or healthcare functions.

S-2.2 Number of public health and other healthcare professionals enrolled in degree or certificate Programs.

- MPH or BS degree
- Graduate certificate

GOAL S-3.0 Promote student participation in community and public health service.

Measurable outcomes

S-3.1 Number of students serving in public health leadership roles in the University, Program, community, organization, or church.

S-3.2 Number of health activities for vulnerable or at risk populations sponsored by student clubs (Liberty University Public Health Student Association and Eta Sigma Gamma).

S-3.3 Student participation in public health service or advocacy activities addressing the needs of vulnerable or at risk populations.

University Admission Requirements & Resources

ADMISSION REQUIREMENTS

In addition to the general admission requirements for the university, admission to candidacy in the *Master of Public Health* program requires:

1. Earned baccalaureate degree or its equivalent from an institution accredited by an agency recognized by the U.S. Department of Education. Official college transcripts must be mailed directly from your college to Liberty University in an official, sealed envelope.
 - Full Admission- Have a regionally or nationally accredited bachelor's degree with a least a 3.0 GPA (on a 4.0 scale).
 - Advisory Admission- Have a regionally or nationally accredited bachelor's degree with at least a 2.5 GPA ranging from 2.5-2.99 (on a 4.0 scale).

Mailing Address for transcripts: 1971 University Blvd.
MSC Box **710177**
Lynchburg, VA 24515

2. \$50 application fee (*beginning Fall 2016, the application fee will be deferred and assessed during Financial Check-In*).
3. [Self-Certification Form](#) (for students in the final term of their bachelor's degree).
4. Current Liberty undergraduate students seeking preliminary acceptance into a graduate program must complete a [Graduation Application](#) through the provided link.
5. [Additional Admission Requirements for International Students](#)
6. Technology Questionnaire: Computer access and literacy for word processing, Internet, and e-mail are required for all graduate students. This form is available online.
7. Test of English as a Foreign Language (TOEFL) (if applicable)
8. Students who do not meet the minimum GPA requirement can be admitted with Advisory Admission. These students need to take and pass GRST 500 – *Introduction to Graduate Writing* and HLTH 500 – *Introduction to Public Health* in the first semester to ensure success in the program. Students without a background in Public Health are expected to take the and pass GRST 500 – *Introduction to Graduate Writing* and HLTH 500 – *Introduction to Public Health* in the first semester to ensure success in the program. Students who have less than an undergraduate 2.50 GPA will not be admitted to the program.
9. The Master of Public Health program uses a gate system to monitor student progress and assist with success in completing their MPH degree. The gates also help transition students into a career in public health. All students are required to complete all 4 gate courses, in addition to their coursework, to graduate from the MPH program..

TRANSFER CREDIT

Students may transfer up to twenty-one (21) graduate credit hours from an accredited institution subject to department approval. In order to transfer credit, students must have earned the minimum grade of B- and courses must have been completed within 10 years of the start date of the program. Credits from a prior degree on the same academic level earned through Liberty University are considered transfer credits.

INTERNATIONAL STUDENT RESOURCES

International Student Services

Liberty University is changing lives, one degree at a time. Liberty is also changing the world, one international student at a time! We enroll between 700- 900 international students from 70- 90 foreign countries depending on the semester.

We understand challenges students face living and learning in an unfamiliar language and climate. Our friendly, Christian setting helps students to learn, grow, and belong. The English Language Institute (ELI) at Liberty helps students achieve the language proficiency they need to succeed in an academic English environment.

C. Daniel Kim International Student Center (ISC)

Location: Second floor of DeMoss Hall, Room 2232

Hours: 8:00 a.m. – 4:30 p.m. Monday-Friday

Email: isc@liberty.edu

Phone: (434) 592-4118

The Center for Student Academic Success

Liberty University's CASAS will help you achieve your academic goals through a range of resources including tutoring services, the writing center, and success study courses. CASAS can also provide you with Academic mentoring, workshops, extra virtual learning opportunities, and a collection of tips and resources designed to help you be successful as a student in an academic setting. The Center is set up to serve both Residential and Online students.

FACULTY ADVISORS

Liberty University Online Academic Advising department is dedicated to serving online students by delivering the most accurate and up-to-date information regarding academic and university programs, policies, and procedures. Through individual advising, students can take advantage of personalized degree completion planning and enrollment services by interacting with Academic Advising.

For information and concerns please contact the Academic Advising Department by phone or email at: (800) 424-9595 or LUOadvising@liberty.edu.

Additionally, residential students can contact one of the faculty advisors assigned to their MPH concentration for help with course sequencing.

Community Health Promotion

Master of Public Health Degree Requirements

COURSE REQUIREMENTS

The Master of Public Health is a 42-hour program that offers five concentrations: Global Health, Community Health Promotion, Nutrition, Epidemiology, and Environmental Health.

Global Health, Community Health Promotion, and Nutrition are offered in both residential and online formats. Epidemiology is only offered residentially. Environmental Health is offered only online. Students complete 18 core hours in six disciplines: biostatistics, epidemiology, environmental health sciences, health policy management, social behavioral sciences, and public health research. Students also complete 4 Gate Courses: PHGT 510, 512, 513, 514. These Gate courses are combined with 15 credit hours in one of the concentrations named above, including 6 hours in two electives, and 3 credit hours in the Practicum to complete the program.

(MPH) Master of Public Health (42 hrs.): Online and Residential Formats		
Core Courses (18 hrs.)		Credits
<u>HLTH 501</u>	Biostatistics	3
<u>HLTH 503</u>	Principles of Epidemiology	3
<u>HLTH 505</u>	Principles of Environmental Health	3
<u>HLTH 507</u>	Public Health Administration	3
<u>HLTH 509</u>	Social and Behavioral Theory Applications in Public Health	3
<u>HLTH 511</u>	Research Methods in Public Health	3
<u>PHGT 510</u>	Public Health Orientation	0
<u>PHGT 512</u>	Public Health Essay	0
<u>PHGT 513</u>	Public Health Portfolio	0
<u>PHGT 514</u>	Competency Exam	0
Concentration Courses (15 hrs.)		
Select from the following concentrations: Global Health, Community Health Promotion, Nutrition, Epidemiology, or Environmental Health. *		
Elective Courses (6 hrs.)		
Practicum Course (3 hrs)		

CONCENTRATIONS

GLOBAL HEALTH CONCENTRATION

The student will be able to apply public health strategies in cross-cultural settings.

(MPH) Master of Public Health - Global Health Concentration (18 hrs.)		
Core Courses (18hrs)		
Global Health Concentration Courses (15 hrs.) Practicum (3hrs)		Credits
HLTH 620	Introduction to Global Health	3
HLTH 622	Primary Healthcare in Developing Countries	3
HLTH 623	Cultural Aspects of Health Behavior	3
HLTH 624	Sanitation in Developing Countries	3
HLTH 625	Prevention and Control of Infectious Diseases	3
HLTH 698	Practicum	3
Elective Courses (6 hrs.) Choose any 500 to 600 level HLTH courses not already applying to the degree. Graduate level courses other than HLTH may be accepted, but only with program approval. Requests may be submitted, with justification, to the Chair..		6

NUTRITION CONCENTRATION

The student will be able to apply best practices in human nutrition for diverse populations.

(MPH) Master of Public Health - Nutrition Concentration (18 hrs.)		
Core Courses (18 hrs.)		
Nutrition Concentration Courses (15 hrs.) Practicum (3hrs)		Credits
HLTH 640	Principles of Nutrition	3
HLTH 642	Food-borne Illness Prevention	3
HLTH 643	Nutrition and Chronic Disease	3
HLTH 644	Diabetes, Obesity and Eating Disorders	3
HLTH 645	Performance Nutrition for the Physically Active	3
HLTH 698	Practicum	3
Elective Courses (6 hrs.) Choose any 500 to 600 level HLTH courses not already applying to the degree. Graduate level courses other than HLTH may be accepted, but only with program approval. Requests may be submitted, with justification, to the Chair.		6

COMMUNITY HEALTH PROMOTION CONCENTRATION

The student will be able to apply Community Health Promotion and Health Education best practices to populations.

(MPH) Master of Public Health – Community Health Promotion Concentration (18 hrs.)		
Core Courses (18 hrs.)		
Community Health Promotion Concentration Courses (15 hrs.) Practicum (3hrs)		Credits
HLTH 630	Principles of Community Health	3
HLTH 632	Health Program Planning	3
HLTH 633	Health Program Evaluation	3
HLTH 634	Health Communication and Advocacy	3
HLTH 635	Health Agency Management	3
HLTH 698	Practicum	3
Elective Courses (6 hrs.) Choose any 500 to 600 level HLTH courses not already applying to the degree. Graduate level courses other than HLTH may be accepted, but only with program approval. Requests may be submitted, with justification, to the Chair.		6

EPIDEMIOLOGY CONCENTRATION

The student will be able to identify data needs and evaluate analytic methods for calculating standard epidemiological measures. (*Residential Only Program*)

(MPH) Master of Public Health - Epidemiology Concentration (18 hrs.)		
Core Courses (18 hrs.)		
Nutrition Concentration Courses (18 hrs.)		Credits
HLTH 552	Chronic Disease Prevention Management	3
HLTH 625	Prevention & Control of Infectious Diseases	3
HLTH 642	Food-borne Illness Prevention	3
HLTH 650	Field Epidemiology	3
HLTH 651	Epidemiologic Research Methods	3
HLTH 698	Practicum	3
Elective Courses (6 hrs.) *(1) HLTH 652 Data Visualization & Spatial Analysis & (1) Choose one of the following courses for which prerequisites have been met: 500-600 HLTH course not already required in the degree.		6

ENVIORNMENTAL HEALTH CONCENTRATION

Th student will be able to identify data needs and evaluate analytic methods for calculating standard epidemiological measures. (*Online Only Program*)

(M.P.H.) Master of Public Health – Environmental Concentration (18 hrs.)		
Core Courses (18 hrs.)		
Environmental Health Concentration Courses (15 hrs.) Practicum (3hrs)		Credits
<u>HLTH 624</u>	Sanitation in Developing Countries	3
<u>HLTH 660</u>	Water, Soil, and Health	3
<u>HLTH 661</u>	Toxicology	3
<u>HLTH 662</u>	Environmental Health Agencies and Policy	3
<u>HLTH 663</u>	Environmental Risk Assessment	3
<u>HLTH 698</u>	Practicum	3
Elective Courses (6 hrs.) Choose any 500 to 600 level HLTH courses not already applying to the degree. Graduate level courses other than HLTH may be accepted, but only with program approval. Requests may be submitted, with justification, to the Chair.		6

Degree Completion Plans (DCP)

Degree Completion Plans for the Master of Public Health program are available online from the Registrar's webpage at <https://www.liberty.edu/academics/registrar/>

Suggested Course Sequence

GLOBAL HEALTH CONCENTRATION

RESIDENTIAL – FALL ENTRY				
Fall - year 1	Spring - year 1	Fall - year 2	Spring - year 2	Summer (or Fall)
HLTH 501*	HLTH 505	HLTH 507	PHGT514	HLTH 698 [^]

PHGT510	PHGT512	elective	HLTH 625	
		PHGT513		

LIBERTY UNIVERSITY ONLINE (DISTANCE EDUCATION)							
Term 1	Term 2	Term 3	Term 4	Term 5	Term 6	Term 7 (16-weeks)	
B or D	B or D	B or D	B or D	B or D	B or D	B	D
HLTH 501	HLTH 507	HLTH 505	HLTH 509	HLTH 511- B term only	HLTH 624	Elective	Elective
PHGT510	HLTH 620	HLTH 503	HLTH 622	HLT 623	HLTH 625	HLTH 698 [^] This course is a 16-week A term course	
	PHGT512			PHGT 513- D term only	PHGT 514		

*Students admitted with a GPA of 2.5-2.99 or without a background in Public Health should take HLTH 500 in the first semester and delay HLTH 501 until the second semester. Affected students should speak to a faculty advisor concerning appropriate course sequencing to meet their needs. Online students may only enroll in HLTH 501 in the second term after successful completion of HLTH 500.

[^]Students are required to complete all core and concentration courses prior to enrollment in **HLTH 698**. The Practicum course requires 120 hours at a worksite and the completion of a full course/project paper. The site will usually be off campus, may require distant travel, and will require an extensive writing project; therefore, students are strongly advised to take only this course in the recommended semester. Students should seek a faculty advisor early in the program for alternative course sequencing advice should their financial aid require taking three or more classes each term.

B or D	B or D	B or D	B or D	B or D	B or D	B	D
HLTH 501*	HLTH 503	HLTH 505	HLTH 509	HLTH 511- B term only	HLTH 644	Elective	Elective
PHGT510	HLTH 640	HLTH 507	HLTH 642	HLTH 643	HLTH 645	HLTH 698^ This is a 16-week Aterm course.	
	PHGT512			PHGT 513- D term only	PHGT 514		

* Students admitted with a GPA of 2.5-2.99 or without a background in Public Health should take HLTH 500 in the first semester and delay HLTH 501 until the second semester. Affected students should speak to a faculty advisor concerning appropriate course sequencing to meet their needs. Online students may only enroll in HLTH 501 in the second term after successful completion of HLTH 500.

^Students are required to complete all core and concentration courses prior to enrollment in **HLTH 698**. The Practicum course requires 120 hours at a worksite and the completion of a full course/project paper. The site will usually be off campus, may require distant travel, and will require an extensive writing project; therefore, students are strongly advised to take only this course in the recommended semester. Students should seek a faculty advisor early in the program for alternative course sequencing advice should their financial aid require taking three or more classes each term.

Revised Summer 2022

Graduate Certificates

Three certificates, corresponding to the current concentration areas in the Master of Public Health degree, are available to students wanting to broaden their understanding of an additional concentration area or explore a particular concentration area without obtaining an MPH degree.

CERTIFICATE COMPLETION REQUIREMENTS

1. 15-24 total credit hours corresponding to the concentration area on the Master of Public Health degree completion plans.
2. All courses must be completed through Liberty University.
3. No grade of D (includes grades of D+ and D-) may be applied to the certificate.
4. Certificate must be completed within 3 years.
5. Submit a Certificate Completion Application to the Registrar's Office at the beginning of the final semester.

GRADUATE CERTIFICATE IN GLOBAL HEALTH

Global Health students will be able to apply the principles of and incorporate best practices in global health as they relate to public health, disease prevention, and improved quality of life among various populations.

Graduate Certificate in Global Health (15 hrs.)		
HLTH 620	Introduction to Global Health	3
HLTH 622	Primary Healthcare in Developing Countries	3
HLTH 623	Cultural Aspects of Health Behavior	3
HLTH 624	Sanitation in Developing Countries	3
HLTH 625	Prevention and Control of Infectious Diseases	3

GRADUATE CERTIFICATE IN HEALTH PROMOTION

Students will be able to apply the principles of and incorporate best practices in health promotion as they relate to public health, disease prevention, and improved quality of life among various populations.

Graduate Certificate in Health Promotion (15 hrs.)		
HLTH 630	Principles of Community Health	3
HLTH 632	Health Program Planning	3
HLTH 633	Health Program Evaluation	3
HLTH 634	Health Communication and Advocacy	3
HLTH 635	Health Agency Management	3

GRADUATE CERTIFICATE IN EPIDEMIOLOGY

Students who choose to obtain a certificate in epidemiology will learn how to investigate patterns and causes of disease or injury. In these certificate courses, students will also learn how to reduce the risk and occurrence of negative health outcomes as they engage in research centered on community education and health policy.

Graduate Certificate in Epidemiology (24 hrs.)		
HLTH 501	Biostatistics	3
HLTH 503	Principles of Epidemiology	3
HLTH 511	Health Research Methods	3
HLTH 552	Chronic Disease Prevention and Management	3
HLTH 625	Prevention and Control of Infectious Diseases	3
HLTH 642	Food-borne Illness Prevention	3
HLTH 650	Field Epidemiology	3
HLTH 651	Epidemiologic Research Methods	3

GRADUATE CERTIFICATE IN NUTRITION

Nutrition students will be able to apply the principles of and incorporate best practices in human nutrition as they relate to public health, disease prevention, and improved quality of life among various populations.

Graduate Certificate in Nutrition (15 hrs.)		
HLTH 640	Principles of Nutrition	3
HLTH 642	Food-borne Illness Prevention	3
HLTH 643	Nutrition and Chronic Disease	3
HLTH 644	Diabetes, Obesity and Eating Disorders	3
HLTH 645	Performance Nutrition for the Physically Active	3

Department of Public and Community Health
Master of Public Health Degree

Alignment of Foundational and Concentration
Competencies with
Course Learning Outcomes (CLO) & Specific Assessment
Opportunities (SAO) and Associated Program Sphere (PS)

Initiated Fall 2017

Modified April 29, 2020

Updated December 2021

The following tables are designed to give you, the student, an overview of the foundational and concentration competencies of the MPH Program at Liberty University and their alignment with specific assessment opportunities. These assessment opportunities appear as learning activities in your core and other courses. Each one was selected as an indicator of your attainment of the competency it is aligned to and may be reported in your Electronic Student Portfolio (ESP).

- Table A shows each of the MPH program's foundational competencies and where in the core curriculum they are addressed in a primary way (with substantive assessment) or reinforced with in other ways.
- Table B shows the how the Program spheres connect to the foundational competencies. They are adapted from the *domains* used by the Council on Linkages between Academia and Public Health Practice.
- Table C shows each of the foundational competencies as they are aligned to Program spheres, selected course learning outcomes & specific assessment opportunities. There are other assessment opportunities throughout the program of study, but the ones appearing in this table were selected as representative indicators of the attainment of the aligned competencies. They may be used as partial documentation of this attainment and added to your ESP.
- Table D is added for your convenience in identifying which foundational competencies are addressed in a core course in which you are enrolled.
- Table E shows specialization competencies for each of the MPH concentration courses and practicum. Note these are listed as being only reinforced (R) in the practicum. That is because only those concentration competencies that you elect to attain in you applied practical experience will be addressed, and only through your efforts in your practicum project.

TABLE A: FOUNDATIONAL CEPH PROGRAM COMPETENCIES WITHIN THE MPH CORE COURSES		HLTH 501 Biostatistics	HLTH 503 Epidemiology	HLTH 505 Envir. Health	HLTH 507 Hlth. Admin.	HLTH 509 Soc. & Behav. Theory	HLTH 511 Research Methods
	<i>P=Primary content (assessed); R=Reinforced in course</i>						
1	Apply epidemiological methods to the breadth of settings and situations in public health practice.		P		R		R
2	Select quantitative and qualitative data collection methods appropriate for a given public health context.	P	R	R		R	P
3	Analyze quantitative and qualitative data using biostatistics, informatics, computer-based programming and software, as appropriate.	P	R	R			P
4	Interpret results of data analysis for public health research, policy or practice.	P	P	R		R	R
5	Compare the organization, structure and function of health care, public health and regulatory systems across national and international settings.			P	P		
6	Discuss the means by which structural bias, social inequities and racism undermine health and create challenges to achieving health equity at organizational, community and societal levels.		R		P	P	
7	Assess population needs, assets and capacities that affect communities' health.		R	R	R	P	P
8	Apply awareness of cultural values and practices to the design or implementation of public health policies or programs.			P	P		
9	Design a population-based policy, program, project or intervention.				P	P	
10	Explain basic principles and tools of budget and resource management.				P	P	
11	Select methods to evaluate public health programs.			R	R	P	P
12	Discuss multiple dimensions of the policy-making process, including the roles of ethics and evidence.			R	P		
13	Propose strategies to identify stakeholders and build coalitions and partnerships for influencing public health outcomes.			R	R	P	P
14	Advocate for political, social or economic policies and programs that will improve health in diverse populations.			P	R	P	
15	Evaluate policies for their impact on public health and health equity.			R	P	P	
16	Apply principles of leadership, governance, and management, which include creating a vision, empowering others, fostering collaboration and guiding decision-making.		R	P	P		
17	Apply negotiation and mediation skills to address organizational or community challenges.			R	P	P	
18	Select communication strategies for different audiences and sectors.		P	P	R	R	R
19	Communicate audience-appropriate public health content, both in writing and through oral presentation.	P	P	R	R	R	R
20	Describe the importance of cultural competence in communicating public health content.			P	P	R	
21	Perform effectively on interprofessional teams.			R	P	P	R
22	Apply systems thinking tools to a public health issue.			P	P		

Program Spheres

TABLE B	
PROGRAM SPHERES* (PS) OF THE MPH CORE CURRICULUM	
PS1	Analytical & Assessment Skills. Determine population health status, needs, and resources using appropriate assessment and analytical methods.
PS2	Policy Development & Program Planning Skills. Develop, implement, and evaluate public health programs and policies to address identified determinants of health.
PS3	Communication and Advocacy Skills. Demonstrate effective written, oral, and electronic methods of communicating health information and advocating for health with diverse audiences.
PS4	Cultural Competency Skills. Develop public health interventions that address disparities and inequalities in health access and health status in the context of culture, race, gender, and economics.
PS5	Community Dimensions of Practice Skills. Engage community constituencies in collaborative relationships to develop and employ community capacity for health.
PS6	Public Health Sciences Skills. Describe the scientific basis for public health problems and apply public health solutions to address them.
PS7	Financial Planning & Management Skills. Describe public health philosophy and organization, including infrastructure, funding, delivery, and fiscal and workforce management in the U.S. and globally.
PS8	Leadership & Systems Thinking Skills. Apply principles of public health leadership, including systems thinking, group process, social justice, and ethics.
PS9	Spiritual Formation Skills. Describe health from the perspective of God's purposes for humanity in creation, fall, and redemption.

***Program Spheres** are the original Program Learning Outcomes (PLOs) adopted for the LU Public Health Program and currently used in internal University and Program evaluations. They are adapted from the eight domains of [Core Competencies for Public Health Professionals](#) adopted by the *Council on Linkages between Academia and Public Health Practice* in 2014 with an additional spiritual domain added unique to the Program. Similar to “domains,” the 22 Foundational Competencies of the Program fall into one or more of these program spheres (see Table C for alignment).

Foundational Competencies Aligned to Program Sphere

TABLE C

MPH FOUNDATIONAL COMPETENCIES ALIGNED TO PROGRAM SPHERE, SELECTED COURSE LEARNING OUTCOMES & SPECIFIC ASSESSMENT OPPORTUNITIES

Program Sphere*	FOUNDATIONL COMPETENCY	REPRESENTATIVE COURSE & COURSE LEARNING OUTCOMES	SPECIFIC ASSESSMENT OPPORTUNITIES
PS 1	1. Apply epidemiological methods to the breadth of settings and situations in public health practice.	HLTH 503 Principles of Epidemiology Analyze public health data using appropriate epidemiologic measures to describe a population-based health problem.	R&O: Epidemiologic measures exercises Complete assigned exercises to strengthen skills in epidemiologic methods.
		HLTH 503 Principles of Epidemiology Describe a public health problem in terms of magnitude, person, place, and time.	R&O: PPT presentation project Prepare a PowerPoint talk on an epidemiologic investigation of infectious disease.
PS1	2. Select quantitative and qualitative data collection methods appropriate for a given public health context.	HLTH 501 Biostatistics Apply basic informatics techniques with vital statistics and public health records to describe a public health problem HLTH 511 Research Methods in Public Health Develop health assessment tools to collect information about health status and determinants of health.	R&O: Case study analysis Analyze data from a given population study, determining appropriateness of data collection methods in comparison to others. R&O: Qualitative Data Collection and Analysis Methods Students propose data collection and analysis methods for a qualitative scenario.
PS 1,3	3. Analyze quantitative and qualitative data using biostatistics, informatics, computer-based programming and software, as appropriate.	HLTH 501 Biostatistics Critically analyze, evaluate, and interpret results from descriptive and inferential statistical procedures.	R&O: Case study analysis Perform tests of association on categorical data and interpret findings to address a public health problem.
		HLTH 511 Research Methods in Public Health Use information technology to access, collect, analyze, and maintain epidemiologic data.	R&O: SPSS homework; NVivo analysis Use statistical methods to analyze quantitative and qualitative data in assigned questions.
PS 1,3	4. Interpret results of data analysis for public health research, policy, or practice.	HLTH 501 Biostatistics Critically analyze, evaluate, and interpret results from descriptive and inferential statistical procedures.	R&O: Case study analysis Analyze and interpret data in a case study.
		HLTH 503 Principles of Epidemiology Apply evidence-based reasoning to draw appropriate inferences from epidemiologic data.	R&O: PowerPoint presentation project Interpret epidemiologic data and make recommendations for a public health intervention for an infectious disease.
PS 7	5. Compare the organization, structure and function of health care, public health, and regulatory systems across national and international settings.	HLTH 505 Principles of Environmental Health Describe international, federal, and state regulatory programs, policies, and authorities that address environmental health issues.	R&O: Environmental health research paper Compare agencies, policies, and systems useful in the mitigation of an environmental issue.
		HLTH 507 Public Health Administration	R&O: Professional skill activity; Discussion forum

		Describe the major components of the organization, financing, and delivery of health services by public health systems in the U.S. and selected countries.	Compare and contrast public health systems from selected countries.
PS 2,4	6. Discuss the means by which structural bias, social inequities, and racism undermine health and create challenges to achieving health equity at organizational, community, and societal levels.	HLTH 507 Public Health Administration Articulate an evidence-based policy process for reducing disparities and improving the health of diverse populations.	R&O: Policy brief Describe a racial or social health disparity and factors that contribute to it. Develop a policy brief to address one of those factors.
		HLTH 509 Social & Behavioral Theory Applications Identify social, cultural, and behavioral factors that influence health disparities and affect population health.	R&O: Article reviews Identify and discuss social, cultural, and behavioral factors that influence health inequalities described in a journal article.
PS 1	7. Assess population needs, assets and capacities that affect communities' health.	HLTH 509 Social & Behavioral Theory Applications Identify community needs, assets, and deficits for social and behavioral interventions.	R: Theory application paper Identify needs, assets, and deficits as the basis for a public health intervention writeup. O: Learning activity Use secondary data sources to explore health determinants for a selected population.
		HLTH 511 Research Methods in Public Health Develop health assessment tools to collect information about health status and determinants of health.	R&O: Health intervention program or research project Develop survey items for an assessment instrument
PS 4,3,9	8. Apply awareness of cultural values and practices to the design or implementation of public health policies or programs.	HLTH 507 Public Health Administration Develop public health programs and policies responsive to the diverse cultural values and traditions of the communities served.	R&O: Policy brief Incorporate aspects of cultural competency into policy brief addressing a health disparity.
		HLTH 505 Principles of Environmental Health Discuss risk management and risk communication in relation to issues of environmental justice and equity.	R&O: Research project Communicate research findings effectively to selected audiences.
PS	9. Design a population-based policy, program, project, or intervention.	HLTH 507 Public Health Administration Develop public health programs and policies responsive to the diverse cultural values and traditions of the communities served.	R&O: Policy brief Design a population-based policy & describe it in a policy brief.
		HLTH 509 Social & Behavioral Theory Applications Apply theory-driven, evidence-based, ethical principles to the development and evaluation of social and behavioral interventions.	R: Theory application paper Design a culturally appropriate, population-based health program using behavioral theory. O: Learning activity In a series of learning activities, identify components of a culturally appropriate, population-based health intervention incorporating behavioral theory.
PS 2	10. Explain basic principles and tools of budget and resource	HLTH 507 Public Health Administration Apply principles of planning, budgeting, and management to efforts to assure the public's health, safety, and preparedness.	R: Collaborative integration project Design a budget for use by a community coalition. O: Discussion forum Apply principles of participatory

	management.		budgeting for an organization in a case study.
		HLTH 509 Social & Behavioral Theory Applications	R&O: Theory application paper

		Describe steps and procedures for planning, implementing, and evaluating public health programs and policies.	Include a budget in plans for a population-based intervention. O: Discussion forum Discuss key components of an organizational operating budget and its management.
PS 2,5	11. Select methods to evaluate public health programs.	HLTH 509 Social & Behavioral Theory Applications Describe steps and procedures for planning, implementing, and evaluating public health programs and policies.	R: Theory application paper Include an effective process and outcome evaluation plan for a population-based intervention. O: Discussion forum Discuss appropriateness of evaluation methods used in a public health intervention described in a journal article.
		HLTH 511 Research Methods in Public Health Compare and contrast purposes and methods used in program evaluation.	R: Evaluation activity Examine evaluation methods of a program by type of evaluation and discuss its appropriateness. O: Article reviews From article reviews, identify best methods for selected program evaluations.
PS 2,8	12. Discuss multiple dimensions of the policy-making process, including the roles of ethics and evidence.	HLTH 507 Public Health Administration Articulate an evidence-based policy process for reducing disparities and improving the health of diverse populations.	R&O: Policy brief Students must analyze a public health problem, examine several potential policies that may solve this problem, and provide their own recommended policy solution.
		HLTH 507 Public Health Administration Describe the legal and ethical basis for public health and health services delivery.	R: Professional skill activity O: Discussion board forum Students are provided with two reports and are asked to describe the policy making process in generalities, then apply this process by discussing how they would practice public health ethics and advocate for this goal in state legislature.

PS 5	13. Propose strategies to identify stakeholders and build coalitions and partnerships for influencing public health outcomes.	HLTH 509 Social & Behavioral Theory Applications Enlist community stakeholders in planning and advocating for public health programs and policies.	R: Theory application paper Identify critical stakeholders in a population-based intervention. O: Learning activity Generate a list of best practices to identify stakeholders for a coalition.
PS 3, 5	14. Advocate for political, social, or economic policies and programs that will improve health in diverse populations.	HLTH 505 Principles of Environmental Health Advocate for environmental health programs and policies through the public and private sectors.	R&O: Environmental health research paper. Paper includes advocacy strategies to address an environmental health issue through a systems approach in a selected population.

PS 2	15. Evaluate policies for their impact on public health and health equity.	<p>HLTH 507 Public Health Administration Articulate an evidence-based policy process for reducing disparities and improving the health of diverse populations.</p>	<p>R&O: Policy brief Create a policy designed to mitigate a health disparity.</p>
		<p>HLTH 509 Social & Behavioral Theory Applications Describe steps and procedures for planning, implementing, and evaluating public health programs and policies.</p>	<p>R: Theory application paper Evaluate the implications of adopting an intervention in a selected priority population. O: Learning activity Evaluate the implications and unintended consequences of adopting an intervention in a selected priority population.</p>
PS 7,6	16. Apply principles of leadership, governance, and management, which include creating a vision, empowering others, fostering collaboration, and guiding decision-making.	<p>HLTH 507 Public Health Administration Describe quality and performance management principles for organizational and personnel improvement.</p>	<p>R&O: Professional Skill Activity Students practice leadership skills of creating a vision, empowering others, fostering collaboration, and guiding decision-making in the context of scenario building to envision a better organizational future.</p>
		<p>HLTH 505 Principles of Environmental Health Design a public health intervention or research project from vision to action.</p>	<p>R&O: Environmental Conservation Presentation Develop a coalition to address in a systematic manner an environmental conservation issue that impacts human health.</p>
P	17. Apply negotiation and mediation skills to address organizational or community challenges.	<p>HLTH 507 Public Health Administration Negotiate appropriate roles and relationships in public and private sectors supporting a systems approach to the delivery of essential public health services.</p>	<p>R: Collaborative integration project Use negotiation and mediation skills on a coalition in an emergency response exercise. O: Discussion board Use negotiation and mediation skills to reach agreement in a case scenario.</p>
PS 3,8	18. Select communication strategies for different audiences and sectors.	<p>HLTH 503 Principles of Epidemiology Effectively communicate epidemiologic information to lay and professional audiences.</p>	<p>R&O: PPT presentation project Communicate recommendations for a public health intervention in an epidemiologic investigation of an infectious disease at both professional and lay levels.</p>
		<p>HLTH 505 Principles of Environmental Health Discuss risk management and risk communication in relation to environmental justice and equity.</p>	<p>R&O: Conservation effort Create a PPT presentation to promote environmental justice.</p>
PS 3	19. Communicate audience-appropriate public health content, both in writing and through oral presentation.	<p>HLTH 501 Biostatistics Develop written and oral presentations reporting statistical analyses for selected audiences.</p>	<p>R&O: Case study analysis Prepare a written and oral presentation of a case study.</p>
		<p>HLTH 503 Principles of Epidemiology Effectively communicate epidemiologic information to lay and professional audiences.</p>	<p>R&O: PPT presentation project Communicate recommendations for a public health intervention in an epidemiologic investigation of an infectious disease at both professional and lay levels.</p>

	20. Describe the importance of cultural competency in communicating public health content.	HLTH 507 Public Health Administration Develop public health programs and policies responsive to the diverse cultural values and traditions of the communities served.	R&O: Policy brief Incorporate principles of cultural competency in a policy designed to mitigate a health disparity.
PS 5	21. Perform effectively on interprofessional teams.	HLTH 509 Social Behavioral Theory Identify best practices of interprofessional collaboration to support public health policies and programs	R&O: Interprofessional Experience Group Collaborative Assignment Students work within a group setting to address a public health problem in an interprofessional manner.
PS 8,5	22. Apply systems thinking tools to a public health issue.	HLTH 505 Principles of Environmental Health Apply systems thinking for resolving public health problems.	R&O: Environmental health research paper Paper includes advocacy strategies to address an environmental health issue through a systems approach in a selected population.
		HLTH 507 Public Health Administration Negotiate appropriate roles and relationships in public and private sectors supporting a systems approach to the delivery of essential public health services.	R&O: Emergency preparedness plan Create a community emergency preparedness plan in a systems approach.

R = Residential; O = Online

Foundational Competency Alignment in Core Courses

**TABLE D
FOUNDATIONAL COMPETENCY ALIGNMENT IN CORE COURSES**

HLTH 501 BIOSTATISTICS	
FOUNDATIONAL COMPETENCY	SPECIFIC ASSESSMENT OPPORTUNITIES
2. Select quantitative and qualitative data collection methods appropriate for a given public health context.	R&O: Case study analysis Analyze data from a given population study, determining appropriateness of data collection methods in comparison to others.
3. Analyze quantitative and qualitative data using biostatistics, informatics, computer-based programming and software, as appropriate.	R&O: Case study analysis Perform tests of association on categorical data and interpret findings to address a public health problem..
4. Interpret results of data analysis for public health research, policy or practice.	R&O: Case study analysis Analyze and interpret data in a case study.
19. Communicate audience-appropriate public health content, both in writing and through oral presentation.	R&O: Case study analysis Prepare a written and oral presentation of a case.

HLTH 503 PRINCIPLES OF EPIDEMIOLOGY	
FOUNDATIONAL COMPETENCY	SPECIFIC ASSESSMENT OPPORTUNITIES
1. Apply epidemiological methods to the breadth of settings and situations in public health practice.	R&O: Epidemiologic measures exercises Complete assigned exercises to strengthen skills in epidemiologic methods. R&O: PowerPoint presentation project Prepare a PowerPoint presentation on epidemiologic investigation of an infectious disease.
4. Interpret results of data analysis for public health research, policy or practice.	R&O: PowerPoint presentation project Interpret epidemiologic data and make recommendations for a public health intervention for an infectious disease.
18. Select communication strategies for different audiences and sectors.	R&O: PowerPoint presentation project Communicate recommendations for a public health intervention in an epidemiologic investigation of an infectious disease at both professional and lay levels.
19. Communicate audience-appropriate public health content, both in writing and through oral presentation.	R&O: PowerPoint presentation project Communicate recommendations for a public health intervention in an epidemiologic investigation of an infectious disease at both professional and lay levels.

HLTH 505 PRINCIPLES OF ENVIRONMENTAL HEALTH

FOUNDATIONAL COMPETENCY	SPECIFIC ASSESSMENT OPPORTUNITIES
5. Compare the organization, structure and function of health care, public health and regulatory systems across national and international settings.	R&O: Environmental health research paper Compare agencies, policies, and systems useful in the mitigation of an environmental issue.
14. Advocate for political, social or economic policies and programs that will improve health in diverse populations.	R&O: Environmental health research paper Paper includes advocacy strategies to address an environmental health issue through a systems approach in a selected population
16. Apply principles of leadership, governance and management, which include creating a vision, empowering others, fostering collaboration and guiding decision- making.	R&O: Health intervention program or research project Develop a coalition to address in a systematic manner an environmental conservation issue that impacts human health.
18. Select communication strategies for different audiences and sectors.	R&O: Conservation effort Create a PowerPoint presentation to promote environmental justice.
22. Apply systems thinking tools to a public health issue.	R&O: Environmental health research paper Paper include advocacy strategies to address an environmental health issue through a systems approach in a selected population.

HLTH 507 PUBLIC HEALTH ADMINISTRATION

FOUNDATIONAL COMPETENCY	SPECIFIC ASSESSMENT OPPORTUNITIES
5. Compare the organization, structure and function of health care, public health and regulatory systems across national and international settings.	R: Professional skill activity Compare and contrast public health systems from selected countries. O: Discussion forum Compare and contrast public health systems from selected countries.
6. Discuss the means by which structural bias, social inequities and racism undermine health and create challenges to achieving health equity at organizational, community and societal levels.	R&O: Policy brief Describe a racial or social health disparity and factors that contribute to it. Develop a policy brief to address one of those factors.
8. Apply awareness of cultural values and practices to the design or implementation of public health policies or programs.	R&O: Policy brief Demonstrate cultural competence in the development of a policy brief addressing a health disparity.
9. Design a population-based policy, program, project or intervention.	R&O: Policy brief Design a population-based policy & describe it in a policy brief.
10. Explain basic principles and tools of budget and resource management.	R: Collaborative integration project Design a budget for use by a community coalition and discuss its management.

	<p>O: Discussion forum Apply principles of participatory budgeting for an organization in a case study.</p>
12. Discuss multiple dimensions of the policy-making process, including the roles of ethics and evidence.	<p>R&O: Policy brief Develop a policy brief to mitigate a disparate public health problem or health care issue. R: Professional skill activity PSA O: Discussion forum Students are provided with 2 reports and asked to describe the policy making process in generalities then apply this process by discussing how they would practice public health ethics and advocate for this goal in state legislature.</p>
15. Evaluate policies for their impact on public health and health equity.	<p>R&O: Policy brief Create a policy designed to mitigate a health disparity.</p>
16. Apply principles of leadership, governance and management, which include creating a vision, empowering others, fostering collaboration and guiding decision-making.	<p>R&O: Professional Skill Activity Students practice leadership skills of creating a vision, empowering others, fostering collaboration, and guiding decision making in the context of scenario building to envision a better organizational future.</p>
17. Apply negotiation and mediation skills to address organizational or community challenges.	<p>R: Collaborative integration project Use negotiation and mediation skills on a coalition in an emergency response exercise. O: Discussion board Use negotiation and mediation skills to come to agreement in a case scenario.</p>
20. Describe the importance of cultural competence in communicating public health content.	<p>R&O: Policy brief Incorporate principles of cultural competence in a policy designed to mitigate a health disparity.</p>
22. Apply systems thinking tools to a public health issue.	<p>R&O: Emergency Preparedness Plan Create a community emergency preparedness plan in a systems approach</p>

HLTH 509 SOCIAL AND BEHAVIORAL APPLICATIONS OF PUBLIC HEALTH THEORY

FOUNDATIONAL COMPETENCY	SPECIFIC ASSESSMENT OPPORTUNITIES
6. Discuss the means by which structural bias, social inequities and racism undermine health and create challenges to achieving health equity at organizational, community and societal levels.	<p>R&O: Article reviews Identify and discuss social, cultural, and behavioral factors that influence health inequalities described in a journal article.</p>
7. Assess population needs, assets and capacities that affect communities' health.	<p>R: Theory application paper Identify needs, assets and deficits as the basis for a public health intervention.</p> <p>O: Learning activity Use secondary data sources to explore health determinants for a selected population.</p>
9. Design a population-based policy, program, project or intervention.	<p>R: Theory application paper Design a culturally appropriate, population-based health intervention incorporating behavioral theory.</p> <p>O: Learning activity In a series of learning activities, identify components of a culturally appropriate, population-based health intervention incorporating behavioral theory.</p>
10. Explain basic principles and tools of budget and resource management.	<p>R&O: Theory application paper Include a budget in plans for a population-based intervention.</p> <p>O: Discussion forum Discuss key components of an organizational operating budget and its management.</p>
11. Select methods to evaluate public health programs.	<p>R: Theory application paper Select appropriate evaluation methods in plans for a population-based intervention.</p> <p>O: Discussion forum Discuss appropriateness of evaluation methods used in a public health intervention described in a journal article.</p>
13. Propose strategies to identify stakeholders and build coalitions and partnerships for influencing public health outcomes.	<p>R: Theory application paper Identify critical stakeholders in a population-based intervention.</p> <p>O: Learning activity Create a logic model identifying stakeholders as resources in a population-based intervention.</p>

<p>14. Advocate for political, social or economic policies and programs that will improve health in diverse populations.</p>	<p>R: Theory application paper Create an advocacy coalition to support a selected health intervention. O: Learning activity Create an advocacy coalition to support a selected health intervention.</p>
<p>15. Evaluate policies for their impact on public health and health equity.</p>	<p>R: Theory application paper Evaluate the implications and unintended consequences of adopting an intervention in a selected priority population. O: Learning activity Evaluate the implications and unintended consequences of adopting an intervention in a selected priority population.</p>
<p>17. Apply negotiation and mediation skills to address organizational or community challenges.</p>	<p>R: Article review Describe effective models for negotiation & conflict resolution. O: Learning activity Describe effective models for negotiation & conflict resolution.</p>
<p>21. Perform effectively on interprofessional teams.</p>	<p>R: Article review Identify best practices of interprofessional collaboration to support public health policies and programs. O: Discussion forum Identify best practices of interprofessional collaboration to support public health policies and programs.</p>

HLTH 511 RESEARCH METHODS IN PUBLIC HEALTH

FOUNDATIONAL COMPETENCY	SPECIFIC ASSESSMENT OPPORTUNITIES
2. Select quantitative and qualitative data collection methods appropriate for a given public health context.	R&O: Article reviews Discriminate appropriate and inappropriatedata collection methods used in public health research reports.
3. Analyze quantitative and qualitative data using biostatistics, informatics, computer-based programming and software, as appropriate.	R&O: SPSS homework; Research project Use statistical methods to analyze data in homework assignments and a research project.
7. Assess population needs, assets and capacities that affect communities' health.	R&O: Survey development Develop survey items as an assessment instrument.
11. Select methods to evaluate public health programs.	R: Evaluation activity Examine evaluation methods of a program by type of evaluation and discuss appropriateness. O: Article reviews From article reviews, identify best methods for selected program evaluations.
13. Propose strategies to identify stakeholders and build coalitions and partnerships for influencing public health outcomes.	R&O: Article review Review and report on an article addressing community-based participatory research (CBPR).
20. Describe the importance of cultural competence in communicating public health content.	R&O: Research project – Communicate research findings effectively to disparate audiences.

Specialization Competencies

TABLE E
SPECIALIZATION COMPETENCIES
ADDRESSED IN MPH CONCENTRATION COURSES AND PRACTICUM
(P=Primary content of course; R=Reinforced in course)

GLOBAL HEALTH CONCENTRATION COMPETENCIES		HLTH 620	HLTH 622	HLTH 623	HLTH 624		HLTH 698 Practicum
MG 1	Create a public health intervention to address a population level need for a country outside the US, based on an analysis of the cultural, social, behavioral, and environmental factors that contribute to the problem.	P	R	R	R	R	R
MG 2	Design population, health, environmental and/or public nutrition programs/projects in the context of national and international policy.	R	P		R	R	R
MG 3	Employ evidence-based and culturally appropriate methods to plan, implement, and administer health interventions to address community and population health needs.	P	R	P	R	P	R
MG 4	Evaluate development programs/projects in terms of their quality, effectiveness and efficiency using qualitative and quantitative methods.		P		P	R	R
MG 5	Evaluate the adequacy of program resources of local, national, and international organizations engaged in social service activities.	P	R		R	R	R
MG 6	Apply the Christian worldview to public health practice in diverse settings and populations.	R	R	R	R	R	R
HEALTH PROMOTION CONCENTRATION COMPETENCIES		HLTH 630	HLTH 632	HLTH 633	HLTH 634	HLTH 635	HLTH 698 Practicum
MH 1	Use assessment data to target needs of poor, underserved, or vulnerable populations.	P	P	R	R	R	R
MH 2	Build best practices of cultural competency into a public health intervention.	R	R	P	R		R
MH 3	Employ best practices of program evaluation and community-based participatory research.	R	R	P			R
MH 4	Demonstrate appropriate and effective communication and advocacy skills when interacting with diverse audiences in the context of health promotion activities.			R	P		R
MH 5	Employ ethical & effective leadership & management skills to build and maintain work teams, organizational relationships,		R	R	R	P	R

	and community collaborations in support of public health efforts.						
MH 6	Apply the Christian worldview to public health practice in diverse settings and populations.	R	R	R	R	R	R

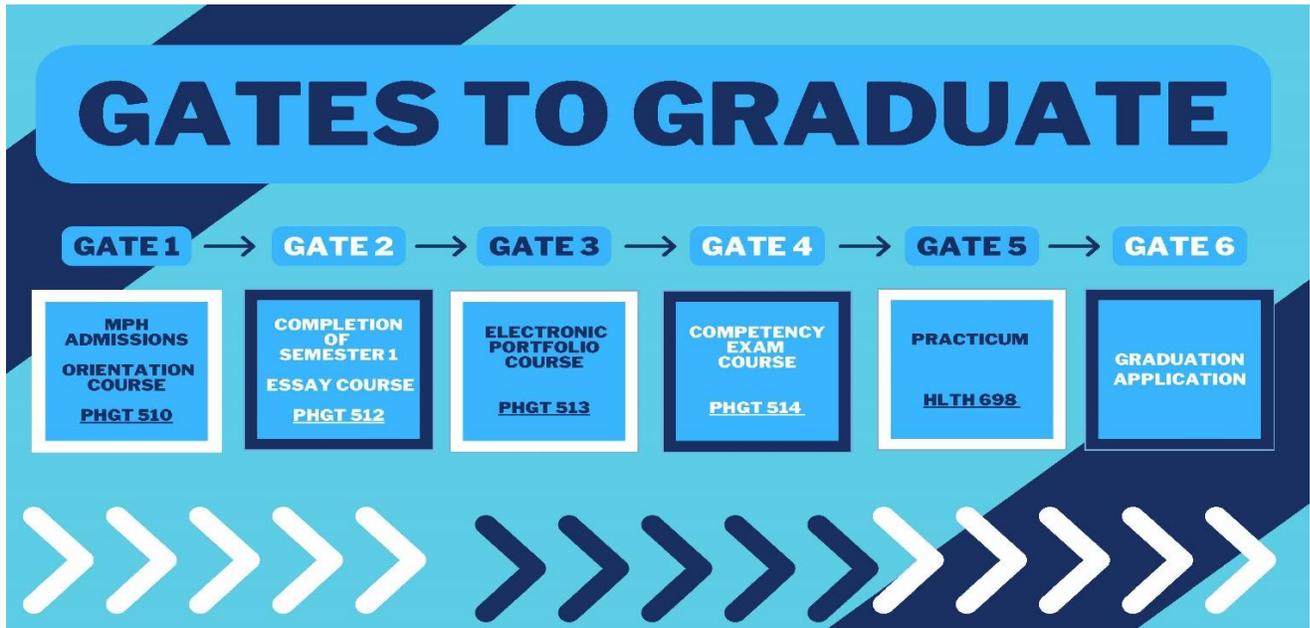

NUTRITION CONCENTRATION COMPETENCIES		HLTH 640	HLTH 642	HLTH 643	HLTH 644	HLTH 645	HLTH 698 Practicum
MN 1	Design and use an assessment tool to evaluate nutrition resources.	P	R	P	P	P	R
MN 2	Conduct and interpret quantitative and qualitative analyses of dietary behaviors.		R	P	P	P	R
MN 3	Create a diet plan to reduce disease risk.		P				R
MN 4	Apply nutrition principles and research findings into intervention strategies for specific populations.	P		P	P	R	R
MN 5	Design effective measures and policies to prevent food-borne illness.	P		R	P	P	R
MN 6	Apply the Christian worldview to public health nutrition practice in diverse settings and populations.	R	R	R	R	R	R

ENVIRONMENTAL HEALTH CONCENTRATION COMPETENCIES		HLTH 624	HLTH 660	HLTH 661	HLTH 662	HLTH 663	HLTH 698 Practicum
ME 1	Communicate relevant information concerning environmental health issues.		R			R	R
ME 2	Identify scientific, cultural, political, and ethical practices and decisions that may have adverse effects on at risk human populations or sensitive ecosystems.	P		R		P	R
ME 3	Analyze strategies to minimize or alleviate environmental impacts.		P		P	P	R
ME 4	Identify, and describe noteworthy environmental health laws, regulations, programs, policies, and guidelines and their implications on activities aimed at protecting environmental health.		R		P	P	R
ME 5	Describe the impact of the environment on disease prevention and health.	P	P	P		R	R
MH 6	Apply the Christian worldview to public health environmental practice in diverse settings and populations	R	R			R	R

The Gate System

Admission and Progression Through Your Degree Plan

In Fall 2015, the Liberty University MPH program began a gate system to help students monitor their progress through their degree plans. In 2022, the gate was realigned to meet improved program standards for retention and curriculum experience. Students entering or reenrolling in the MPH program after August 2022 must complete the updated gate courses to complete the degree. Students enrolled on the DCP between 2015-2022 will remain on the previous gate system. The following structure outlines the gates for updated 2022 gate system.

GATE 1: ADMISSION TO GRADUATE SCHOOL, COMPLETION OF HLTH 501, AND COMPLETION OF PHGT 510

1. Once students have been accepted for admission into the MPH program and enroll in HLTH 501, they have entered Gate 1. Students are required to complete HLTH 501 as the first course in preparation to complete the program. Students will also enroll in and complete the first Gate course, PHGT 510 Public Health Orientation Course. This course will help to ensure the students are aware of the multitude of resources offered to them during and after their time as a student.
 - a. Full Admission- Have a regionally or nationally accredited bachelor's degree with a least a 3.0 GPA (on a 4.0 scale).
 - b. Advisory Admission- Have a regionally or nationally accredited bachelor's degree with at least a 2.5 GPA ranging from 2.5-2.99 (on a 4.0 scale).
 - i. Students must take HLTH 500 in their first semester.
 - ii. Online students should take HLTH 500 as the *only* course in 1st term; if students elect to take a second course in the 1st term, take the introductory course to the chosen concentration (HLTH 620, 630, or 640) along with HLTH 500. In the 2nd term, take HLTH 501 plus another MPH core course, as well as PHGT 510.

- iii. Residential students may enroll in 9 credits in the first semester and may take the introductory course to their declared concentration (HLTH 620, 625, 630, or 640) and either 507 or 509.
2. Students pass Gate 1 once they have completed HLTH 501 with a grade of C or higher and the first Gate course, Orientation PHGT 510.

GATE 2: COMPLETION OF A SEMESTER AND PHGT 512

1. The faculty understands many students enter graduate studies to explore career options; they may change programs after taking a few courses on any given degree completion plan. Completion of Gate 2 establishes the student as belonging to the MPH program. This step provides the basis for calculating enrollment and completion statistics for the MPH program.
2. Gate 2 is completed after the student has fulfilled Gate 1, taken 12 credit hours, and finalized the PHGT 512 Public Health Essay Course.

PHGT 512

Upon entering Gate 2, students will enroll in PHGT 512 Public Health Essay Course. Each student is asked to write a paper explaining what public health is and how it fits into their career goals (1000 words minimum). Students will gain a better understanding of the purpose of the public health essay and thus will learn to align their concentration and career goals.

This will add to the Faculty/Staff ability to understand students' professional plans, provide a framework for selecting electives, and help the students locate an appropriate practicum experience. Additionally, the document may prove useful for the student as she or he seeks employment opportunities. **The Public Health Essay will be placed into the student Portfolio as a requirement later.**

GATE 3: COMPLETION OF PHGT 513

1. PHGT 513 is designed to help the students build and create a successful electronic student portfolio that they can utilize as a resource when applying for jobs.
2. Students enter Gate 3 upon successful completion of Gate 2 (PHGT 512) by enrolling in PHGT 513, Public Health Portfolio Course. Students will begin collecting the artifacts needed for this portfolio upon successful completion of their first core course. Specific assessment opportunities for the Program's foundational competencies comprise the student portfolio. Each core class has an assignment that will be required for the portfolio. During the program, as students complete each core class, students are expected to upload assignments into the InPlace Profile for safekeeping until it is time to build their portfolio during PHGT 513.
3. The Public Health Portfolio is a documentation repository for student achievements. Required assignments provide an assessment of program effectiveness and evidence of student mastery for the foundational competencies. Students are responsible for all required documents pertaining to the portfolio. The PHGT 513 Public Health Portfolio will include:
 - An essay on public health and how the MPH will be used to meet student career goals. (See the MPH Student Portal for details).
 - Documentation of specific assessments and assignments from each core course (see Portfolio tab in the Portal for details).
 - A current resume or curriculum vitae (CV). Students are encouraged to contact the Student Career Center for assistance in resume or CV development, as needed.
 - A paragraph describing volunteer service, co-curricular activities, or extra-curricular activities considered as applied practical experiences (APE) as well as a paragraph describing interprofessional experiences (IPE).

- Background check (valid for up to one year after completing). This is completed in HLTH 511 as a requirement for enrollment in HLTH 698. The appropriate receipt is included in the portfolio to indicate completion.

GATE 4: COMPLETION OF PHGT 514 PUBLIC HEALTH COMPETENCY EXAM COURSE

1. Students entering the program prior to Fall 2018 will take the competency exam by being manually registered into the exam course, HLTH 600. Students on DCPs between Fall 2018-Fall 2022 will register for themselves for the zero-credit HLTH 600 course in the semester prior to their practicum, or after they have completed all core classes. Students registering during or after Fall 2022 will be placed in the most recent updated Gate system, which currently includes PHGT 514 as the exam course.
2. PHGT 514 is comprised of the Competency Exam, as well as resources for the Practicum class, HLTH 698, and the application process for Practicum.
 - The competency exam provides evidence of a student's readiness for a practicum experience. A passing score of 70% is a requirement to register for HLTH 698 Practicum. The exam may be taken a **maximum** of 3 times (during HLTH 600 or PHGT 514 dependent on your DCP year) to achieve a passing score. **Failure to successfully pass the exam after 3 attempts results in dismissal from the program, unless remediation is considered.** If remediation is granted and successfully completed by the student, the student may be permitted by the panel to retake HLTH 600/PHGT 514 **no more than once.**
3. Assignments within PHGT 513, Public Health Portfolio course and the study guide on the MPH Portal will help students prepare for the exam.

GATE 5: COMPLETION OF HLTH 698 PRACTICUM

1. Students should refer to the next section for details about selection and completing the practicum.
2. Students must complete all core and concentration courses, HLTH 600/PHGT514 (competency exam) prior to enrolling in a practicum.
3. Students are responsible for locating an appropriate practicum to match their degree concentration and career goals and submitting their selection to the Director of Practicum through InPlace by the Application deadline for the term desired.
4. Ideally, the practicum site should be approved by the Director of Practicum at least 2 weeks prior to the term during which the student intends to enroll in HLTH 698 Practicum to secure your seat in the class, complete financial check in, and enhance transition into the course.

GATE 6: APPLY FOR GRADUATION

1. Students are permitted to walk in the commencement ceremony prior to completion of the HLTH 698 Practicum; however, students should apply for graduation upon enrollment in the practicum to ensure degree conferral at the end of the course.
2. Refer to the University Registrar webpage for details.

Note: Students may walk with in the graduation ceremony with up to 6 outstanding credits. Additionally, there will be an opportunity to apply for department awards if you meet the necessary requirements.

Contact the Gate Coordinators for more information or explanations:

The Practicum

All students enrolled in the Master of Public Health program must complete a practicum field experience in an organization, agency, or community that provides planning or services relevant to public health and their MPH concentration. One goal of the MPH practicum is to provide students the opportunity to use knowledge and skills acquired in the academic program under the direction of a preceptor/supervisor. To meet accreditation standards and ensure a quality program experience all students are required to demonstrate mastery of foundational and concentration competencies outside of the classroom. Finally, the practicum provides the opportunity to hone career level transferable skills such as the development of leadership ability, team building, group process skills, political awareness, communication skills, understanding of public and private financing mechanisms, and insight into organizational behavior.

PREREQUISITES

Access to the practicum course (HLTH 698) includes an application process. Detailed information on the process is available in the MPH Practicum Guidelines on the [MPH Practicum webpage](#). To register for this course, the following items must be satisfied:

- Successfully complete the MPH core courses and the declared area of concentration courses. **All core and concentration courses must be successfully completed prior to applying for the practicum course. NO EXCEPTIONS.**
 - Complete a **Background Check** through [CastleBranch](#).
- Complete the **Student Practicum Agreement**
 - For students registered in DCPs **prior to** Fall 2022, submit the practicum application found in Apex through Apex Form which will go to the Director of Practicum for approval.
 - For students in DCPs in, or after, Fall 2022, the application process is found in PHGT 514 and InPlace.

Although the Director of Practicum and faculty are here to help, the student is ultimately responsible for finding and securing a practicum that will meet his or her needs and course requirements. If you have concerns or need clarification on the practicum placement process, please contact the Director of Practicum, at email MPHpracticum@liberty.edu (remember to include your name and ID number in all correspondence).

HLTH 698 PRACTICUM COURSE REQUIREMENTS

- 120 hours (minimum) for the duration of the project (not to include classwork)
- A pre-defined project, aligned with the student's concentration, that assists an organization in addressing unmet needs leading towards population impact, which allows for demonstration of foundational and concentration competencies by the student.
- Preceptor site approval from the Director of Practicum.

PRACTICUM COURSE STRUCTURE

- Residential and Online Student Timeframes: All students signed up for the practicum must complete 120 hours minimum in a public health setting over a 16-week period/one

semester, as well as the practicum course and requirements. All students will participate in a weekly Canvas course HLTH 698 to submit their assignments. All students will engage in Instructor contacts throughout the program to connect student learning and opportunity for cross discussion.

- During the HLTH 698 course, students will complete a Project paper aligned with their 120 minimum field hours that describes and presents the components of the project to include:
 - 1) Public Health Problem,
 - 2) Population
 - 3) SMART Objectives, Intended Interim Impact, Long-term Impact
 - Final assignments for this Course will include a 20-page Project Paper and Video Presentation.
- *The 120-hour requirement does *not* include technical aspects of the practicum requirements, such as completing paperwork with the site supervisor, obtaining the required signatures, and gaining approval.

Contact the Director of Practicum for more information or explanation on the Practicum process:

Director of Practicum
MPHpracticum@liberty.edu

Graduation Requirements

1. *Satisfactory completion of 42 total hours.
2. A minimum of 21 hours must be completed through Liberty University, not to include credits from a prior degree earned through Liberty.
3. A maximum of 21 hours of transfer credit, including credit from a degree on the same academic level previously earned through Liberty, may be applied to the degree.
4. Students must complete their MPH degree with a 3.00 or higher cumulative grade point average.
5. No more than two grades of “C” may be applied to the degree (includes grades of C+ & C-).
6. No grades of “D” may be applied to the degree (includes grades of D+ & D-).
7. For information regarding the repeat policy, please refer to “Course Repeat Policy” in the Academic Information and Policies section of this Catalog.
8. Degree must be completed within five years.
9. Complete the documented electronic portfolio, successfully pass the Competency Exam, and subsequently take and complete the Practicum successfully.
10. Submit a Graduation Application to the Registrar’s Office at the beginning of the final semester.

*All students admitted on Advisory status (admitted with an undergraduate GPA between 2.5 and 2.99) must complete HLTH500 in their first semester, prior to attempting HLTH 501 and are required to enroll in and pass GRST500 in their first semester.

Academic Policies

MPH GUIDELINES AND POLICIES

Late Work

All written assignments and assessments are due at the beginning of the class period on the day designated in the Course Calendar. Missed quizzes cannot be made up nor late work accepted. Extenuating circumstances (e.g., death in the family, personal hospitalization) will receive consideration. Last-minute computer or network failure is not an acceptable excuse. Plan for unexpected interruptions.

Grade Appeal Procedures/Other Concerns

The first stage of grade appeals for a course is for the student to talk to the instructor. In the event no satisfactory resolution is reached, the student may appeal to the Program Director or Chair. If those appeals are not satisfactory, the student may appeal to the dean. Only final posted grades may be appealed beyond the instructor. The Course Catalog explains [Academic Information & Policies](#) along with contact information for both online and residential programs concerning policies, forms, grade and other appeals.

Other grievances by residential students may be taken to the Program Director and Department Chair, and then to the Dean. If not satisfactorily resolved, students may contact the College of Applied Studies and Academic Success (CASAS) and work with their professional advisor to submit an official [complaint form](#). Similarly, online students may file a complaint or appeal through the [LUO Student Advocate Office](#) for any concerns or complaints.

Writing Style (AMA) and Services

In all LU MPH courses, you will prepare written assignments using the writing style and format presented in the *American Medical Association Manual of Style, 11th ed.* (AMA). Free writing assistance for residential students is available from the [LU Graduate Writing Center](#). Online MPH students can receive free writing assistance from the [Online Writing Center](#).

Canvas- Turnitin & Plagiarism

Students are expected to submit all written assignments via Turnitin via Canvas. A link for each assignment will appear in the Course Content area. Students having trouble with submissions or anticipating a delay for a legitimate reason should contact the instructor as soon as possible to negotiate an alternative plan of action. Waiting until after the assignment is due will result in loss of points for the assignment.

Attendance

As an adult learner, you make your own decisions about class attendance. Research shows that students who prepare for class and attend regularly are more likely to learn course content and perform well on assessments than those who do not prepare or attend regularly. In addition, the whole class benefits through informed and energetic discussions and shared collaborations in class activities. When you are prepared, on time, and regularly contribute in class meetings, you help yourself and your classmates get the most out of your time together. It is your responsibility to obtain assignments and course materials missed due to absence. See Grading & Evaluation Policies above for more information on missed assignments and assessments.

Academic Misconduct

Academic misconduct is strictly prohibited. See the Graduate Catalog or the Liberty Way for specific definitions, penalties, and processes for reporting.

A Word on Academic Integrity

Do your own work. Cheating on tests, unauthorized sharing of work or assignments, copying the work of others and claiming it as your own, and other forms of academic dishonesty are causes for dismissal from the course with a grade of F for the semester. As a member of the Liberty University community and as a follower of Jesus Christ, you are always expected to conduct yourself ethically and above reproach. If you have any confusion or questions about proper writing, quoting, or citing to avoid plagiarism, please see your instructor prior to submitting your assignment. For some written assignments you will be asked to submit your work to TurnItIn, a plagiarism and originality checking platform. For more information, refer to The Graduate School Honor Code and The Liberty Way.

Disability Statement

Students with a documented disability may contact the [Office of Disability Accommodation Support](#) (ODAS) in DeMoss Hall 1264 to make arrangements for academic accommodations. For all disability testing accommodation requests (i.e. quieter environment, extended time, oral testing, etc.), [Testing Services](#) (DeMoss Hall 1036) is the officially designated place for all tests administered outside of the regular classroom.

Drop/Add Policy

If a student needs to remove a class from his/her schedule after the semester has started, the Registrar's office will constitute the class with a "drop" or "withdrawal" status. The method of processing the request is based on the student's attendance.

A class can be dropped at any point prior to the start date of the course or once the course has begun up until the student attends the course. Attendance is defined as "any submission to Canvas within the enrollment dates of the course." This definition includes, but is not limited to completion of the Course Requirements Checklist and the Course Introduction.

Once a submission is made to Canvas within the enrollment dates of the course, courses must be removed via withdrawal. To discuss the possible consequences of a withdrawal, contact Academic Advising at 800-424-9595.

Students are expected to continue course work throughout the term and/or sub-term. Students who begin attendance, but cease progressing toward the completion of the course will be assigned a grade of "FN." If the student receives all FN's in a sub-term, the student will be subject to the Unofficial Withdrawal Procedure which includes the reduction and/or return of all financial aid.

Dress Code (applies to classes meeting on campus)

Students are expected to maintain a neat, professional appearance while in class. Consult your department for additional guidelines.

Classroom Policies (applies to classes meeting on campus)

Classroom policies will be established and enforced by the individual instructor.

Additional Information

QUALITY ENHANCEMENT PLAN (QEP)

Research demonstrates that effective research training moves students from basic to advanced levels in a systematic way. Students learn how to develop research within their discipline, design research projects, and then finally disseminate their research.

Thus, the QEP will be aimed at assisting students in “The Three ‘D’ Model:” Develop, Design, and Disseminate, with an emphasis on integration of the Christian worldview in alignment with the University’s mission.

For more information on Liberty’s Quality Enhancement Plan [Click Here](#).

PUBLIC HEALTH STUDENT ORGANIZATION

Liberty University Public Health Student Association ([LUPHSA](#)) is an official Liberty student government club that meets once a month to conduct meetings and is a place to meet fellow health professionals and public health students from Liberty University. LUPHSA raises awareness, and promotes health, wellness, and disease prevention on the Liberty University campus and surrounding communities. Connect with LUPHSA on FB and Instagram.

INSTITUTIONAL REVIEW BOARD (IRB)

What is the IRB?

The Liberty University IRB protects the rights and welfare of human participants in research studies. The IRB consists of faculty members from various departments, and one member outside the university. The board members review research proposals with the express purpose of ensuring the privacy, anonymity, and above all, safety of research volunteers.

What does the IRB do?

The IRB is charged with assuring the protection of the rights and welfare of human participants involved in research. Human subjects research is regulated by the federal government through the Department of Health and Human Services Office for Human Research Protections. The IRB is required to review all research involving human participants before it is conducted.

What does the IRB have to do with me?

Any undertaking in which a University faculty member, staff member, or student investigates or collects information on living humans for research may be considered as “involving human participants.” This activity includes surveys, interviews, observations, and the use of archived data. Before beginning a project, it is the responsibility of each investigator to seek review by the IRB for any study involving human participants.

For more information on institutional research and the IRB visit the [IRB site](#) or email them at: irb@liberty.edu.

TITLE IX

Any student who believes he or she has been the subject of sexual harassment, discrimination, or assault in any form should immediately report the incident to the [Title IX Office](#) and/or [LUPD](#). Students needing assistance in contacting local authorities may request help from campus authorities.

Liberty University strongly encourages reporting of all forms of sexual harassment, discrimination, or assault. If you are not sure an incident qualifies as a violation of the Policy on Sexual Harassment, Discrimination or Assault, please contact the Title IX Office or the appropriate Deputy.

JERRY FALWELL LIBRARY

As a central training ground for the next generation of *Champions for Christ*, the Jerry Falwell Library (JFL) is the "heart of the university." Named in honor of Liberty University's founder, the library will usher in a new era of academic excellence and spiritual strength for students, faculty, staff, and the community.

Undergraduate and graduate students are permitted to use the JFL during normal operation hours. This beneficial environment allows students to study, rent textbooks, book study rooms, print assignments, and more!

Online and residential student support can be found at: [Student Support |](#).

COLLEGE OF APPLIED STUDIES AND ACADEMIC SUCCESS (CASAS)

[CASAS](#) is here to help make your academic experience a successful one. With our Advising Services, you'll get both peer and professional guidance for your personal and academic success. And our Academic Success Center gives you everything from tutoring to writing help. You can also gain marketable skills with our Technical Studies degree or Continuing Education classes. And save time and money, with our 3+1 course sequences and Experience Plus program.

Location	Demoss Hall, Room 1100
Hours	8:00am-4:30pm
Phone	(434) 592-4100 (residential students) (800) 424-9595 (online students)
Email	casas@liberty.edu

WRITING CENTER

The residential Writing Center wants to help you build writing skills to serve you in your classes and future careers. [Peer coaches](#) are highly trained to help you wherever you are in the writing process, from brainstorming to preparing your papers for submission. We offer one-on-one appointments to current residential students as well as a Writing Lab, which is a flexible environment where students can get assistance during the drafting process. Online students are encouraged to contact the [Online Writing Center](#).
