

Roommate Selection

LU | STUDENT HOUSING

We recognize that part of what makes your space feel special is who you share it with. As such, we have developed a tool specifically to help you search for and select students you'd like to room with. Note: This feature is no longer a roommate-matching tool.

When you're ready to select your roommate(s), please follow the below instructions.

Step 1 — Navigate to [StarRez](#) and use your LU username and password to log in.

Step 2 — Once on the homepage, **select Roommate Search for [academic year]**, as highlighted in the red box below.

There have been a few changes to the Res Life Portal, to get familiar with the updates, take a quick tour. [Take the Tour](#)

Open Now

- [Housing Selection \(Fall 2026\) - New Students](#)
- [Roommate Search for Fall 2026](#)
- [Room Change Requests](#)
- [Fall 2026 & Spring 2026 Off-Campus Requests](#)

Step 3 — Please **review** the information outlined on the following page, related to the profile creation and roommate linking processes. When you're ready, **click 'Begin.'**

Profile Creation and Roommate Linking Process

Students who wish to connect with potential roommates may do so by creating a **Student Profile**. This step is **optional** and **not required** to complete Housing Selection. However, creating a profile allows you to:

- Be searchable to other students
- Search for roommates by their username
- Send and receive roommate requests

Once you and your roommate(s) have successfully linked, you will be able to assign one another during the Housing Selection process.

Please keep the following in mind:

- Students with **different classifications** (ex. returning student vs. new student) **cannot** assign each other to a room.
- Being linked as roommates **does not guarantee** a housing assignment. A room is only secured after you fully complete the Housing Selection process

Begin

Step 4 — Next, **select the correct term**, or **academic year**:

Academic Year (2026-27) - Fall & Spring

(8/19/2026 - 5/12/2027)

You started your application for **Academic Year (2026-27) - Fall & Spring**

Continue

Step 5 — To **create a profile**, **fill in** your **username** and **click 'Continue.'**

Create Profile

The Student Profile page provides students the opportunity to create a username and indicate whether they wish to be searchable to connect with potential roommates for Housing Selection.

- **Please note completion of this page is optional and is not required in order to select a housing assignment.**

Please be advised that if you choose to link with a roommate of different classification (ex., returning student vs. new student), you will not be able to assign one another.

Username Update

Your *Username* is how other students will search for you during the Housing Selection process. For best results, we recommend using your LU email **without** "@liberty.edu."

Username (LU Username)

Continue

Step 6 — Ensure that you select **'Yes'** when prompted, as this allows you to view and send invitations to other students.

Your profile is all set! Would you like to view current requests or send invitations? **(Required)**

▼

Yes

No

Save & Continue

Step 7 — If **'Yes'** is selected, you will be brought to the roommate selection page to begin searching for the known roommate. **Click 'Search for a Known Roommate'** at the bottom right. If **'No'** is selected, **jump to step #9** below.

Roommate Selection

If you'd like to search for a potential roommate(s), use the **"Search for a Known Roommate"** link below.

If you prefer to select a room before hearing back from potential roommate(s), or if you are finished on this page, you may return to the homepage using the link below:

[Return to Homepage](#)

Please Note:

- Creating a roommate group **does not** reserve bed(s) for your roommate(s). You will be able to assign beds for yourself and any confirmed roommate(s) on the **Select Beds** page during Housing Selection.
- If your roommate confirms **after** you have already chosen a bed, you may need to repeat the Housing Selection process to secure a room together.
- If you do not select or assign a roommate, another student may be placed in the available bed(s) in your room.

You have not selected any roommates at this time.

[Search for a Known Roommate](#)

Step 8 — Search for your roommate. You may use any of the below fields to search, but **we recommend using the highlighted field** below, which uses the username created at the beginning of this process.

First Name:

Last Name:

Residence Life Portal Username:

LU Email:

☒ Exclude results that cannot be added or joined

[Return to Roommate Selection Main Page](#)

[Search](#)

Step 9 — If 'No' is **selected**, your **profile will still be created**. This profile will now be searchable by other students, to be added to their roommate groups.

Profile Created Successfully

You've successfully created your Portal profile and are now searchable by other students who may invite you to join their Roommate Groups.

If you ever need to update your profile, review your roommate requests, or search for potential roommates, simply return to this process and select "Yes" on the previous page to access those options.
