

Pre-Use Safety Inspection for Golf Carts, Low Speed Vehicles & Utility Vehicles

Prior to using any golf cart, low speed vehicle or utility vehicle, the operator shall check:

1. Steering
2. Brakes and Brake Lights
3. Headlights and Taillights
4. Turn signals
5. Condition of Tires including inflation (visual)
6. Check for any indication of fluid leaks (oil, battery fluid, etc.) under/around the vehicle
7. Check the horn
8. Ensure beacon lights are working
9. Check mirrors are tight and not damaged and adjusted appropriately for the operator
10. Windshield wiper if so equipped
11. Any auxiliary equipment such as flood lights, winch, etc.
